

TO: Dr. Koultourides and Members of Council  
FROM: Dustin Anderson, Town Manager  
SUBJECT: Change Order No. 029  
DATE: June 7, 2021

---

**Background**

The construction of 45<sup>th</sup> St included the installation of retaining walls at the underpass corners. The contract plans included specific limits for T-Wall, limits for either Cut Wall or T-Wall, or specific limits of Cut Wall.

**Methodology**

Walsh Construction elected to use T-Wall for the construction of all four retaining walls. Unit pricing of all retaining wall related items are very similar and confirm that each wall was intended to be constructed as T-Wall by the contractor. Because there are existing pay items expected as Cut Wall construction, these items are being substituted at the same quantity and unit price for material acceptance purposes in accordance with INDOT specifications and requirements.

The total cost of this change order is \$0.00 and will be participating since the work is necessitated by the contract and is a substitution of participating items.

If approved, this change order would be 0.000% of the original contract price and the total changes to date would be \$1,641,582.92 or a 7.993% increase of the total project cost.

This change order has been reviewed and approved by our construction engineering firm DLZ as well as INDOT.

**Recommendation**

By motion and roll-call vote, approve Change Order No. 029 for INDOT Contract B-36229 in the amount of \$0.00.
