PROPOSAL FOR COMMUNICATIONS EQUIPMENT

Munster Public Works Department
508 Fisher St, Munster, IN 46321
Superintendent Chris Spolnik

Chris,

Thank you for this business opportunity and we look forward to implementing the best possible solution that you choose to proceed with.

This document is broken down into three proposals that were discussed with your team during the meeting.

Proposal 1.) This included a new VHF Repeater system, FCC licensing coordination, and Reprogramming of current customer radios.

Proposal 2.) This includes moving to the 700mhz Lake County Trunking Radio System for communications, 42 BK Technologies KNG2-P800 portable radios W/ chargers and speaker mics. KNG-B800 Base station with 7 remote heads for 7 offices.

Proposal 3.) This includes moving to the 700mhz Lake County Trunking Radio System for communications, 58 BK Technologies KNG-M 800 mobiles W/ Installation, and 20 KNG2-P800 portable radios W/ chargers and speaker mics. KNG-B800 Base station with 7 remote heads for 7 offices.

Please reach out to us with any questions or concerns,

Sincerely,

Lee and Jessica Jones

President and Vice President
