

**Munster Police
Department**

Memo

To: Clerk Treasurer Wendy Mis

From: Lt. Daymon Johnston

cc: Munster Town Council, Town Manager, and Controller

Date: 4/24/23

Re: Camera Server Replacement

The Police Department is in need of replacing our camera server that is outdated and out of warranty. Currently we are having connection issues and storage limitations regarding this server and need upgraded components and more storage to meet our current and future goals of maintaining and expanding our camera system for our streets and buildings. This server project has funding already available within our bond schedules that is earmarked for cameras and is below the \$50,000 threshold requiring bidding out of the project. The Police Department is requesting approval of this Standard Commercial Security Agreement with Vermillion Systems, Inc. for the amount of \$49,939.43.
