Construction

Component 1: Ridge Road

Reconstruct an approximately 1.3-mile segment of Ridge Road from the Illinois State Line to Columbia Avenue as a three-lane road (one lane of travel in each direction with center turn lanes/medians).

Construct a 10-foot wide multi-use path on the south side of Ridge Road along the length of the project.

Pedestrian improvements at 13 intersections to provide ADA compliant sidewalks and crossings. Curb bump-outs and pedestrian refuge islands are proposed at selected intersections to reduce crossing distances and increase safety.

Planting of 225 trees to increase the urban tree canopy.

Installation of amenities including landscaping, lighting, gateway and wayfinding signage, pedestrian seating, and other decorative features.

Stormwater and drainage improvements including installation of green infrastructure elements to capture and treat stormwater prior to discharge into the existing gray infrastructure.

CHANGES FROM APPLICATION**

**Scope:** No changes.

**Schedule:** The application estimated a NEPA completion date of September 2023. With an updated funds obligation date, the agreement plans a NEPA completion date of April of 2024. The difference in the dates is to plan for the time needed to advertise and award a consultant contract and added time for agency reviews not accounted for in the application.

**Budget:** The application requested \$17,143,321 of RAISE funds. The project was awarded \$17,143,320 of RAISE funds. The planned agreement total project cost is \$21,429,150 which is different from the application by one dollar. The reason for the change was to maintain a maximum federal share of 80 percent.

**2. Supporting Narrative.**

This project supports no-emission trips to destinations along and nearby Ridge Road and to the future train station on Manor Avenue. Improvements to multi-modal access for pedestrians and bicyclists along the corridor will create an environment that will result in the conversion of short vehicle trips to no-emission trips.

Green infrastructure incorporated into the project will capture and treat stormwater before it is released into the Little Calumet River. The project will also plant 225 trees to increase the urban tree canopy.
