RE: ASBESTOS & LEAD ABATEMENT CALUMET AVE PUMP STATION

Dear Ms. DiTommaso,

We present our proposal to furnish all necessary labor, supervision, tools, equipment and materials required for the removal and disposal of the asbestos containing gaskets from the 3 pumps as described. Lead abatement will consist of removal of lead-based paint removal necessary to safely remove the bolts and flanges. Coordination of work alongside the mechanical work will be necessary to expose flange gaskets.

Our Price is:	Lead Abatement	\$8,900.00
	Gasket Removal	\$4,000.00

- Replacement of flange gaskets and mechanical work will be provided by others.
- Insurance will be provided in the amount of \$2 million, occurrence basis.
- Work will be performed during a straight time basis during a normal week.
- All material will be wetted and sealed into 2; 6-mil poly labeled bags, and disposed of at an EPA approved landfill.
- All work will be performed by IDEM certified and licensed workers.
- Work will be performed in a professional and workmanlike manner and in legal accordance with current OSHA, EPA, acceptable industry practices, project specifications, and requirements, as applicable.
- Upon completion of the project, Owner shall receive a document, which includes Employee documentation, project logs, and waste shipment records.

If you have any questions regarding our proposal, please give me a call.

Very truly yours,

M & O ENVIRONMENTAL COMPANY

D. Schuman
