Mr. Coppolillo has installed awning signs without a permit, that face the Drive Aisle of the Centennial Village Development. PROJECT HISTORY

In May of 2023 the subject property secured wall sign permits and a canopy sign permits for each Building Façade Frontage Line, see Image 3. In August of 2023 Rosebud Steakhouse installed awning signs which face the Drive Aisle Front Lot Lines without a sign permit, see Image 4. Code Enforcement advised the property owner to remove the sign or apply for a Developmental Standards Variance to allow signage (awning signs) facing Drive Aisle Front Lot Line.

DISCUSSION

The primary entrance into the Rosebud Steakhouse establishment is located along the east side and the south side of the building façade, which faces the parking lot and are identified as Drive Aisle Areas. Because this Building Façade does not have primary entrance along the Frontage Line on the north side and west side of the building, they are requesting one additional Awning Sign be afforded to the Drive Aisle designation as the Building Façade Frontage line.

If the variance is approved, the petitioners would be permitted to install signage that conforms to the sign standards applicable in Table 26-6.701.A to include one additional Awning Sign only.

According to the Munster Character-Based Code, structures are allowed to have one sign per Façade, per business.

*A **Façade** is defined as the exterior Wall of a Building that is set along a Frontage Line, excluding any Garage or other parking accommodations.*

**The facade of 9601 Calumet is along Calumet Avenue and 45th Avenue, there are no public entrance that faces these roads where signage is allowed. The primary public entrance facade faces the Drive Aisle (parking lot), meaning signage is not allowed at the entrances to the businesses that face the parking lot.*

*A **Frontage Line** is defined as the common line that separates the Private Frontage from the Public Frontage, typically at the Front Lot Line in cases where the entire Public Frontage is with the public right-of-way.*

ILLUSTRATION 26-6.405.0-2 (FRONTAGE AND LOT LINES)

The **Front Lot Line** is the boundary at the front of a Lot along the Thoroughfare right-of-way or Drive Aisle, as applicable.

A **Drive Aisle** is a curbed vehicular accessway within a development site that connects to a street or another internal drive and provides access and circulation to or through such development site and the Building(s) and Parking accommodations thereon.

VARIANCE STANDARDS

The variance process is established to provide relief to a property owner when, due to unique circumstances, compliance with the zoning code imposes a hardship or practical difficulty on a property owner. The BZA is under no obligation to grant a variance. It is the petitioner's responsibility to prove a hardship or practical difficulty. The BZA should ask the petition to address the criteria listed below.

Sec. 26-6.804.I of the Munster Zoning Code states that the basis for a variance is as follows:

g. General Standards.

A Variance may be granted only if the Decision-Making Authority has made the following determinations for such Variance:

- i. the practical difficulties or unnecessary hardships that would be incurred by strict
- ii. application of the Use or Development standard, as applicable, are unique and not shared by all properties in the vicinity and are not self-imposed;
- iii. such Variance is the minimum Variance that will relieve such practical difficulties or unnecessary hardships, as applicable;

- iv. such Variance is in the spirit of the general purposes and intent of this Article as stated in Division 1; and

- v. such Variance is so designed as to provide reasonable consideration to, among other things, the character of the neighborhood, District, or Civic Zone, the conservation of property values in the vicinity, and the guidance of Development in accordance with the Comprehensive Plan.

h. Specific to Development standards Variances:

A Variance from Development Standards may be approved or approved with conditions only if:

- i. it will not be injurious to the public health, safety, morals, and general welfare of the community;
- ii. the use and value of the area Adjacent to the property included in the Variance will not be affected in a substantially adverse manner; and
- iii. the strict application of the Development standards will result in practical difficulties in the use of the property.

The applicant has addressed these criteria in the attached application.

DEVELOPMENTAL VARIANCE CONDITIONS OF APPROVAL

The Munster Board of Zoning Appeals is authorized to hear petitions for developmental standards variances and to approve or deny. The Board of Zoning Appeals may also impose reasonable conditions and restrictions. Indiana Code 36-7-4-918.5 lists the legal criteria for a developmental standards variance:

1. The approval will not be injurious to the public health, safety, morals, and general welfare of the community. Explain why this statement is true in this case:

The approval of this variance is for a sign that advertises where the restaurant is located. It is located on an awning in the back parking lot of the building where our restaurant is.

2. The use and value of the area adjacent to the property included in the variance will not be affected in a substantially adverse manner. Explain why this statement is true in this case:

The use and value of the area adjacent to the property will not be affected because it doesn't block the view of their property or business.

3. The strict application of the terms of the zoning ordinance will result in practical difficulties in the use of the property. Explain why this statement is true in this case:

This doesn't pertain to our business
