Re: Calumet Avenue Pump Station Improvement

The Calumet Avenue Pump Station has a single-unit system to provide heating and colling. The existing unit is 14 years old, cannot be rebuilt, and needs replacing. Budd Mechanical Systems, who services the mechanical systems at Town Hall, has quoted Public Works Staff for a new roof top unit and installation at a cost of \$17,921.00.

The cost will be paid from Water funds.

Recommendation:

By motion and voice vote, approve the purchase and installation of a new roof-top unit heating and cooling system by Budd Mechanical Systems for the Calumet Avenue Pump Station at a cost not to exceed \$17,921.00.
