Re: Cobblestones Park playground

---

The Cobblestones Park playground was identified to be replaced in our repair and replacement schedule. \$125,000 was included as a budget figure in the Town's 2023 general obligation bond issue. Proposals were solicited from Sinclair Recreation, which is our local sales rep. for GameTime equipment. Each playground option is priced out through the cooperative purchasing group, Omnia Partners. The Town participates as a member of Omnia Partners and purchasing through this process fulfills the bidding requirement.

Both options fall within the budgeted amount and will include removing the current equipment and safety surfacing, supplying the new equipment, freight, and installing the new equipment and engineered wood fiber safety surfacing. The existing musical instruments, which were added to the site in recent years, will remain to be part of the updated playground.

Option 1        \$124,991.29

Option 2        \$124,972.91

Staff recommends playground option #1.

**Recommendation:**

Staff recommends the purchase of the option #1 playground using the Omnia Partners purchasing cooperative for Cobblestones Park at a total cost of \$124,991.29 to be paid from the Town's 2023 G.O. bond.
