Current Zoning

APPLICATION INFORMATION:

Please select what this Application is for:

☒ **Variance** If yes, select one of the following: ☐ **Use** ☒ **Developmental Standards**

☐ **Conditional Use**

☐ **Administrative Appeal**

Brief Description of Project and List of Variances or Conditional Uses Being Requested (if applicable):

This project proposes the installation of one internally illuminated wall sign at Munster High School, exceeding the 48"

height limit for illuminated wall signs on buildings set back more than 100 feet. A variance is requested due to the building's large scale and distance from the roadway, which necessitate a larger sign for visibility and effective identification. The proposed

sign will be placed over the existing limestone triangle above the auditorium entrance which is an architectural element that has

weathered over time and does not serve a functional purpose. The new sign is designed to enhance the building's appearance and wayfinding, and it remains vertically aligned and proportional to the entrance.
