Yes, I would like it to be repaired.

Thank you.

**Subject:** FW: Accident with Damage to the Retaining Wall - Westbound Outside Shoulder of 45th St between Southwood Dr and the Underpass

Dustin,

Attached are photos of damage to Wall 4 architectural surface. I noticed this last week but didn't realize until yesterday it was the result of a crash. Dan has checked and there is no police report. If you would like to have this repaired I will inquire with Walsh and Atlantic about the cost and schedule to complete the work.

Thanks,

**Lee Randell, P.E. | Civil Engineer**

We have no crash reports for that area. Someone may have hit it and just kept driving.

**Subject:** Accident with Damage to the Retaining Wall - Westbound Outside Shoulder of 45th St between Southwood Dr and the Underpass

Good Afternoon Dan,

I have another accident report request if available, which took place westbound 45<sup>th</sup> St between Southwood Dr and the underpass. I noticed the damage last week, although until today I did not realize it was damage to the architectural retaining wall. It may have occurred within the last month. I do know that on 5/10/2020 the wall was not damaged. Could you please see if there is a report available for this accident? It appears the vehicle was driving westbound in the eastbound lanes, overcorrected, and struck the wall hard enough to damage the paint and surface features on the retaining wall.

Attached are two (2) photos take looking north at the wall (towards Camellia Dr) for reference. Please let me know if you have any questions.

Thank you sir,

**Lee Randell, P.E. | Civil Engineer**
