

Attn: Stephen Gunty - Director of Public Works

Introduction

Oxymagic carpet cleaners provide excellent carpet cleaning services. Throughout the lifetime of your carpet, the fibers are subjected to the day to day under-foot grind of typical household spills, dirt, children, pets and after a while it can all take its toll. Oxymagic products clean a wider spectrum of soils that other cleaners may not get out. With the Oxymagic system, average dry time is reduced to 30 to 90 minutes, which eliminates the chance for old stains to return and for mold and mildew to form.

Oxymagic's cleaning solutions and processes provide a healthier office environment.

Oxymagic's removal of common contaminants will insure a cleaner office environment for you and your staff

Overview

Thank you for the tour of the facilities. During our tour, we discussed doing a professional cleaning of the Town Hall & Police Dept are to be cleaned & spots removed....however, just on the travel paths and accessible exposed areas in the room and under desks and under conference tables but not under heavy unmovable furniture .

Recommended Solution

We will use 3 products to clean along with our double roller vacuum the designated areas of the Town Hall & Police Dept.

- Our patented Nature's Way Carpet Cleaner Solution
- OxyMagic Carpet Cleaner Powered by Oxygen
- Carpet Guard to prevent recurring stains from permanently setting in

We will move any light stationary chairs, light banquet/card/end tables, floor lamps and small office furniture on wheels or chairs on wheels. Our rollers we will be using are for commercial carpets only. We will have two people to clean where we will also use manual brushes and tools to assist in removing hard stain areas
