

OSFM Testing Rates 2023

30 DAY WALKTHROUGH (RECURRING)

\$129/month or \$119/month discounted annual prepaid. We will complete your 30 Day Walkthrough, provide you with documentation, store documentation on our servers, and notify you of any concerns resulting from the walkthrough.

ANNUAL TESTING

- \$315 ATG Functionality Certification (All connected components to the ATG system. Up to 8 sensors included, E-stop included)
- \$10 Sensor Inspection (Per sensor beyond 8)
- \$45 Annual Walkthrough Inspection
- \$12 Shear Valve Inspection (per dispenser)
- \$25 Interstitial Wrap Around Sensor Inspection (per sensor)
- \$315 Line Test (Up to 3 lines. \$100/ additional line. Includes mechanical leak detector test)
- \$80 Electronic Line Leak Detector Test (ELD per line)

TRIENNIAL TESTING

- \$50 Overfill prevention inspection (per device)
- \$60 Spill bucket Hydrostatic or Vacuum testing (per bucket)
- \$170 Hydrostatic test of STP sump (Per Pump/ Transition Containment)
- \$150 Hydrostatic test of UDC (Per Dispenser Containment)

NOTES:

Triennial testing includes supplying and disposal of test water.

A mobilization fee may be assessed based on travel zone.

This quote does not include any required replacement parts that may be required. Technician may either repair failed items on site or will gather information for a proposal depending on the failure. Any repairs will be completed at time and material minimum 1hr.

The site will not be available for fuel sales for some of the testing.

Excluding 30 day recurring walkthrough, minimum charge is \$500. Minimum charge for hydrostatic testing is \$750.

Effective 7-25-2023. Published pricing is subject to change.
