# Rustic Face

## SHOTBLASTED CMU

Our Rustic Face CMU features a textured-face block generated by blasting small pellets at the surface of the unit. This shot blasting produces a final product that leaves the larger pieces of aggregate in place while the very fine sandy portion of the surface is removed. This effect provides a weathered, rustic appearance to a building envelope.

Rustic Face masonry units are manufactured in the same variety of sizes and shapes as our other architectural block and comes in fifteen standard and fifteen neutral colors.

### **BIM – Revit® Design Files:**

We provide Revit® design files for our common unit shapes & sizes, including the family of finishes and colors– by shape. They are free to download from our website.
