TOWN OF MUNSTER PARKS AND RECREATION

RE: West Lake Park Improvements Near Completion

Bids were opened in June, 2011 for the new West Lake Park Improvements, which include soccer fields, pedestrian walking paths and bridges, basketball court, tennis courts, parking lot, and landscaping. Gough Construction was the successful contractor who was awarded the contract for this job. Work began in early August, 2011, on this project and is nearing completion. The fields will not be ready for play until fall, 2012, however, they have been planted and are growing in well. The parking lot was recently paved and the final touches to the landscaping are being applied. Bathrooms for the park will be included in a future phase. The total value of the improvements is approximately \$1.3 million. For more information about this project, please call James M. Mandon, PE, Town Engineer, at 836-6995.
