Re: Impact of the Coronavirus on the Egg Hunts and other Programs

The Egg Hunts are scheduled to take place April 3 – 5. The largest one is the Community Egg Hunt that draws hundreds of people. Governor Holcomb is recommending that all non-essential functions of 250 people or more be cancelled or postponed. The Director of Parks and Recreation would like to discuss the impact of the Coronavirus on the Egg Hunt and on other programs within the Munster Parks and Recreation system. In anticipation of the meeting, emails were sent to the other Directors in Northwest Indiana regarding their Egg Hunts or any other upcoming events. A list of their responses will be brought to the meeting.
