Nicole

We can do an 10 .5 or the 11 with mid mount tank no additional charge.  
We would prefer the 11'

Hi Denny,

We received word from Russ that we need an 84 CA. Will the quote you provided work with that change? If not, can you send over the adjustment so we can send over to Munster. If there any specific spec's you need on the chassis, because of the change, please list or highlight.

Thank you,

**Re: Quote ID munster550 10/20/2021**

Dear Russ,

As discussed, time is of the essence with ordering the vehicle. Ford's deadline for 2022 model year currently is slated for 11/12/2021. Ford has the right to change that date, so no guarantees can be given to hold the price as stated in the request for bid. We are quoting the chassis as white, not school bus yellow, as discussed. Per the body companies recommendations, we have changed the CA to 84" from 60". Please let us know if you have any questions.

Sincerely,

**Don Hadley**

## Vehicle Dimension and Performance Summary

Performance predictions in this report represent an estimate of vehicle performance based on standard operating conditions. Variations in customer equipment, load configuration, ambient conditions, and/or operator driving techniques can cause significant variations in vehicle performance. These values are not representative of results that may be shown in actual dynamometer tests. This report should therefore be used as a guide for comparative vehicle performance.
