How is Munster unique from surrounding communities?

How would you describe the character of Calumet Ave / Ridge Road today?

Describe your vision for Calumet Ave / Ridge Road in the future.

A destination

Livable

Safe and walkable with character and charm

welcoming space

Added green space with safe passage for all modes of travel

Eating ice cream under a tree

A place to ride bikes to

Cohesive destination with a small-town feel

Slow down traffic, reduce pass through, better off street parking.

Describe your vision for Calumet Ave / Ridge Road in the future.

Aesthetically Appealing

Want to come into town

Small, walkable blocks

Economically and environmentally sustainable

Unique identity

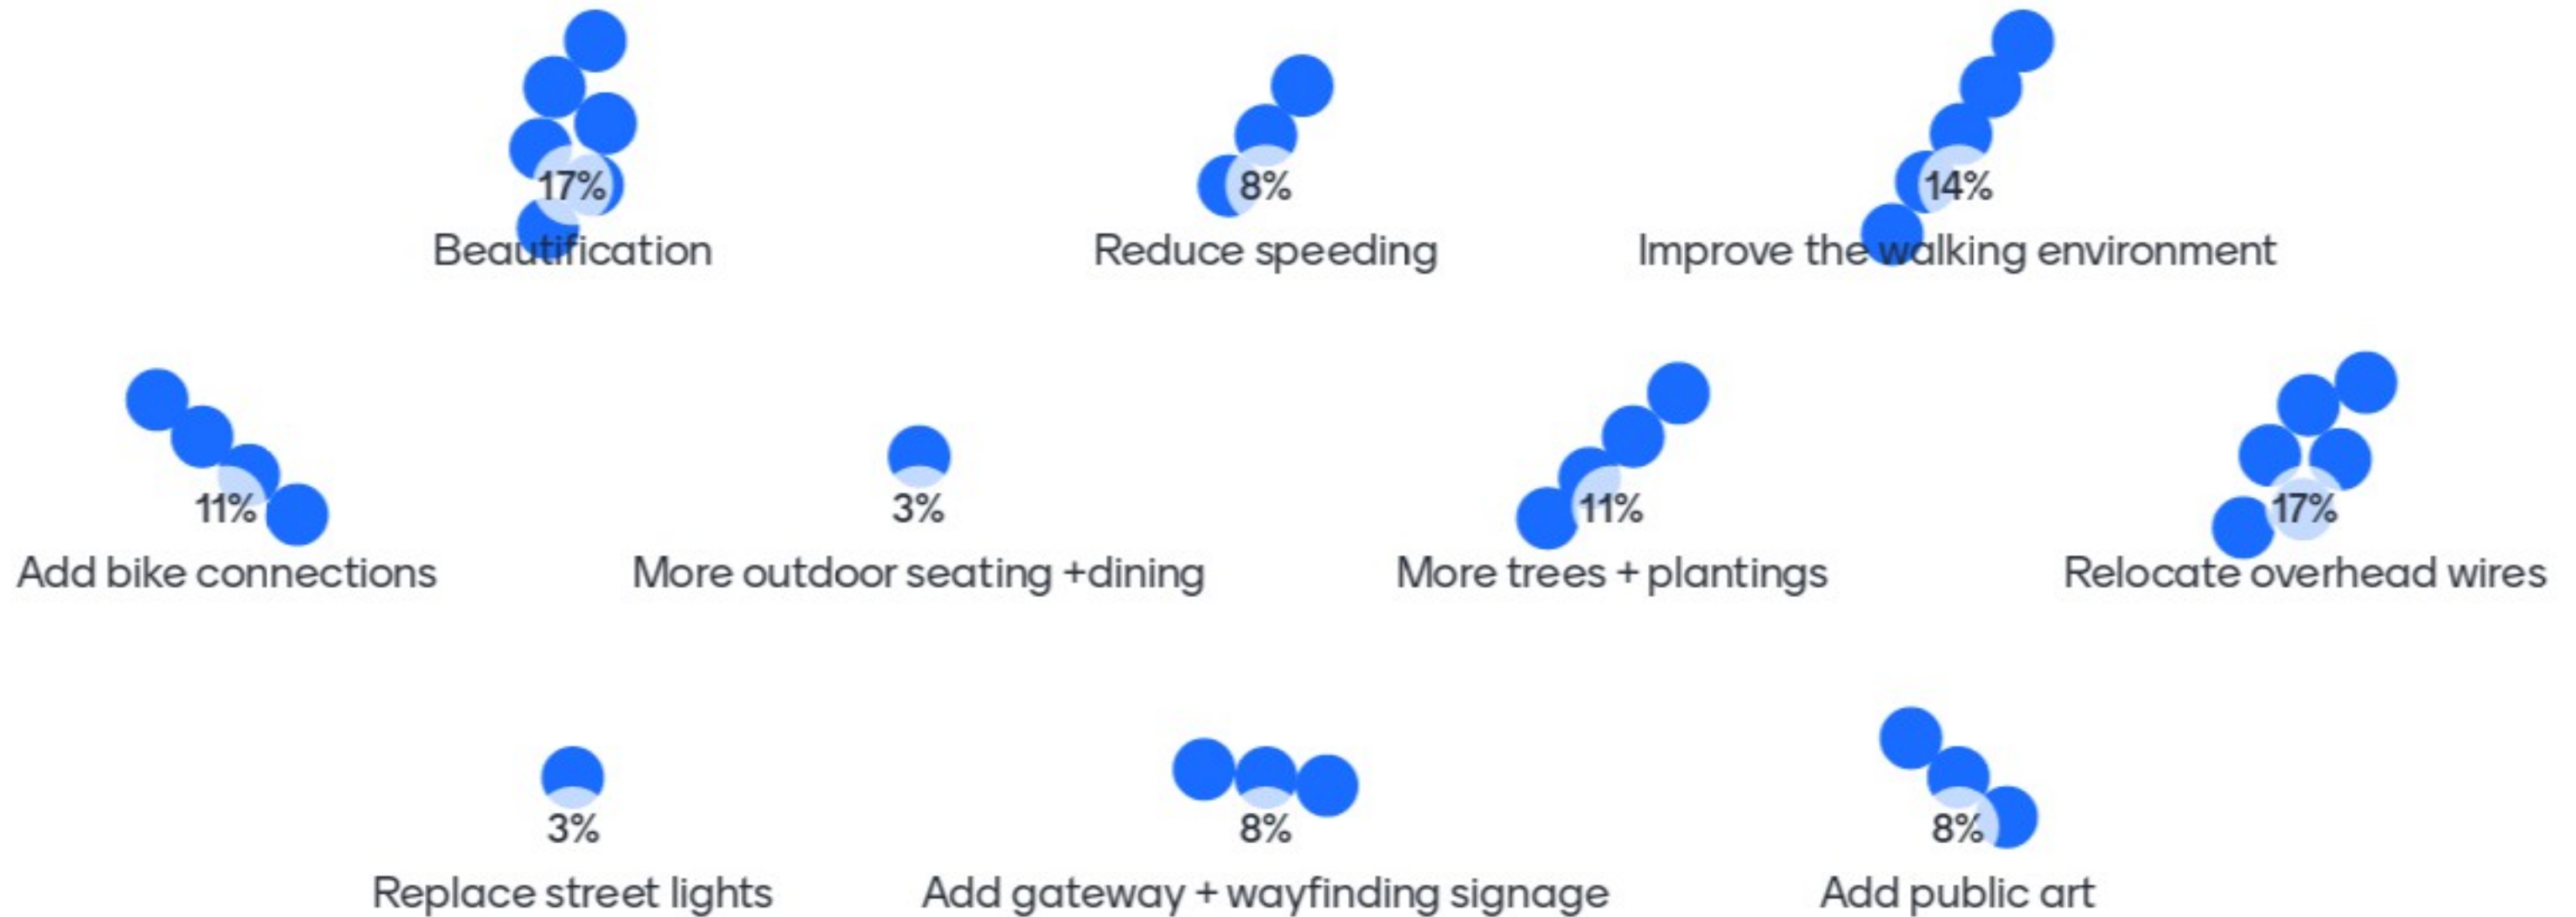

Plazas, landscapes medians, combine curb cuts,

Combined access

Quaint feel

Outside dining

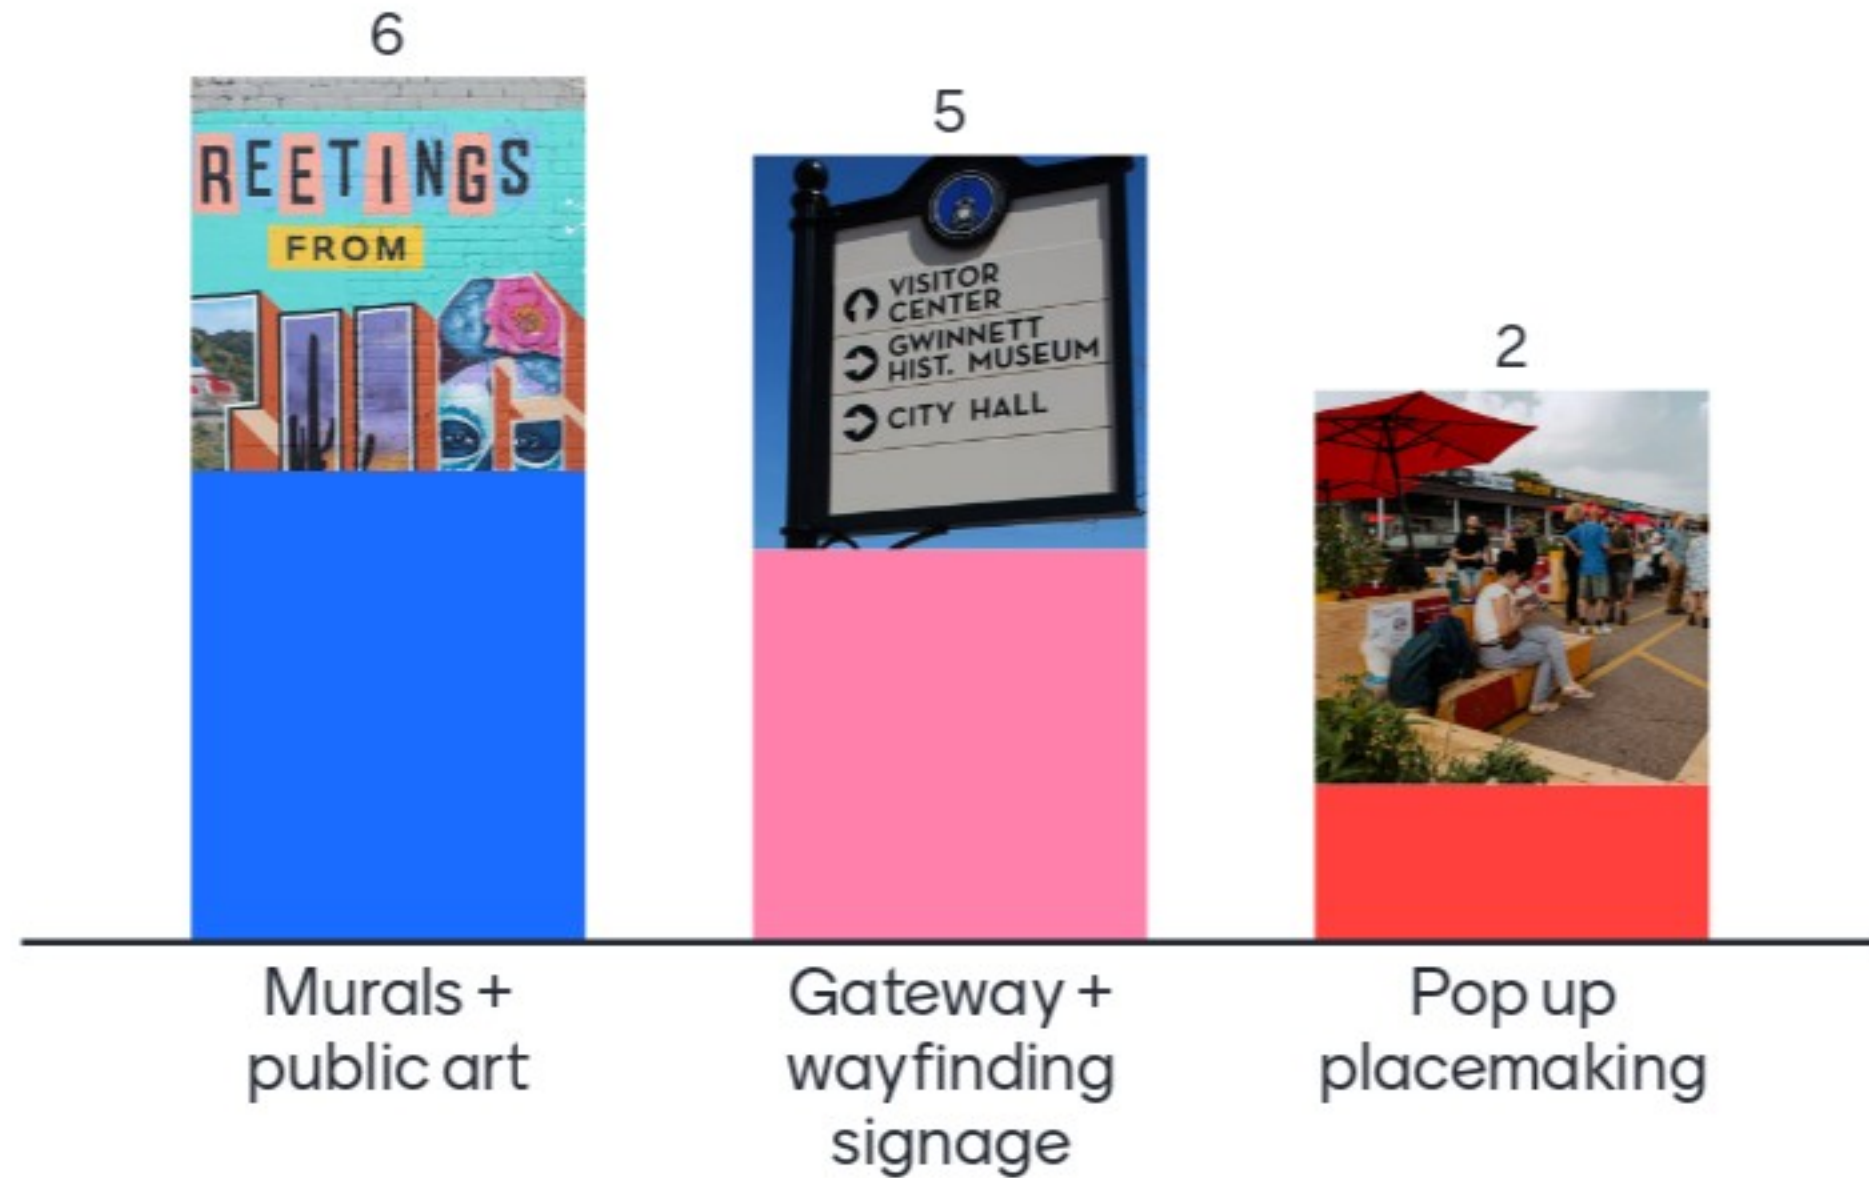

In your opinion, what about Calumet Ave needs the most improvement? (select 3)

In your opinion, what about Ridge Road needs the most improvement? (select 3)

In your opinion, what near term streetscape projects offer the most value?

As we embark on concept development, what else should we focus on?

Use this as a way to brand the town

Not sure, I think you're off to a great start.

How it will impact the existing business

Create a down town character

Long term sustainability

Focus on community and small businesses

Ease of maintenance

Consider how people get to this corridor and what other options are around for using or bypassing it.

Desires of the business community.

As we embark on concept development, what else should we focus on?

Walkable shops and dining safely.

There's no safe way to bike east/west to get to the train and connect the east side quadrant of the town

Use current character to guide project by districts. ie, Ridge Road East of Calumet has several bungalow, arts and crafts design. Plus the south shore arts. This could be the "Art District"

Some feature that is unique to Munster.
