

# Memo

**To:** Clerk Treasurer Wendy Mis & Town Council Members

**From:** Lt. Dan Broelmann

**Date:** May 2, 2022

**Re:** 2018 Bond Reappropriation

---

We are looking to spend approximately \$10,500.00 on two (2) Interceptor power-bikes (electric bikes) from RECON. Since the town has added more businesses and the attendance in our parks and at public events has increased, these new bikes will assist officers in engaging the public better and allowing officers to traverse places where regular squad cars cannot. These electric bikes will also help officers respond faster to calls and will help save their energy for dealing with possible combative suspects. Projected costs will include the bikes, lights, sirens, police bag, extra battery, assembly, and shipping.

Secondly, we are hoping to spend approximately \$2,500.00 for four (4) new Portable Breath Tests (PBTs). Several older PBTs (10 to 15 years old) have stopped functioning. These new PBTs will assist officers with investigations into drunk driving and other crimes.

The cost for both purchases would come from the 2018 Bond Issue. The costs of two (2) of the 2018 bond projects came in lower than anticipated and we would use the surplus funds to purchase the above items.
