Hi Russ,

I just spoke with GM. They are not releasing Gov't bid assistance amounts until May for 2024 MY. I won't be able to price 2024 model year HD's for you until then. I assumed they had the amounts listed since production has already started. I can build the truck for you to your specs, just won't be able to provide you with a quote until we get the incentives from GM.

Steve

On this one don't worry about the plow and below just spec out the chassis. Thanks
