DIVISION 1: GENERAL

SECTION 26-6.101 EFFECTIVE DATE.

The Effective Date of this Article shall be ten (10) days after posting and publication pursuant to Section 26-6.804.L.

SECTION 26-6.102 SHORT TITLE.

This Article, as the same may be amended from time to time, shall be known and may be cited as the "Munster Zoning Code." This Article is referred to herein as "this Article" or "these Regulations".

SECTION 26-6.103 AUTHORITY.

This Article has been adopted pursuant to the State of Indiana (the "State") Code (the "State Code"), Sections 36-7-4, et seq.

SECTION 26-6.104 COMPREHENSIVE PLAN.

By action of the Town Council, the Town adopted the Town Comprehensive Plan (2010). The Town Council has determined that this Article is consistent with the Comprehensive Plan which, together with this Article and the adopted Zoning Map, are hereby declared to constitute the comprehensive zoning plan for the Town.

SECTION 26-6.105 PURPOSES & OBJECTIVES.

The Town Council has adopted this Article based upon its determination that it promotes and is necessary to the health, safety, general welfare, comfort, and convenience of the Town and its residents, including without limitation, protection of the environment, conservation of land, energy and natural resources, reduction in traffic congestion, more efficient use of public funds, health benefits of a pedestrian environment, historic preservation, education and recreation, reduction in sprawl development, improvement of the built environment, preservation of

Open Space, stability and protection of property values, preservation of the public peace, safety, morals, and order, the orderly Development of the Town, and such other and additional purposes and objectives as are provided elsewhere in this Article.

SECTION 26-6.106 APPLICABILITY.

A. General.

This Article, the Zoning Map, and the standards and requirements of this Article, are applicable to all Development, re-Development, Improvements, land, Structures, Alterations, modifications, construction, re-construction, Buildings, Lots, and Uses within the Town.

B. Supersession.

This Article supersedes and replaces in its entirety Chapter 26, Article VI of the Town Code of Ordinances as the same has heretofore been in effect.

C. Exclusive & Mandatory.

This Article shall be the exclusive and mandatory zoning regulation for the Town.

SECTION 26-6.107 PLANS UNDER THIS ARTICLE.

This Article contemplates several types of Plans, as follows:

A. Building & Lot Plans.

1. Purpose of Building & Lot Plans.

A Building and Lot Plan is a Plan that includes the information required by Section 26-6.404 and demonstrates compliance with all requirements of Division 4 related to such information. A Building and Lot Plan is a Development Plan, as contemplated in State Code Section 36-7-1-6.

Reviewing and taking action on a Building and Lot Plan is delegated to the Zoning Administrator, as Plan Commission staff.

Appeal of action taken by the Zoning Administrator on a Building and Lot Plan shall be to the Plan Commission.

2. When Plan Required.

A Building and Lot Plan is required pursuant to Section 26-6.402.A as part of any application for issuance or approval of a subdivision or plat or a Building Permit.

3. Condition to Building Permit.

A Building and Lot Plan certified by the Zoning Administrator pursuant to Section 26-6.804.E as being in compliance with Division 4, is an Improvement Location Permit, as contemplated in State Code Section 36-7-4-802 and is a condition to issuance of a Building Permit.

B. Development Parcel Plans.

1. Development Parcel Plan Defined.

A Development Parcel Plan is a Plan that includes the information required by Section 26-6.804.F.3.b and demonstrates compliance with all requirements of Division 5 related to such information.

A Development Parcel Plan is a Development Plan, as contemplated in State Code Section 36-7-1-6.

Reviewing and taking action on a Development Parcel Plan is delegated to Plan Commission staff.

Appeal of action taken by the Zoning Administrator on a Development Parcel Plan shall be to the Plan Commission.

2. Development Parcel Defined.

A Development Parcel is a parcel:

- a. That, either alone or together with one or more other parcels under a common Development scheme, program or plan, is for four (4) or more gross acres;
- b. With respect to the Development of which any new Thoroughfare or extension or change of the design of any existing Thoroughfare is required or will be made or proposed; or
- c. With respect to which any District or Civic Zone assignment or any Thoroughfare alignment is proposed to be made or changed by a Zoning Map amendment.

3. When Plan Required.

A Development Parcel Plan certified by the Zoning Administrator pursuant to Section 26-6.804.F is required as part of any application for issuance or approval of a subdivision or plat, Building Permit, Building and Lot Plan, or Site Plan that relates to a Development Parcel, and as part of each application for Zoning Map amendment other than one prepared by or on behalf of the Town.

3. Condition to Site Plan Review.

If required, a Development Parcel Plan certified by the Zoning Administrator pursuant to Section 26-6.804.E as being in compliance with Division 5, is an Improvement Location Permit, as contemplated in State Code Section 36-7-4-802, is a condition to the review and approval of a Site Plan.

DIVISION 1: GENERAL

C. Zoning Map.

1. Official Map.

When adopted, the Zoning Map, as may be amended from time to time, shall be the Town's Official Zoning Map.

2. Map Elements.

The adopted Zoning Map, and any proposed Zoning Map amendment, shall include designations of Districts, Civic Zones, and any Special Requirements.

D. Site Plans.

1. Definition.

A Site Plan is a plan that includes the information required by Section 26-6.804.G.6 and demonstrates compliance with all requirements of this Article related to such information.

A Site Plan is a Development Plan, as contemplated in State Code Section 36-7-1-6.

Reviewing and taking action on a Site Plan is delegated to the Plan Commission.

Appeal of action taken by the Plan Commission on a Site Plan shall be to the Board of Zoning Appeals.

2. When Plan Required.

A Site Plan is required for all:

- a. New Buildings other than Single-Family Detached Dwellings and Two-Family Detached Dwellings;
- b. Additions to Buildings other than Single-Family Detached Dwellings and Two-Family Detached Dwellings that increase the

exterior dimensions or the Usable Floor Area;

- c. Alterations or modifications to a site, such as changes to parking layout, Driveways, landscaped areas, Screening walls, and public walkways;
- d. Any Development or application involving a Development Parcel;
- e. Zoning Map amendment requests; and
- f. Any other Development, Improvement or application for which a Site Plan is specifically required by this Article.

E. Sign Plans.

1. Purpose.

A Sign Plan is a Plan that demonstrates compliance with the Sign standards of Division 7.

A Sign Plan is a Development Plan, as contemplated in State Code Section 36-7-1-6.

Reviewing and taking action on a Sign Plan is delegated to the Zoning Administrator, as Plan Commission staff.

Appeal of action taken by the Zoning Administrator on a Sign Plan shall be to the Plan Commission.

2. When Plan Required.

A Sign Plan is required as part of each Sign Permit Application.

A Sign Permit evidencing approved by the Zoning Administrator is an Improvement Location Permit, as contemplated in State Code Section 36-7-4-802.

**SECTION 26-6.108
RELATIONSHIP TO PRIVATE
COVENANTS AND AGREEMENTS.**

A. Effect of Article.

It is not intended by this Article to interfere with or abrogate or annul any Easement, covenant or other agreement between parties; provided, however, that when this Article imposes a greater restriction upon the Use of Structures, premises, Lots, or land, or upon height of Structures, or requires larger Lots, Yards, or other Open Spaces than imposed or required by such other provision of law, ordinance or regulation, or by any such Easement, covenant, or agreement, the provisions of this Article shall control.

B. No Encroachment.

No provision contained in this Article shall be construed as justifying the Encroachment of any Structure within any Thoroughfare lines now or hereafter laid down on any subdivision plat filed in the office of the Lake County Recorder or within any federal, state, county or Town Thoroughfare, unless specifically approved by action of the Town Council.

**SECTION 26-6.109
RELATIONSHIP TO OTHER LAWS, ETC.**

A. Precedence of Article.

The provisions of this Article shall take precedence over those of other laws, codes, ordinances, regulations, and standards that may be in conflict with this Article, except Town, County, and State Health and Safety Codes.

B. Effect on Other Laws.

Nothing contained in this Article shall be taken to repeal, abrogate, annul or in any way impair or interfere with Town Building Code) or any rules or regulations adopted or issued thereunder, or any other existing or future law, code, ordinance, regulation, or standard that is not in conflict with this Article.

C. Effect of Non-Conflicting Provisions.

Without limitation to Sections 26-6.109.A and 26-6.109.B, except where the Existing Local Codes are inconsistent with, or in conflict with, this Article or are expressly superseded by this Article, the Existing Local Codes, including without limitation, the Town Subdivision Regulations and the Town Building Code, shall continue to be applicable to matters not covered by this Article,

D. Compliance with Other Legal Requirements.

Without limitation to any other provision of the Town Code, it shall be a condition to issuance of all Certificates of Occupancy and the Use of all land and Improvements in the Town that all necessary federal, state, county and Town licenses, registrations, and permits for the Use and operation of such land and Improvements shall have been validly obtained and remain at all times in full force and effect.

E. Compliance with Other Articles.

Reference is hereby made to the provisions of the following Articles and Appendices of the Town Code:

**CHAPTER 26 – LAND DEVELOPMENT
CODE**

ARTICLE I – IN GENERAL

2. Illustrations, Figures, & “Illustrative” Material.

All graphical and tabular depictions entitled “Illustration” or “Figure”, or denoted as “illustrative” are provided for illustrative, explanatory purposes only and are not regulatory.

3. Certain Illustrations.

The illustrations in Table 26-6.502.F (Public Planting), Table 26-6.405.Q-1 (Private Lighting Types) and Table 26-6.502.E-1 (Public Lighting Types) are provided only as an approximation of Planting Types and Lighting Types and they shall have regulatory force and effect only to that extent.

C. Conflict Between Metrics.

Where in conflict, numerical metrics shall take precedence over graphic metrics.

**SECTION 26-6.115
PREPARATION & ADOPTION OF
ZONING MAP**

A. Conformance with Division 2.

Each Zoning Map, Zoning Map amendment, and any proposed Zoning Map or Zoning Map amendment must conform to the requirements of Division 2.

B. Preparation.

The Zoning Map for the Town to be applicable upon the Effective Date of this Article shall be prepared by or on behalf of the Town and adopted simultaneously with this Article.

**SECTION 26-6.116
DETERMINATION OF STANDARDS**

The Town Council has established the standards in this Article and, upon approval of the Zoning Map or any amendment thereof, such standards are applicable to the Town.

**SECTION 26-6.117
ADMINISTRATION**

Except as otherwise expressly provided herein, this Article shall be administered by the Zoning Administrator, as more specifically provided in Section 26-6.801 hereof.

**SECTION 26-6.118
APPLICATIONS**

A. Building Permits.

An application for issuance of a Building Permit shall be processed, reviewed, and acted upon in accordance with Article II Sec. 26-71 and applicable state law; provided that no Building Permit shall be issued unless and until all certifications and approvals required pursuant to this Article have been issued or granted, as applicable.

DIVISION 1: GENERAL

B. Zoning Map Amendments.

Applications for approval of a Zoning Map amendment that are determined by the Zoning Administrator to be complete shall be certified as such and forwarded for further processing, review, consideration and/ or action, as applicable, as a Zoning Map amendment under Division 8.

C. Building & Lot Plans.

1. Submission.

A Building and Lot Plan shall be submitted to the Zoning Administrator for review and action.

2. Improvement Location Permit Required.

No Development, re-Development, Improvement, subdivision, re-subdivision, construction, re-construction, or Substantial Modification, raising, converting, moving, extension, or enlargement of or on any Building, Lot or parcel of land or any part thereof shall occur without prior submission of a complete application for review and the Zoning Administrator's issuance pursuant to Section 26-6.804.E of an Improvement Location Permit with respect to a Building and Lot Plan that complies with Division 4.

3. Ordinary Maintenance / Repair Exempt.

A Building and Lot Plan is not required for Ordinary Maintenance or Repair of an existing Structure.

D. Development Parcel Plans.

1. Submission.

A Development Parcel Plan, if required by Division 5, shall be submitted as follows:

- a. if not related to a request for Zoning Map amendment, as a part of the application for

approval of the Site Plan, and in addition to satisfaction of all other applicable Site Plan application requirements, such Site Plan may be approved only upon the Zoning Administrator's certification that the Development Parcel Plan complies with all applicable Development Parcel standards and requirements of Division 5, taking into account any applicable approved Deviations; or

- b. if related to a request for Zoning Map Amendment, as a part of the application for approval of the applicable Zoning Map Amendment, and in addition to satisfaction of all other applicable zoning application requirements, such Zoning Map and zoning map amendment may be approved only upon the Zoning Administrator's certification that the Development Parcel Plan complies with all applicable Development Parcel standards and requirements of Division 5, taking into account any applicable approved Deviations.

2. Certificate Required.

If such Certificate is required by Section 26-6.501.B.3, no Development, re-Development, Improvement, subdivision, re-subdivision, construction, re-construction, modification, Alteration, raising, converting, moving, extension, or enlargement of or on any Building, Lot or parcel of land or any part thereof shall occur without prior submission of a complete application for review and the Zoning Administrator's issuance pursuant to Section 26-6.804.F of a Certificate of Compliance with respect to a Development Parcel Plan that complies with Section 26-6.501.B.2.

E. Site Plans.

1. Governed by Division 8.

An application for approval of a Site Plan shall be processed, reviewed, and acted upon pursuant to Division 8.

2. When Plan Required.

Except for Single-Family Detached Dwellings and Two-Family Detached Dwellings, no Development, re-Development, Improvement, subdivision, re-subdivision, construction, re-construction, Alteration, Substantial Modification, raising, converting, moving, extension, or enlargement of or on any Building, Lot or parcel of land or any part thereof shall occur unless a Site Plan has been approved therefor.

3. Ordinary Maintenance / Repair Exempt.

A Site Plan is not required for Ordinary Maintenance or Repair of an existing Structure.

**SECTION 26-6.119
WAIVERS, CONDITIONAL USES, AND
VARIANCES**

A. Waivers.

To the extent expressly provided in this Article with respect to any standard or requirement hereof, a Waiver of such standard or requirement may be granted pursuant to Section 26-6.804.I.2 by the Zoning Administrator upon written request of an Applicant if allowance of such Waiver is determined by the Zoning Administrator to be consistent with the intent of this Article.

B. Conditional Use.

A Conditional Use may be permitted by the Decision-Making Authority for those Uses indicated for a District or Civic Zone as "SU" on **Table 26-6.405.L-1 (Building & Lot Principal Uses)**, **Table 26-6.405.L-2 (Building & Lot Accessory Uses)**, or **Table 26-**

6.405.L-2 (Building & Lot Temporary Uses) in accordance with Section 26-6.804.A.

C. Variances.

Variances may be granted by the Board of Zoning Appeals or Town Council, as applicable, pursuant to Section 26-6.804.I.1 to deviate from a standard or requirement otherwise applicable under this Article, or otherwise applicable to any land, Lot, Improvement, Building, or Structure regulated under this Article.

**SECTION 26-6.120
APPEALS**

Appeals from decisions or determinations under this Article may be taken in accordance with Section 26-6.804.J.

**SECTION 26-6.121
VIOLATIONS**

Penalties for and enforcement of any violation of this Article shall be as provided in Section 26-6.804.M.

**SECTION 26-6.122
NONCONFORMITIES**

A. Legally Existing Buildings, Structures, Lots, and Uses.

Except as otherwise provided in this Article, a Use, Building, Structure, or Lot of any of the following types that legally existed as of the Effective Date of this Article, any amendment of this Article or any amendment to the Zoning Map may be continued as a legal nonconformity in accordance with and subject to the provisions of this Section:

1. a lawfully permitted Use of land, Building, or Structure,
2. a lawfully permitted Building, Structure, or Sign, and

DIVISION 1: GENERAL

3. a lawfully permitted Lot.

B. Nonconforming Use of Land.

1. Change of Nonconforming Use of Land.

If a Nonconforming Use of land is enlarged, increased, or extended to occupy more of such land than that occupied by such Use on the Effective Date of this Article, any amendment of this Article, or any amendment to the Zoning Map, or if any such Nonconforming Use is moved in whole or in part to any other portion of the land occupied by such Nonconforming Use at such time, the legal status of such Nonconforming Use will terminate, and thereafter the Use of such land must comply with the this Article.

2. Cessation of Nonconforming Use of Land or Grant of Conditional Use.

If a Nonconforming Use of land, or any portion thereof, ceases for any reason for any continuous period of more than one (1) year, is changed to a conforming Use, or a Conditional Use is granted with respect to such land or portion thereof, any future Use of the land must conform with the provisions of this Article.

3. Termination of Nonconforming Uses Not within a Building.

Any Nonconforming Use not housed in a permanent Building shall be terminated within two (2) years after the Effective Date of this Article, unless, upon written application of the owner, the Board of Zoning Appeals after public notice and hearing approves the extension of time for such Use for one or more successive terms not exceeding two (2) years each, upon demonstration of hardship and subject to such conditions and safeguards as the Board of Zoning Appeals may prescribe and upon determination by the Board of Zoning Appeals that the

continuance of such nonconforming Use under the conditions prescribed is not hazardous, offensive or detrimental to the Town or any part thereof by reason of the emission of dust, noise, vibration, smoke, glare or fumes.

C. Nonconforming Use of Building or Structure.

1. Damage or Destruction of Building or Structure.

If any Building or Structure used for a Nonconforming Use is damaged or destroyed by any means:

- a. to an extent of more than 50% of the Full Value of the Building or Structure, no reconstruction or repairs shall be made unless the Use of every portion of the Structure is made to conform this Article; or
- b. to an extent of 50% or less of the Full Value of the Building or Structure, it may be reconstructed or repaired and the Nonconforming Use continued, if the reconstruction or repair is started within one (1) year of such damage or destruction and is diligently pursued to completion.

2. Change of Nonconforming Use of Building or Structure.

If a Nonconforming Use of a Building or Structure is enlarged, increased, or extended to occupy more or such Building or Structure than that occupied by such Use on the Effective Date of this Article, any amendment of this Article, or any amendment to the Zoning Map, or if any such Nonconforming Use is moved to any other land or is moved in whole or in part to any other portion of the Building or Structure occupied by such Nonconforming Use at such time, the legal status of such Nonconforming Use will terminate,

and thereafter the Use of such of the Building or Structure must comply with this Article.

3. Cessation of Nonconforming Use of Building or Structure or Grant of Conditional Use.

If any Nonconforming Use of a Building or Structure ceases for any reason for a continuous period of one (1) year or more, is changed to a conforming Use, or a Conditional Use is granted with respect thereto, or if the Building or Structure in or on which such Use is conducted or maintained is moved for any distance whatever, for any reason, then the legal status of such Nonconforming Use shall terminate and any future Use of such Building or Structure must conform to this Article.

4. Removal of Structure Used for Nonconforming Use.

If any Building or Structure in or on which any Nonconforming Use is conducted or maintained is removed, then the legal status of such Nonconforming Use shall terminate and the subsequent Use of the land on which such Building or Structure was located and the subsequent Use of any Building or Structure thereon must conform to this Article.

D. Nonconforming Buildings, Structures, Improvements, and Signs.

1. Damage or Destruction of Building, Structure, or Sign.

If any Nonconforming Building, Structure, Improvement, or Sign is damaged or destroyed by any means:

- a. to an extent of more than 50% of the Full Value thereof, no reconstruction or repairs

shall be made unless every portion of the Building, Structure, or Sign is made to conform this Article; or

- b. to an extent of 50% or less of the Full Value thereof, it may be reconstructed or repaired and the legality of the Nonconforming Building, Structure, or Sign continued, if the reconstruction or repair is started within one (1) year of such damage or destruction and is diligently pursued to completion.

2. Alteration, Enlargement, Extension, etc. of Nonconforming Buildings, Structures, Improvements, or Signs.

- a. If a Nonconforming Building, Improvement, or Structure is Substantially Modified, Altered, enlarged, increased, or extended to occupy more land than that occupied by such Building, Structure, or Improvement on the Effective Date of this Article, any amendment of this Article, or any amendment to the Zoning Map, or if any such Nonconforming Building, Structure, or Improvement is moved in whole or in part to any other land or any other portion of the Lot or parcel of land occupied by such Nonconforming Building or Structure at such time, the legal status of such Nonconforming Building, Structure, or Improvement shall terminate and such Building, Structure, or Improvement must conform to this Article.

- b. If a Nonconforming Sign is Altered after the date of this Article, any amendment of this Article, or any amendment to the Zoning Map, or if any such Nonconforming Sign is moved in whole or in part to any other land or any other portion of the Lot or parcel of land occupied by such Nonconforming Sign at such time, the legal status of such

DIVISION 1: GENERAL

Nonconforming Sign shall terminate and such Sign must conform to this Article.

3. Cessation of Use of Nonconforming Building, Structure, or Improvement or Grant of Conditional Use.

If any Nonconforming Building, Structure, or Improvement ceases to be in use for any reason for a continuous period of one (1) year more, is changed to a conforming Building, Structure, or Improvement, is used for a conforming Use, a Conditional Use is granted with respect thereto, or if the Building, Structure, or Improvement is moved for any distance whatever, for any reason, then such Building or Structure shall not be used without conforming to this Article.

4. Removal of Nonconforming Building, Structure, or Improvement.

If any Nonconforming Building or Structure is removed, the legal status of such Nonconforming Building or Structure shall terminate and any subsequent Building or Structure must conform to this Article.

5. Removal of Nonconforming Signs.

Any Nonconforming Sign that is not a legal Nonconforming Sign shall be removed by the earlier of:

- a. 30 days after such Sign lost its status as a legal Non-Conforming Sign;
- b. two (2) years from the issuance of any Building Permit covering the property on which such Sign is located;
- c. two (2) years from the issuance of the Sign Permit covering the Sign; or
- d. two (2) years from the effective date of this Article or any amendment thereof, which resulted in such Sign being nonconforming.

6. Certain Changes to Improvements Requiring Compliance with Requirements.

If any Alteration to a nonconforming Improvement on a parcel of land or part thereof is limited solely to the following, such Improvement must comply with all requirements of this Chapter with respect to such Improvement, but such Alteration shall not result in the termination of the legal status of any other nonconforming Improvements on such land:

- a. Parking Area or Parking Lot changes;
- b. Private landscaping;
- c. Curb cuts;
- d. Provision of an alley or access easement;
- e. Change to or establishment of sidewalk, street trees, or other streetscape or public frontage elements;
- f. Change to utilities serving or existing on a parcel of land that is 4 acres or more.

No Sign may be added to a single-tenant building or tenant space at any time during which such property contains any Non-Conforming Sign, whether or not such non-conformity is a legal Non-Conforming Sign.

E. Nonconforming Lots.

1. Lots Subject to Conveyance.

A Building Permit may be issued for the erection of a Building or Structure on a Lot or other parcel for which a valid conveyance or contract of sale has been executed or delivered prior to the Effective Date of this Article, or any amendment of this Article, or any amendment of the Zoning Map, even though the area or dimensions of such Lot or parcel are less than that required by this Article if:

- a. all other standards and requirements of this Article are met and
- b. the owner of such Lot or parcel does not also own or have other Lots or parcels contiguous thereto under option or contract to purchase as of the Effective Date of this Article, any amendment of this Article, or any amendment of the Zoning Map.

2. Combination of Lots Required.

In the case of Section 26-6.122.E1.b, such other Lots or parcels, or as much thereof as may be necessary, shall be combined with the original Lot or parcel to make a single property, whereupon a Building Permit for the erection of a Structure may be issued if all other requirements of this Article are met.

F. Extension of Legal Nonconforming Lot Status for Certain Subdivisions of Land.

1. Treatment of Certain Subdivisions.

Without limitation to Section 26-6.122.A or 26-6.122.E, and in addition thereto, if the conditions of clause 26-6.122.F.2 below are met, an Existing Parcel:

- a. may be subdivided in such a manner that creates
 - I. a Non-Conformity-Bearing Lot; and
 - II. one or more Remainder Lots; and
- b. the Remainder Lots may be Developed or re-Developed.

2. Conditions for Eligibility.

The following are the conditions which must be satisfied to be eligible under Section 26-6.122.F.1:

- a. the Remainder Lots, and all Development, re-Development, Structures, Improvements and Buildings thereon and thereto, and all Uses thereof, must conform to all standards and requirements of this Chapter;
- b. the Non-Conformity-Bearing Lot and all Buildings, Structures and Improvements thereon
 - i. must meet all Building and Lot standards and requirements of this Article other than the following standards and requirements as set forth in **Table 26.6.405.A-1 – 26-6.405.A.10 (District Standards)**: Private Frontage Type, Lot Occupation, Building Height, Ceiling Height, Facade, Finished Floor Level, Roof Type and Pitch, Principal Building Type, Vehicular Parking, Bicycle Parking, Private Landscaping and Fencing, Signs, Lighting, and Screens; and
 - ii. are not required to meet any additional requirements applicable to only to Development Parcels; and

3. Effect of Subdivision, Development or Re-Development.

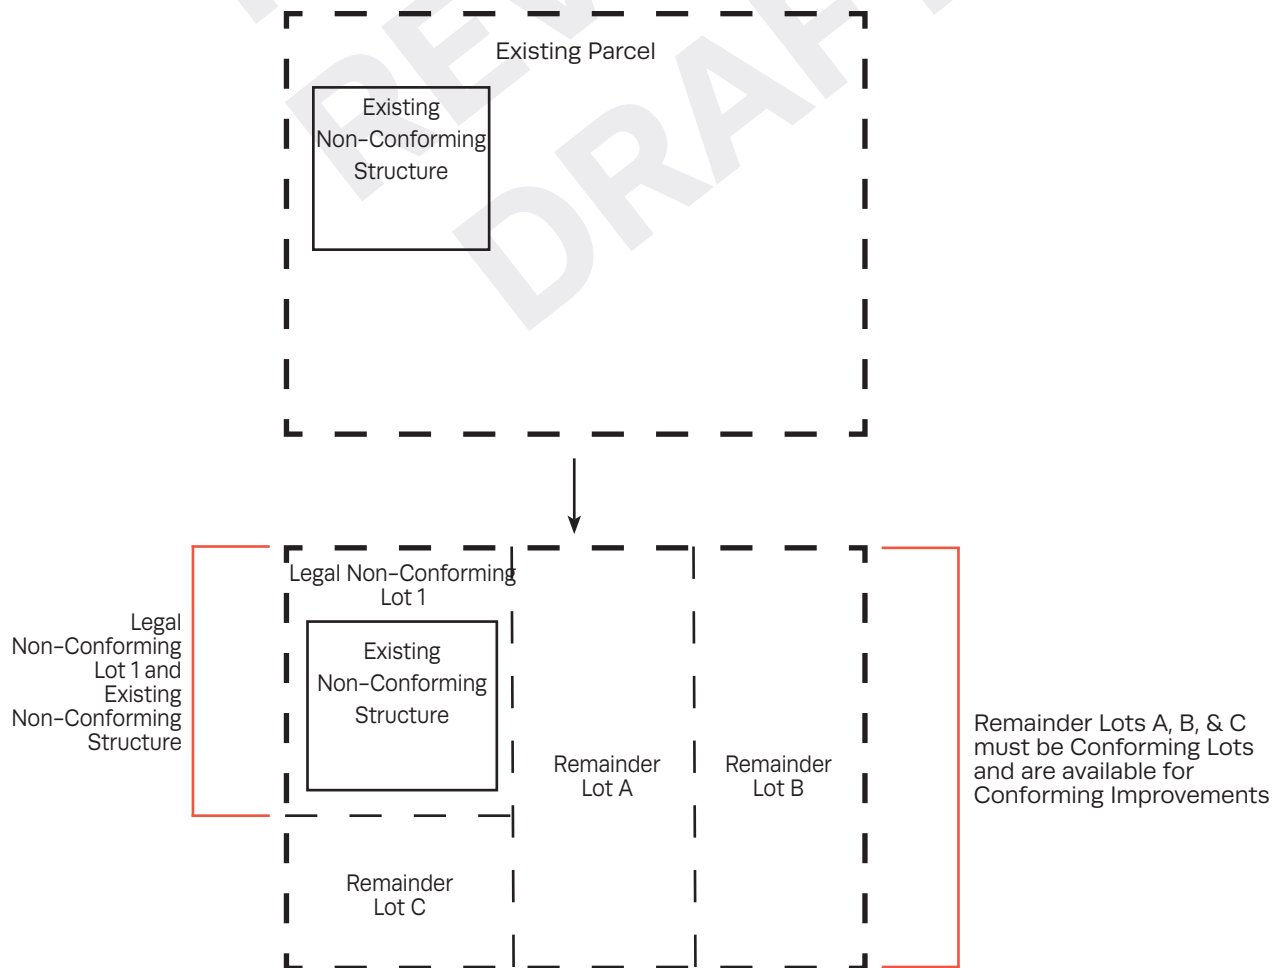

DIVISION 1: GENERAL

The effect of subdivision, Development or re-Development pursuant to Sections 26-6.122.F.1 and 26-6.122.F.2 is as follows:

- a. the Non-Conformity-Bearing Lot shall thereafter constitute a legal non-conforming Lot and the legal non-conforming status of the Structure, Improvement or Use of or on the Non-Conformity-Bearing Lot shall continue notwithstanding such subdivision, Development or re-Development; and
- b. the legal non-conforming status of any Structure, Improvement or Use on or of all

other portions of the Existing Parcel other than the Non-Conformity-Bearing Lot (i.e., the Remainder Lots), and of the Remainder Lots themselves, shall cease.

ILLUSTRATION 26-6.122.F-1 SPECIAL LEGAL NON-CONFORMITY STATUS FOR CERTAIN SUBDIVISIONS & IMPROVEMENTS

G. Completion of Building or Structure under Construction.

Any Building or Structure for which a Building Permit has been duly granted, and the construction of which has been started before the Effective Date of this Article, any amendment of this Article, or any amendment of the Zoning Map, may be completed in accordance with approved Plans on file with the Zoning Administrator, provided that such construction is diligently pursued and such Structure is completed within three (3) years of the issuance of the Building Permit.

Any such Building or Structure so completed shall be a legal Nonconforming Building or Use.

H. Ordinary Maintenance & Repair.

Notwithstanding any other provision of this Article, Ordinary Maintenance and Repair of a Building or Structure may be undertaken without affecting the lawful status of a Nonconforming Use or Nonconforming Building or Structure.

**SECTION 26-6.123
VESTED RIGHTS**

Any property that has been granted approvals under Chapter 26, Article VI (Zoning) of the Town Code of Ordinances in effect immediately prior to the Effective Date of this Article to such extent as is necessary for such approvals to have created Vested Rights pursuant to I.C. Section 36-7-4-1109, may proceed in accordance with such approvals.

The owner of any such property, however, shall be entitled to elect to make application under this Article in lieu of proceeding under such approvals. In that case, the application under this Application under this Article shall be given priority processing to the extent possible and all additional fees for application under this Code shall be waived for application under this Code.

**SECTION 26-6.124
REIMBURSEMENT OF PROFESSIONAL FEES.**

A. Purposes.

The Town Council hereby finds that the Town incurs significant expenses related to professional consultant review of Plans and land use and Development applications. For such reviews, the expertise of professional consultants may be necessary to assist the Zoning Administrator, Town staff, and Approval Bodies in making a reasoned and informed determination in compliance with law. Therefore, it is the purpose of this Section to authorize the Zoning Administrator, the Town Council, the Plan Commission, the Board of Zoning Appeals, the Zoning Administrator, and the Town Engineer to require Applicants to reimburse the Town for the reasonable expenses of professional consultants, such as engineers, planners, attorneys, surveyors, or other experts, that have been retained. This expense shall be in addition to any fee required by other law, regulation or resolution of the Town.

B. Consultant Review Fees.

1. Expense.

The expense of such professional consultants shall be in accord with fees usually charged for such services in the Chicago metropolitan region and pursuant to a contractual agreement of the Town and such consultant. All such charges shall be paid by the Town upon submission of a Town voucher.

2. Reimbursement.

The applicant shall reimburse the Town for the cost of such services in accordance with the procedures described in Section 26-6.124.C.

3. Evidence of Payment.

DIVISION 1: GENERAL

Evidence of payment of all professional consultant review fees shall be provided by the Town Treasurer to the Approval Body, the Zoning Administrator, or other Town Staff having jurisdiction over the application.

4. Payment as Condition to Issuance / Action.

Full payment of such fees shall be a condition of issuing any permit or certification or taking any final action pursuant to this Article.

C. Escrow Accounts.

1. Establishment of Account.

At the time of submission of any application, submission, or request pursuant to this Article, the Applicant shall tender an amount as set by the Town Manager to allow the Town to establish an escrow account for consultant fees which may be incurred by the Town related to a proposal. No application shall be deemed complete until such time as said tender is made.

2. Withdrawals.

Withdrawals from the escrow account shall be made to reimburse the Town for the cost of professional consulting services.

3. Deposit of Additional Funds.

When the balance in such escrow account is reduced to 1/3 of its initial amount, the Applicant shall deposit additional funds into such account in an amount to be determined by the Town Manager. In no event, however, shall the Applicant be required to maintain a balance in the escrow account in excess of the initial amount. If the escrow account is not replenished by the Applicant within thirty (30) days after the Applicant is notified in writing of the requirement of an additional deposit, the Decision-Making

Authority and the Zoning Administrator may suspend its further review of the application. In addition, the Decision-Making Authority, the Zoning Administrator, or other staff, as applicable, shall not be required to comply with the time periods, if any, under applicable law, if the Applicant fails to replenish the account as aforesaid. Any such time periods shall begin to accrue again upon receipt of the required payment.

4. Refund of Excess Escrow.

After all pertinent charges have been paid, and upon final approval, certification, denial, or withdrawal of the application, request, or submission, the Town shall refund to the Applicant any funds remaining on deposit, less any fees incurred for the establishment and maintenance of the account.

SECTION 26-6.125 PERFORMANCE GUARANTEES / COMMITMENTS

A. Security for Compliance & Completion.

1. Security for Compliance.

To ensure compliance with this Article and any conditions imposed under this Article, the Town may require that a cash deposit, certified check, irrevocable letter of credit, or surety bond acceptable to the Town (each, a "Performance Guarantee") covering the estimated costs of Improvements, performance, and/or compliance be deposited with the Town Clerk, including without limitation public Improvements required pursuant to an approved Site Plan. The Performance Guarantee shall be deposited at the time of the issuance of the permit authorizing the activity or project.

2. Cost Estimate.

The estimated cost of Improvements, performance, and/or compliance shall be determined by the Plan Commission. If the value of the public Improvements is less than \$5,000, the Plan Commission may waive this requirement.

3. Completion / Function of Public Improvements.

Such Performance Guarantee shall be conditioned upon the property owner's or developer's completing the required public Improvements enumerated on the approved Site Plan in a manner satisfactory to the Town, and said Improvements must be functioning properly for a period of two (2) years from their completion' If such Improvements are not so completed or do not so function, said Performance Guarantee shall be forfeited, and the Town shall be entitled to the full amount thereof and shall use the amount necessary to complete the Improvements not completed, or to replace or repair any Improvements that are not functioning properly. If any amount of money remains after the Town has completed such work or replaced or repaired any non-functioning Improvements, such excess money shall be returned to the surety or person that provided the Performance Guarantee.

1. adoption of a rezoning proposal;
2. primary approval of a proposed subdivision plat or development plan;
3. approval of a vacation of all or part of the plat; or
4. approval of an application for a Conditional Use or Variance;

the owner of a parcel of real property may be required or allowed to make a commitment concerning the use or development of that parcel in accordance with Indiana Code Section 36-7-4-1015.

**SECTION 26-6.126
AMENDMENT**

This Article may be amended from time to time in accordance with Section 26-6.804.L hereof.

**SECTION 26-6.127
SEPARABILITY**

In case any provision of this Article shall be held invalid or unenforceable by a court of competent jurisdiction, it shall not affect any other Division, Section or provision as long as the invalid or unenforceable portion can be separated from the remainder of the provisions.

B. Security for Temporary Certificate of Occupancy.

Additionally, the Building Inspector may require Performance Guarantees for incomplete projects where temporary Certificates of Occupancy are requested and non-health and safety items remain to be completed.

C. Commitments.

22	D. District & Civic Zone Boundaries.
23	SECTION 26-6.202 SPECIAL REQUIREMENTS.
23	A. Designation on Zoning Map.
23	B. Effect of Designation.
24	SECTION 26-6.203 ESTABLISHMENT OF DISTRICTS & CIVIC ZONES
24	A. Districts & Civic Zones.
25	B. Assignment of Districts & Civic Zones
25	C. Establishment of Additional Districts.
25	D. Zoning Map Amendment.

DIVISION 2: ZONING MAP

SECTION 26-6.201 ZONING MAP

A. General

The Districts, Civic Zones, Thoroughfares, and any Special Requirements, as referred to in this Article, shall be bounded and defined on the Zoning Map adopted by the Town Council pursuant to this Article.

B. Incorporation into Article.

The Zoning Map, as may be subsequently amended from time to time, and all notations, references and explanatory and other matter thereon, is incorporated into and made a part of this Article by reference.

C. Maintenance of Zoning Map.

The Zoning Map, as the same may be amended from time to time by the Town Council, shall be maintained by the Zoning Administrator and shall be kept on file (which may be in a digital format) in the office of the Zoning Manager or designee.

D. District & Civic Zone Boundaries.

1. Establishment of Boundaries.

The boundaries of the various Districts and Civic Zones within the Town as established by the Town Council are shown on the Town Zoning Map.

2. Intent.

The District and Civic Zone boundary lines, unless shown otherwise, are intended generally to follow Thoroughfare center lines, railroad right-of-way boundary lines or their center lines, other similar right-of-way lines, or Lot Lines, boundaries of subdivisions, or Town boundary lines, all as shown on the Zoning Map. Where a District boundary line does not follow such a line, but is shown parallel to such a line on the Zoning Map, the distance between the parallel

lines shall be as dimensioned on the Zoning Map. Such dimensions shall be construed to read from the outside edge of all rights-of-way rather than from their center lines.

3. Discrepancy in Map and Physical Boundaries.

Where the Thoroughfare layout that actually exists on the ground varies from the Thoroughfare layout shown on the Zoning Map, the designation shown on the mapped Thoroughfare shall be applied in such a way as to carry out the Zoning Administrator's determination as to the purpose and intent of the Zoning Map for the particular area in question.

4. Determination of Boundary Location.

When the location of a District or Civic Zone boundary line cannot be otherwise determined, the determination thereof shall be made by the Zoning Administrator by scaling the distance on the Zoning Map from a line of known location to such boundary line.

5. Appeal to Board of Zoning Appeals.

In the case of uncertainty as to the true location of a District or Civic Zone boundary line in a particular instance, an appeal may be taken to the Board of Zoning Appeals, as provided in Division 8.

6. Boundary Dividing Lot.

Where a District boundary line divides a Lot held under a single ownership and existing at the Effective Date of this Article, any amendment thereto, or any amendment of the Zoning Map, a permit may be issued after application to and approval by the Board of Zoning Appeals, subject to such conditions as it may prescribe in the public interest for the whole Lot, for a Building,

Structure, Improvement, or Use permitted in the less restricted District, provided that this shall not apply for a distance greater than 35 feet beyond a District boundary line.

SECTION 26-6.202 SPECIAL REQUIREMENTS.

A. Designation on Zoning Map.

The Zoning Map and any amendment thereto may designate any of the Special Requirements listed in Section 26-6.202.B below. If there is any conflict between an applicable Special Requirement and another standard or requirement, the Special Requirement shall be controlling.

B. Effect of Designation.

If the Zoning Map or any amendment, or any proposed amendment to the Zoning Map, designates any one or more of the following Special Requirements, such designation indicates that the following requirements shall be applied as follows:

1. Shopfront Frontage.

A Shopfront Frontage designation requires that each Private Frontage within the designated area be provided a Shopfront Frontage at Sidewalk level, except at any allowed Driveways or Streetscreen areas, as provided in **Table 26-6.405.G-1 (Private Frontage Types)** and specified in Division 4.

2. Retail Frontage.

A Retail Frontage designation requires that each Private Frontage within the designated area be provided a Shopfront Frontage at Sidewalk level, except at any allowed Driveways or Streetscreen areas, as provided in **Table 26-6.405.G-1 (Private Frontage Types)** and specified in Division 4, and that the ground level be available for Retail Use.

3. Terminated Vista.

A Terminated Vista designation requires that a Building be provided with a cupola, chimney, entry feature, or habitable tower that intersects the centerline axis of the view to which they respond.

4. Cross Block Passage.

A Cross Block Passage designation requires that a minimum 10-foot-wide pedestrian access be reserved between Buildings.

5. Special Height Range.

A designation of Special Height Range requires that Buildings within the designated area comply with the Height noted rather than the Height standard that otherwise would be applicable within the District or Civic Zone, as applicable.

6. Ground Floor Residential/Dwelling Use Restriction.

A designation of Residential/Dwelling Use Restriction prohibits Uses categorized as Residential/Dwelling Uses within the ground floor of Buildings within the designated area, irrespective of whether Residential/Dwelling Use would otherwise be permitted within the applicable District or Civic Zone.

7. Residential/Dwelling Use Prohibited.

A designation of Residential/Dwelling Use Prohibited prohibits Uses categorized as Residential/Dwelling Uses within the designated area, irrespective of whether Residential/Dwelling Use would otherwise be permitted within the applicable District or Civic Zone.

8. Residential/Dwelling Use Only.

DIVISION 2: ZONING MAP

A designation of Residential/Dwelling Use Only requires that the only Principal Uses that are allowed within the designated area are Uses categorized as Residential/Dwelling in **Table 26-6.405.L-1 (Building & Lot Principal Use)**, irrespective of whether other Principal Uses would otherwise be permitted within the applicable District or Civic Zone.

9. Special Setback Range.

A designation of Special Front Setback Range requires that Buildings within the designated area comply with the Setback noted rather than the Setback standard that otherwise would be applicable within the District or Civic Zone, as applicable.

10. Special Lot Width Range.

A designation of Special Lot Width Range requires that Buildings within the designated area comply with the Lot Width noted rather than the Lot Width standard that otherwise would be applicable within the District or Civic Zone, as applicable.

11. Ridge Preservation.

A designation of an area where there shall be no alteration of topography and no reduction in grade. Removal of or damage to high quality trees in these areas is prohibited.

12. Ridge Road Alternate Parking Area.

A designation of Ridge Road Alternate Parking Area indicates that instead of locating on street Parking and the Public Frontage of the Thoroughfare within the public Right-of-Way, the minimum Front Setback of each Lot along such area may be increased by that number of feet assigned by the applicable Thoroughfare type to the Vehicular Parking lane, curb, and Public

Frontage and such Vehicular Parking lane, curb, and Public Frontage may be located within the Lot instead of being within the public right of way.

SECTION 26-6.203 ESTABLISHMENT OF DISTRICTS & CIVIC ZONE

A. Districts & Civic Zone.

For the purposes of this Division, there are hereby established within the Town, and the Town is hereby divided into, a Civic District and the following zoning districts:

Character District CD-3 (Neighborhood)

Character District CD-3.R1 (Neighborhood – 70' Lot One Family Residence District)

Character District CD-3.R2 (Neighborhood – 60' Lot One Family Residence District)

Character District CD-3.R3 (Neighborhood – 60' Lot One Family and Two Family Residence District)

Character District CD-4.R4 (General Urban – Multifamily Residence District)

Character District CD-4.A (General Urban – A District)

Character District CD-4.B (General Urban – B District)

Character District CD-5 (Urban Center)

Special District SD-M (Special District – Manufacturing)

Special District SD-PUD (Special District – Planned Unit Development)

Such Districts and the Civic Zone are described in **Table 26-6.203 (District Descriptions – Summary)**, Section 26-6.305 and Section 26-6.306, and the standards therefor are set forth in Articles 4 and 5, **Tables 26-6.405.A-1 – 26-6.405.A-10 (District Standards)** and **26.6.405.B (Civic Zone Standards)**, and elsewhere in this Chapter.

B. Assignment of Districts & Civic Zones

1. Assignment on Map.

Districts and Civic Zones shall be assigned for and mapped on the Zoning Map, for and on each Zoning Map amendment, and for and on each Development Parcel Plan, in each case subject to review and certification and/or approval as provided in this Article.

2. Town Council Determination.

Assignment of Districts and Civic Zones shall be as determined by the Town Council.

C. Establishment of Additional Districts.

Districts in addition to those identified in Section 26-6.203.A.1 shall be subject to establishment and assignment by the Town Council of standards and requirements as a zoning text amendment pursuant to Section 26-6.126 and Section 26-6.804.L.

D. Zoning Map Amendment.

Zoning or re-zoning of property to any District or Civic Zone established pursuant to this Section shall be subject to approval of a Zoning Map amendment pursuant to Section 26-6.804.L.

DIVISION 3: ZONING DISTRICTS & CIVIC ZONES

SECTION 26-6.301 GENERAL

A. Applicability.

This Division 3 applies to Districts and Civic Zones to the extent provided herein.

B. Compliance.

Except for non-conformances allowed pursuant to Section 26-6.122 or as otherwise provided in this Article, with respect to each District or Civic Zone, as applicable, all Development, re-Development, land, Lots, Improvements, Buildings, Structures, and all Uses, construction, re-construction, modifications, Alterations, and enlargements thereof, and all parts thereof, and all Plans, applications, requests, and submissions for proposals required or made under this Article must include the elements required by and must comply with this Division 3 and the applicable standards, requirements, and conditions of this Division and any license, permit, approval, certification, or authorization issued pursuant to this Article, any applicable approved Site Plan or other approval granted under this Article.

SECTION 26-6.302 CHARACTER DISTRICT DEFINED

Character District is defined in Division 9.

SECTION 26-6.303 SPECIAL DISTRICTS

A. Defined.

Special District is defined in Division 9.

B. Effect of Special District Designation.

If a Special District is designated for an area on the Zoning Map or any amendment thereof, such area is subject to certain Special District Development,

parcel, Lot and Building standards are applicable, as described in Section 26-6.202.

C. Planned Unit Developments.

Planned Unit Developments established pursuant to this Article are Special Districts, which are subject to the Special District provisions of this Article and Section 26-6.804.L.9.

SECTION 26-6.304 CIVIC ZONE DEFINED

Civic Zone is defined in Division 9.

SECTION 26-6.305 DISTRICT DESCRIPTION

District descriptions are set forth in **Tables 26-6.405.A-1 – 26-6.405.A-10 (District Standards)**.

SECTION 26-6.306 CIVIC ZONE DESCRIPTION

Civic Zone is described in **Table 26-6.405.B (Civic Zone Standards)**.

Civic Spaces are described in **Table 26-6.405.A (Civic Space Types Summary)**.

SECTION 26-6.307 ASSIGNMENT OF DISTRICTS AND CIVIC ZONES

A. General.

Districts, Special Districts, and Civic Zones shall be assigned for and mapped on the Zoning Map, for and on each actual or proposed Zoning Map amendment, and for and on each Development Parcel Plan, in each case subject to review and certification and/or approval as provided in this Article.

DIVISION 3: ZONING DISTRICTS & CIVIC ZONES

B. Determination by Town Council.

Assignment of District and Civic Zones on the Zoning Map shall be as determined by the Town Council at the time of adoption of the Zoning Map or any amendment thereof.

C. Changes to Zoning Map.

Any change to the adopted Zoning Map shall be subject to compliance with the requirements and procedures of this Article, including without limitation, submission, review and approval of an application for approval of a proposed Zoning Map amendment that complies with all standards, conditions, and requirements of this Article, in accordance with Section 26-6.804.L and related provisions of Division 8.

D. Assignment of Character Districts for Development Parcel.

For any Development Parcel over 20 gross acres excluding any Special Districts, assignment of each Character District type (i.e., CD-3, CD-3.R-1, CD-3.R-2, CD-3.R-3, CD-4, CD-4R, CD-4.A, CD-4.B, or CD-5) for any Zoning Map amendment not prepared by the Town shall be in accordance with the percentages of Net Site Area indicated in **Table 26-6.307 (Assignment of Character Districts for Development Parcels > 20 Acres)**.

**TABLE 26-6.307
ASSIGNMENT OF CHARACTER DISTRICTS FOR
DEVELOPMENT PARCELS > 20 ACRES**

CD DISTRICT	% OF DEVELOPMENT PARCEL NET SITE AREA
CD-3	10-30%
CD-4.A & CD-4.B	30-60%
CD-5	10-30%
See Division 5 for Civic Zone Requirements	

All applications for and approvals of a zoning amendment covering a Development Parcel over 20 acres (such acreage excluding any Special Districts) must be in accordance with this Section 26-6.307.

E. Assignment of Civic Zones for Development Parcel.

Civic Zones shall be assigned within Development Parcels in accordance with Division 5.

F. Assignment of Special Districts for Development Parcel.

1. Limitation on Assignment.

- a. A Special District may be assigned to an area within a Development Parcel only if such area, due to the intrinsic size, Use, Building Placement, Building Elements, Building Configuration, Building type, or other Building and Development characteristics, cannot conform to one or more of the applicable Character Districts or standards therefor specified in this Article.

Without limitation to the foregoing, a Planned Unit Development shall be subject to the additional conditions and requirements set forth in Section 26-6.804.L.9.

- b. Special Districts shall not be used to avoid compliance with standards and requirements for Character Districts, and instead, shall be used sparingly.

2. Zoning Map Amendment.

Assignment of Special Districts shall be subject to approval as a zoning map amendment pursuant to Section 26-6.804.L.

DIVISION 3: ZONING DISTRICTS & CIVIC ZONES

SECTION 26-6.308 ESTABLISHMENT OF ADDITIONAL DISTRICTS

A. Town Council Approval.

Districts in addition to those described in Sections 26-6.203 and **Tables 26-6.405.A-1 – 26-6.405.A-10 (District Standards)** shall be subject to Town Council establishment and assignment of standards and requirements by zoning text amendment pursuant to Section 26-6.125 and Section 26-6.804.L.

Special Districts, including without limitation Planned Unit Developments, shall be subject to Town Council establishment and assignment of standards and requirements by zoning text amendment pursuant to Section 26-6.125 and Section 26-6.804.L.

all Development, re-Development, land, Structures, Buildings, Improvements, and Lots within Districts or Civic Zones must comply with all other applicable standards and requirements of this Article, including without limitation, the Supplemental Standards set forth in Division 6.

DIVISION 4: BUILDING AND LOT PLANS & STANDARDS

SECTION 26-6.401 APPLICABILITY

This Division 4 is applicable to all Buildings, Lots and land within the Town.

SECTION 26-6.402 BUILDING & LOT PLANS

A. Plan Required.

Except for changes to Nonconforming Uses, Buildings, Structures, Improvements, Lots and Signs that may be made without loss of the legal status thereof, no Building shall be constructed, re-constructed, Substantially Modified, raised, moved, extended, reduced, or enlarged, and no Lot or other land shall be Developed, re-Developed, Improved, subdivided, or re-subdivided, and none of the same shall be used, except in compliance with this Division 4, the Zoning Map, any applicable Development Parcel Plan, any applicable Site Plan, and pursuant to a Building and Lot Plan that has been prepared, submitted, reviewed and certified in accordance with this Division and all standards and requirements applicable thereto.

B. Preparation and Requirements.

Each Building and Lot Plan shall be prepared in accordance with Section 26-6.403 and Section 26-6.804.E below and shall conform to the requirements of Section 26-6.404 and 26-6.804.E and other provisions hereof.

C. Plan Submission.

Each Building and Lot Plan shall be submitted for review and action in accordance with Section 26-6.118.C and Section 26-6.804.E.

D. Action on Plan.

Action shall be taken on each Building and Lot Plan application in accordance with Section 26-6.118.C and Section 26-6.804.E.

SECTION 26-6.403 PREPARATION

Each Building and Lot Plan required under this Division shall be prepared and submitted by or on behalf of the Owner of the applicable property.

SECTION 26-6.404 PLAN REQUIREMENTS

Each Building and Lot Plan submitted under this Division shall:

A. Compliance.

Comply with any applicable Development Parcel Plan, the Zoning Map, and all standards and requirements of this Article, including without limitation those applicable to the District or Civic Zone in which the land covered by such Building and Lot Plan is situated; and

B. Contents.

Show and include all items required by Section 26-6.804.E, in compliance with the standards and requirements of the Zoning Map, any applicable Development Parcel Plan, and this Division, including without limitation those applicable to the District or Civic Zone in which the land covered by such Building and Lot Plan is situated.

SECTION 26-6.405 BUILDING & LOT STANDARDS

A. District Buildings & Lots

Private Landscaping and Fencing

Landscaping

A min of 65% of the First Lot Layer shall be landscaped., without considering any areas covered by Structures, Driveways, Parking Areas, Parking Lots, or pavement.

If a Building used for business or industrial purposes is set back in excess of the min setback requirement, no Structure or Sign may occupy the Front Yard except as expressly permitted by this Article.

A maximum of 80% of any area in excess of the minimum Front Yard requirement may be used to increase the off-street Parking in the First Lot Layer in accordance with Section 26-6.405.O.

Any part of a Lot held or designated for future expansion shall be maintained in Landscaping and/ or greenbelt. The expansion of any Building or facility shall be subject to the provisions of these landscaping requirements and compliance must be demonstrated at the time of the building permit application.

At least 10% of the Side Yard and Rear Yard must be landscaped.

Private Landscaping and Fencing (continued)

Walls & Fencing (not including Screens)

Fences shall conform to the requirements of the CD-3.R1 Character District, except that Fences may be constructed to a maximum height of 8 ft.

Wherever an SD-M Special District abuts a Residential District, a Fence 8 ft. in height shall be erected along the District boundary unless:

(1) The District boundary is separated from the Residential District by a street.

(2) The District boundary is located on a Side Lot Line, in which case the required Fence shall be limited in height to 42 inches from the point at which the Side Lot Line intersects the front building line of the abutting Residential property to the front property line.

Height

The structural design of all 8 ft. Fences shall be approved by a registered engineer or architect.

Construction

Where proper engineering practice calls for a berm as part of the Fence construction, a berm shall be required.

DIVISION 4: BUILDING AND LOT PLANS & STANDARDS

C. Lots

1. Lot Layers

- a. Lots are comprised of three Lot Layers, the First Lot Layer, the Second Lot Layer, and the Third Lot Layer, as related to the Lot Frontage, as shown in **Illustration 26-6.405.C (Lot Layers)** and as defined in Division 9.
- b. Lot Layers are used to regulate in what parts of a Lot certain Development, Building elements, and Uses are allowed or required, as set forth in **Tables 26-6.405.A-1 – 26-6.405.A-10 (District Standards)**.
- c. For Corner Lots, which have both a Principal Frontage and a Secondary Frontage:
 - i. standards and prescriptions for the First Lot Layer apply to the First Lot Layer as related to both Frontages; and
 - ii. standards and prescriptions for the Second Lot Layer and Third Lot Layer pertain only to such Layers as related to the Principal Frontage.

ILLUSTRATION 26-6.405.C (LOT LAYERS)

2. Lot Dimensions

- a. Lots within each District shall be dimensioned according to **Tables 26-6.405.A-1 – 26-6.405.A-10 (District Standards)**; and
- b. Lots within each Civic Zone shall be dimensioned according to **Table 26-6.405.B (Civic Zone Standards)**.

3. Lot Enfrontment

Within all Districts and Civic Zones, each Lot shall Enfront a vehicular Thoroughfare that has been approved by the Plan Commission, as provided in **Tables 26-6.405.A-1 – 26-6.405.A-10 (District Standards)**; provided, however, that up to five percent (5%) of the Lots in a Development Parcel may Enfront a water body, Civic Space, Path, or Passage.

4. Through Lots

Through Lots are prohibited. In any case in which a Nonconforming Lot is a Through Lot,

DIVISION 4: BUILDING AND LOT PLANS & STANDARDS

the Frontage and Front Setback regulations shall apply on both Frontages.

5. Required Spaces or Areas.

- a. Except as provided in Section 26-6.122.F, no Lot shall be divided, expanded, or reduced so as to result in its area or dimensions not complying with the standards required by this Section 26-6.405.C, nor shall any Setback required for a Principal Building be included as part of a Setback required under this Article for any other Building.
- b. A minimum required Lot or Yard size for one Building or Structure shall not be used in whole or in part as any part of a required Lot or Yard for a second Structure.
- c. The required Lot or Yard for an existing Building or Structure shall not be changed so that it does not meet the requirements of this Division.
- d. In addition to all Yard, Setback, and Civic Space standards and requirements of this Division 4 and Division 5, each Lot in Districts CD-3, CD-3.R-1, CD-3.R-2, and CD-3.R-3 shall be provided with the required area of Usable Open Space indicated for the applicable District in **Tables 26-6.405.A-1 – 26-6.405.A-10 (District Standards)**.

7. Visibility at Intersections.

On a Corner Lot, no Fence, Wall, hedge, Structure, or planting more than 3 1/2 feet in height measured above the Curb level shall be erected, placed or maintained within the triangular area formed by the intersecting lines of the Enfronting Thoroughfares and a line drawn between points along such Thoroughfare Lines that are 30 feet distant from their point of intersection.

D. Building Placement & Number

1. Building Placement.

- a. Every Building shall be located on a Lot. Buildings shall be located in relation to the boundaries of their Lots and shall comply with the Setback standards:
 - i. within each District according to **Tables 26-6.405.A-1 – 26-6.405.A-10 (District Standards)**; and
 - ii. within each Civic Zone, according to the applicable standards set forth on **Table 26-6.405.B (Civic Zone Standards)**.
- b. To accommodate slopes over ten percent (10%), relief from front Setback requirements may be granted by Waiver of the Zoning Administrator.

ILLUSTRATION 26-6.405.D-1 SETBACK DESIGNATIONS

2. Principal Buildings

M. Encroachments

Encroachments of Building Elements are allowed within each District and Civic Zone only as set forth in **Tables 26-6.405.A-1 – 26-6.405.A-10 (District Standards)** and **Table 26-6.405.B (Civic Zone Standards)**, respectively.

N. Screens, Streetscreens, & Buffers

1. Compliance with Standards.

Any Screen, Streetscreen, or Buffer shall comply with the applicable standards and requirements in **Tables 26-6.405.A-1 – 26-6.405.A-10 (District Standards)** and **Table 26-6.405.B (Civic Zone Standards)**, and this Section 26-6.405.N, as applicable.

2. When Screening Required.

Screening of the items and conditions indicated shall be provided as required for each applicable District in **Tables 26-6.405.A-1 – 26-6.405.A-10 (District Standards)**, or for each applicable Civic Zone in **Table 26-6.405.B (Civic Zone Standards)**, except in each case, at any Driveway.

3. Location of Streetscreen.

Any Streetscreen shall be located as set forth in **Tables 26-6.405.A-1 – 26-6.405.A-10 (District Standards)** and **Table 26-6.405.B (Civic Zone Standards)**.

4. Wall Screen / Streetscreen Material.

A Wall Screen or Streetscreen shall be constructed of the material as set forth in **Tables 26-6.405.A-1 – 26-6.405.A-10 (District Standards)** and **Table 26-6.405.B (Civic Zone Standards)**.

5. Fence Screen / Streetscreen Material.

A Fence Screen or Streetscreen shall be constructed of the material required in **Tables 26-6.405.A-1 – 26-6.405.A-10 (District Standards)** and **Table 26-6.405.B (Civic Zone Standards)**.

6. Hedge Screen / Streetscreen Standards.

A hedge Screen or Streetscreen shall comply with the requirements of **Tables 26-6.405.A-1 – 26-6.405.A-10 (District Standards)** and **Table 26-6.405.B (Civic Zone Standards)**.

7. Openings in Streetscreens.

Streetscreens shall have openings no larger than necessary to allow vehicular and pedestrian access.

8. Buffer Requirements.

Except as otherwise specifically provided in this Division, all required Buffers shall meet the following requirements:

- a. Minimum twenty-five foot (25') depth;
- b. Evergreen trees:
 - i. at installation being at two and one-half inches (2.5") in caliper, measured three (3) feet from the base of the trunk, and at least six feet (6') tall;
 - ii. having a height at maturity that will block the view from Adjoining property of all Parking, operations, loading, and Outdoor Storage and at least the first (1st) two (2) Stories of any Structure; and

DIVISION 4: BUILDING AND LOT PLANS & STANDARDS

- iii. having an opacity from the ground through the tallest part of the tree of at least 90%.

Buffer

9. Where Buffer Required.

A Buffer shall be required within the Lot:

- a. Where any Special District Adjoins a CD-3, CD-3.R-1, CD-3.R-2, or CD-3.R-3 District boundary, a Buffer shall be provided within the Lot; and
- b. In any other location specified in this Division.

O. Vehicular Parking, Bicycle Parking, Loading Space & Trash Receptacles

1. Vehicular Parking.

- a. Vehicular Parking shall be provided in accordance with this Section 26-6.405.O and **Table 26-6.405.O-1 (Vehicular Parking Requirements)**, shall comply with and be located and in accordance with **Tables 26-6.405.A-1 – 26-6.405.A-10 (District Standards)** and **Table 26-6.405.B (Civic Zone Standards)** shall be designed in accordance with **Table 26-6.405.O-3 (Off-Street Vehicular Parking Space**

Dimensions).

- b. Vehicular Parking required for each Lot shall be determined based on the quantity of Principal Use(s) of the Lot and the number of spaces available to the Lot, as determined by Section 26-6.405.O.1.c, Section 26-6.405.O.1.d, and **Table 26-6.405.O-1 (Vehicular Parking Requirements)**.
- c. In the SD-M, CD-4.A, and CD-4.B Districts, the number of spaces of parking available to a Lot is the sum of:
 - i. all spaces within the Lot,
 - ii. all spaces Adjacent to the Frontage Line on the same side of the Thoroughfare as the Lot, and
 - iii. if elected by the Applicant, all spaces available to the Lot within the same Block or an Adjacent Block within a public Parking Lot or Parking Structure or by parking agreement or Easement.

Any fractional spaces shall be rounded down to the nearest whole number.

In all other districts, the number of spaces of parking available to a Lot is the sum of all spaces within the Lot.

- d. The number of spaces of parking available to a Lot shall not be less than, nor more than 10% greater than, the number of spaces of parking determined by **Table 26-6.405.O-1 (Vehicular Parking Requirements)** based on the quantity of Principal Use(s) of the Lot, provided that the minimum number of spaces may be reduced pursuant to Section 26-6.405.O.1.e and Section 26-6.405.O.1.f.
- e. For purposes of this Section 26-6.405.O.1.e, the number of parking spaces available to a Lot may be reduced, at the election of the

DIVISION 4: BUILDING AND LOT PLANS & STANDARDS

Applicant, by dividing the number of spaces of parking required to be available to the Lot by the applicable Shared Parking Factor.

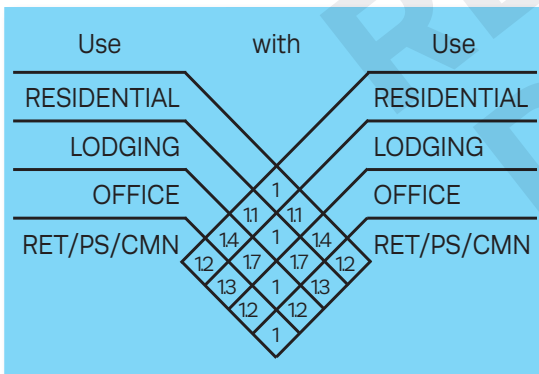

- f. The applicable Shared Parking Factor is determined under **Table 26-6.405.O-2 (Shared Parking Factor)** for any two Principal Uses within the Lot or within the Lot and any other Lot within the same or any Adjacent Block.
- g. In determining compliance with this Section 26-6.405.O.1, the following shall not be counted:
 - i. Accessory Dwelling Units; and
 - ii. Liner Buildings fewer than 30 feet deep and no more than two Stories.

are applicable to off-street parking accommodations:

The surfacing must be completed within one (1) year of the date the Building Permit is issued. Off-street parking accommodations must be designed, graded, and constructed in accordance with specifications approved by the Director of Public Works, such that surface water does not drain onto adjoining property, toward a Building or into the Thoroughfare right-of-way. Except those in Districts CD-3, CD-3.R1, CD-3.R2, CD-3.R3, and CD-4.R4, off-street Parking accommodations shall be arranged and legibly marked to provide for orderly and safe loading and unloading, parking and storage of vehicles.
- xviii. Off-street Parking Areas and Parking Lots shall be Screened in accordance with Section 26-6.405.N.

DIVISION 4: BUILDING AND LOT PLANS & STANDARDS

- xix. Parking Structures shall be Screened from view of any Frontage by one or more Liner Buildings as set forth in **Table 26-6.405.A-1 – 26-6.405.A-10 (District Standards)**. Such Liner Buildings shall be the same or greater height as the associated Parking Structure that they Screen.
 - xx. Lighting illuminating off-street Parking accommodations in all Districts and Civic Zones other than Districts CD-3, CD-3.R1, CD-3.R2, CD-3.R3, and CD-4.R4 shall be installed within and directed only onto the applicable Parking Area, Parking Lot, Garage, or Parking Structure.
 - xxi. Except in Districts CD-3, CD-3.R1, CD-3.R2, CD-3.R3, and CD-4.R4, cross access Easements shall be provided between all contiguous Parking Areas and Parking Lots except where such areas and lots are accessed from a Rear Alley.
 - xxii. In all Districts, Driveways at Frontages shall be no wider in the First Lot Layer than the width specified for the applicable District in **Table 26-6.405.A-1 – 26-6.405.A-10 (District Standards)**.
 - xxiii. In all Districts, pedestrian exits from all Parking Lots, Parking Areas, Garages, and Parking Structures shall conform to **Table 26-6.405.A-1 – 26-6.405.A-10 (District Standards)**, except for underground Parking accommodations.
- Section 26-6.405.P.
- b. In Civic Zones, Lots shall be landscaped in accordance with **Table 26-6.405.B (Civic Zone Standards)** and this Section 26-6.405.P. Additionally, Civic Spaces shall be designed as set forth in **Table 26-6.504.B-2 (Civic Space –Specific Standards)**.
 - c. Without limitation to any other provisions of this Section 26-6.405.P, all Screen, Streetscreen, and Buffer standards and requirements of this Article must be met.
 - d. Without limitation, all bare or exposed ground on a Lot and/or in a landscaped area shall be covered with live plant materials and/or mulch, with the following exceptions:
 - i. Naturally occurring creek beds, rock outcroppings or similar landscape features typically lacking in vegetation.
 - ii. Agricultural fields seasonally tilled for cultivation.
 - iii. Hiking trails and/or traces.
 - iv. Clay or sand surfaces associated with recreation fields and facilities.

P. Private Lot Landscape Standards

1. General.

- a. In all Districts, Lots shall be landscaped in accordance with **Table 26-6.405.A-1 – 26-6.405.A-10 (District Standards)** and this

2. Maintenance of Landscaping.

- a. All landscaping shall be properly maintained.
- b. Without limitation to Section 26-6.405.P.2.a, a maintenance bond lasting one year must be provided for all plantings required in Districts CD-4.A, CD-4.B and CD-5, and Civic Zones under this Section 26-6.405.P.

3. Removal of Walls or Trees.

Existing Walls or trees within 30 feet of any Thoroughfare line or 50 feet of a CD-3, CD-3.R1, CD-3.R2, CD-3.R3, or CD-4.R4 District boundary, which have a diameter of eight inches (8") or more as measured three feet (3') from the base

DIVISION 4: BUILDING AND LOT PLANS & STANDARDS

of the trunk, shall not be removed except with the approval of the Plan Commission.

4. Plant Material Standards and Sizes.

- a. Except as otherwise required by Section 26-6.405.P.4.h and Section 26-6.405.P.4.g, all required plant materials shall meet with the minimum container size, class and other requirements outlined in American Standards for Nursery Stock (ANSI Z60.1-2004) published by the American Nursery and Landscape Association (ANLA) or other local Nursery Association Standards.
- b. In required landscaped areas, at least 25% of the area shall be covered with non-deciduous shrubs, trees or ground cover.
- c. All plantings shall be appropriate for the environmental conditions of their location.
- d. Any planting materials required for screening shall be evergreen and have an opacity of at least 90% from the ground through the full height of the plant.
- e. Plantings shall not conflict at installation or maturity with any other required Building and Lot elements or other plantings.
- f. Ground vegetation or Shrub plantings with spines, thorns or needles that may present hazards to pedestrians, bicyclists or vehicles are prohibited in the first two feet (2') of the First Lot Layer.
- g. At installation, Trees shall be a minimum two and a half inches (2.5") in caliper measured three feet (3') from the base of the trunk.
- h. At installation, Shrubs shall be a three (3) gallon container minimum.

5. Placement of Trees and Shrubs.

Proposed trees and shrubs shall be placed minimally 18" from any Sidewalk or pavement edge, measured from the center of the plant.

6. Artificial Plants / Turf.

Artificial plants or artificial turf are prohibited except on active recreation fields that are typically subject to intense use and soil compaction that prohibits the establishment of turf grass, and where paving or grass paving systems will not suffice given the purpose and level of use of the area.

7. Establishment.

All required landscape areas shall be watered and fertilized as necessary to ensure establishment within the first planted year in accordance with best landscape practices.

8. Screens.

Screens shall be provided in accordance with Section 26-6.405.N.

9. Mitigation of Wind Erosion.

Wind erosion shall be mitigated and controlled through dust abatement and similar practices during the period of site work and construction.

10. Compacted Soils.

Landscape soils that have been compacted during construction activities shall be loosened and aerated to a depth of at least six inches (6") before planting.

11. Condition of Plants.

Plants shall have normal, well-developed branches and vigorous root systems.

DIVISION 4: BUILDING AND LOT PLANS & STANDARDS

12. Maintenance.

Any planting(s) required under this Section 26-6.405.P, which are significantly damaged, removed, infested, disease ridden, or dead shall be replaced within one year or by the next planting season, whichever occurs first.

13. Planted Trees.

Any planted Trees shall be of the Tree Shape indicated for the applicable District or Civic Zone on **Table 26-6.502.F (Public Planting)**.

14. Paving.

The First Lot Layer shall not be paved, except for the following:

- a. Driveways;
- b. Sidewalks;
- c. Terraces/Lightwells;
- d. Dooryards; and
- e. Pavement matching the adjoining Public Frontage in Character District CD-5 where the Building is set back no more than five feet (5') from the Front Lot Line.

15. Trees Required.

Trees shall be provided in accordance with **Table 26-6.405.A-1 – 26-6.405.A-10 (District Standards)** and **Table 26-6.405.A-1 – 26-6.405.A-10 (District Standards)**, as applicable.

16. Lawns.

Lawns are allowed.

17. Minimum Landscaped Area.

The minimum required landscaped area shall be as provided in **Table 26-6.405.A-1 – 26-**

6.405.A-10 (District Standards) and **Table 26-6.405.A-1 – 26-6.405.A-10 (District Standards)**, as applicable.

18. Preservation of Existing Trees & Vegetation.

Preservation of on-site existing Trees and vegetation is encouraged and may be used to fulfill the landscape requirements.

19. Preservation of Root Zones.

The root zones of existing Trees and vegetation to be preserved shall be preserved and protected from clearing or construction activities and shall be enclosed by a temporary protective fence.

20. No Noxious or Invasive Species.

No plant species identified in any prohibited plant list developed by the Zoning Administrator shall be installed and all plants of such species shall be removed.

21. Existing Vegetation.

The size and limits of existing vegetation shall be indicated on the Landscape Plan portion of the Building and Lot Plan.

22. Significant Trees.

Priority shall be given to preserving and protecting significant Trees that provide screening, buffering, wildlife habitat and/or linkages to wildlife habitat.

Trees of 10" DBH or greater that are removed for development shall be replaced based on the following:

- a. 1:1 replacement ratio for removed Trees between 10" DBH and less than 16-inch DBH;
- b. 2:1 replacement ratio for removed Trees

DIVISION 4: BUILDING AND LOT PLANS & STANDARDS

between 16" DBH and less than 24" DBH;

- c. 3:1 replacement ratio for removed Trees between 24" DBH and less than 30" DBH; and
- d. 4:1 replacement ratio for removed Trees 30" DBH and over.

23. Open Space & Civic Space.

Open Spaces and Civic Space shall remain fenced and protected during all abutting site work and construction activities unless alterations to them are otherwise specified by the plans.

24. Amendment of Topsoil.

The topsoil within the limits of disturbance of a construction site shall be amended with organic soil additives as recommended by a landscape soils test prior to being redistributed in accordance with best landscape practices.

25. Parking Areas / Parking Lots.

Parking Areas and Parking Lots shall conform to the landscaping requirements of Section 26-6.405.O.

All Landscaping required pursuant to Section 26-6.405.O near the paved portion of any Parking Area, Parking Lot, Loading Area, Driveway or Thoroughfare shall be located in a manner to protect the vegetation from vehicular damage. Without limiting the foregoing, all Trees within Tree islands or along the perimeter of the Parking Area or Parking Lot shall be separated from Parking Area or Parking Lot paved surfaces by at least three (3') feet.

Q. Private Lighting Standards.

The following standards and requirements are applicable within all Districts and Civic Zones, except as otherwise noted:

1. Areas to be Lighted.

Except in Districts CD-3, CD-3.R1, CD-3.R2, CD-3.R3, and CD-4.R4, SD-M, and SD-PUD, all Parking Areas, Parking Lots, Parking Structures, and accessways within the Lot shall be lighted.

2. Lighting Standards or Poles.

- a. Lighting standards shall comply with **Table 26-6.405.Q-1 (Private Lighting Types)**.
- b. A lighting standard shall be of a height and design consistent with the surrounding area Buildings but in no event higher than 20 feet.
- c. Standards shall be located at distances of four times their height.

3. Illumination.

- a. A minimum of one foot-candle (1.0 fc) of illumination shall be provided throughout Parking Areas, Parking Lots, and Parking Structures.
- b. Illumination at all Lot Lines shall meet the standard of **Table 26-6.405.Q-2 (Private Lighting Standards)**.

S. Streetscape Repairs, Replacements & Improvements

1. Applicability.

This Section 26-6.405.S shall apply within all Districts and Civic Zones, but shall not apply to any Building or Lot within a Development Parcel for which Thoroughfares are to be provided or modified in accordance with Division 5.

2. Streetscape Repairs, Replacements & Improvements.

Prior to the issuance of any Certificate of Occupancy for a Building or Improvement, the following Streetscape improvements, repairs, or replacements shall be provided by the Lot Owner with respect to each Building or Improvement and the Streetscape that Enfronts the applicable Lot:

- a. Any walkway, planter well or planter strip, street light or curb that exists in the Public Frontage or Thoroughfare Adjacent to the applicable Lot prior to commencement of construction of such Building or Improvement and which is damaged during such construction shall be repaired so that it is in at least as good condition as it was in prior to such damage or shall be replaced.
- b. If the Public Frontage Adjacent to the applicable Lot does not include a Sidewalk, Thoroughfare Trees, or street lights, any absent element that would have been required pursuant to Section 26-6.502 if the Building or Lot were within a Development Parcel Thoroughfare standards shall be provided by the Lot Owner in accordance with

the following standards and requirements

- i. If there is no Sidewalk, a Sidewalk shall be constructed along the entire Front Lot Line, which Sidewalk shall match any existing Sidewalk Enfronting an Adjacent Lot or if there is none, shall conform to the Thoroughfare standards for the applicable District or Civic Zone, as set forth in Section 26-6.502, as if such Thoroughfare standards were applicable.
- ii. If there is no planter strip or plant well, planting accommodations shall be constructed along the entire Front Lot Line which planting accommodations shall match any existing planter strip or plant well Enfronting an Adjacent Lot, or if there is none, shall conform to Thoroughfare standards for the applicable District or Civic Zone, as set forth in Section 26-6.502 as if such Thoroughfare standards were applicable.
- iii. If there is no Thoroughfare Tree within the Frontage Adjacent to the Lot, one or more Thoroughfare Trees shall be installed along the Front Lot Line, which Trees shall meet the tree shape, spacing, and size standards for the applicable District or Civic Zone as set forth in Section 26-6.502, as if such standards were applicable.
- c. If there is not sufficient public right-of-way area for all or any of the required Streetscape repairs, replacements, or improvements as set forth in this Section 26-6.405.S, such element or elements shall be provided within the Lot Adjacent to the public right-of-way and the property owner shall grant a perpetual non-exclusive easement for

DIVISION 4: BUILDING AND LOT PLANS & STANDARDS

public use of such elements.

- d. Each Streetscape repair, replacement or Improvement made pursuant to this Section 26-6.405.S must comply with the rules, regulations, and requirements of the Town Planning Department and Public Works Department that are applicable and in effect from time to time in respect of such element, so that it qualifies, or would qualify if within the public right-of-way, for dedication to the Town.

SECTION 26-6.501 DEVELOPMENT PARCEL STANDARDS

A. Definition of Development Parcel

Development Parcel is defined in Division 9.

B. Development Parcel Plans

1. When Development Parcel Plan Required.

Except for changes to Nonconforming Uses, Buildings, Structures, Improvements, Lots and Signs that may be made without loss of the legal status thereof, none of the following shall occur except pursuant to and in compliance with a Development Parcel Plan that has been prepared, submitted and certified in accordance with this Division and Division 8 and all standards and requirements applicable thereto:

- a. filing, issuing, applying for, certifying, or approving any subdivision application or plat, Building Permit, Building and Lot Plan, or Site Plan, relating to, or subdividing, re-subdividing, commencing construction on, or developing or improving any part of a Development Parcel; or
- b. approving any Zoning Map or Zoning Map amendment other than one prepared by or on behalf of the Town.

2. Preparation and Requirements.

Each Development Parcel Plan shall be prepared in accordance with Section 26-6.501.B.5 below and shall conform to the requirements of Section 26-6.501.B.6 and other provisions hereof.

3. Plan Submission.

- a. If a Development Parcel Plan is required by virtue of Section 26-6.501.B.1.a, such Development Parcel Plan shall be submitted for review and Certification of Compliance by the Zoning Administrator prior to taking

any of the actions described in Section 26-6.501.B.1.a.

- b. If a Development Parcel Plan is required by virtue of Section 26-6.501.B.1.b, such Development Parcel Plan shall be submitted as part of the applicable application for approval of the Zoning Map or Zoning Map amendment pursuant to Section 26-6.118.D.

4. Action on Plan.

An application for review and Certification of Compliance with respect to a Development Parcel Plan shall be processed and acted upon in accordance with Section 26-6.118.D and Section 26-6.804.F.

5. Preparation.

Each Development Parcel Plan required to be submitted under this Chapter shall be prepared and submitted by or on behalf of the Owner of the applicable property.

6. Plan Requirements.

Each Development Parcel Plan submitted under this Chapter shall include the standards and requirements for the Development Parcel Plan area and one or more maps reflecting each of the items listed in Section 26-6.804.F, all in compliance with this Chapter and the standards and requirements of the applicable Character District, Civic Zone, or Special District in which the land covered by such Development Parcel Plan is situated, as determined by:

- a. the applicable Zoning Map then in effect if such Development Parcel Plan is not being submitted as part of an application for Zoning Map Amendment; or
- b. the proposed Zoning Map or Zoning Map amendment if such Development Parcel Plan

DIVISION 5: DEVELOPMENT PARCEL PLANS & STANDARDS

is being submitted as part of an application for a Zoning Map amendment.

7. Items Required on/with Development Parcel Plan.

The items and information required by Section 26-6.804.F shall be shown on or included with each Development Parcel Plan, each in compliance with this Chapter and, as applicable under Section 26-6.501.B.6 above, the existing or proposed Zoning Map.

8. Pedestrian Sheds.

Any proposed Development Parcel Plan shall be based upon one or several proposed or existing Standard or Linear Pedestrian Sheds, as applicable, located according to existing conditions, such as traffic intersections, Adjacent Development, and natural features. Each Pedestrian Shed shall have a Common Destination near its center. See **Illustration 26-6.501.B.8-1 (Pedestrian Sheds)**. The Development Parcel Plan site may be smaller or larger than the Pedestrian Shed within which it is situated.

ILLUSTRATION 26-6.501.B.8-1 STANDARD PEDESTRIAN SHED

ILLUSTRATION 26-6.501.B.8-2 LINEAR PEDESTRIAN SHED

9. Civic Zones.

Civic Zones shall be assigned according to and as required by Sections 26-6.504.A.1 and 26-6.307.E.

10. Character Districts.

Character Districts shall be assigned according to and as required by Section 26-6.307.A, Section 26-6.307.B and Section 26-6.307.D.

11. Special Districts.

Special Districts, if any, shall be assigned according to Section 26-6.307.F.

12. Thoroughfare Network.

The Thoroughfare network shall be laid out according to Section 26-6.502.

13. District Density.

District Density, if applicable, shall be calculated and shall conform to Section 26-6.505.

SECTION 26-6.502 THOROUGHFARES

A. General.

Thoroughfares shall be comprised generally of Vehicular Parking Lanes, Vehicular Travel Lanes, any Bicycle Accommodations, and the Public Frontage, which is comprised of the Sidewalks, tree planting area, Thoroughfare trees, and street lights.

B. Thoroughfare Standards.

Any Thoroughfares within or Adjacent to a Development Parcel on a Development Parcel Plan shall comply with the following standards:

1. Access.

Thoroughfares shall provide for vehicular and non-vehicular traffic and provide access to Lots and Open Spaces.

2. Components.

Thoroughfares shall consist of Vehicular Lanes, any Bicycle Accommodations and Public Frontages.

3. Thoroughfares in Multiple Districts / Civic Zones.

The Public Frontages of Thoroughfares that pass from one District or Civic Zone to another shall be adjusted accordingly or, alternatively, the Character District may follow the alignment of the Thoroughfare to the depth of one Lot, retaining a single Public Frontage throughout its trajectory.

4. Block Perimeter.

Thoroughfares shall be designed to define Blocks not exceeding any applicable perimeter size prescribed in **Table 26-6.503. (Block Perimeter Standards)**, measured as the sum

of Lot Frontage Lines, subject to adjustment by Waiver of the Zoning Administrator at the edge of a Development Parcel.

5. Network / Connections.

Thoroughfares shall terminate at other Thoroughfares, forming a network, with internal Thoroughfares connecting wherever possible to those on Adjacent sites and culs-de-sac not being allowed unless approved by Waiver of the Zoning Administrator to accommodate specific site conditions.

6. Thoroughfare Types.

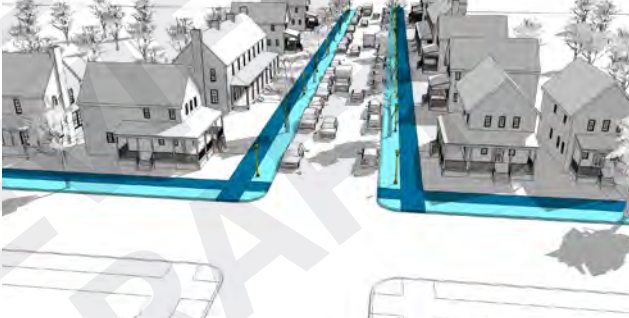

Each Thoroughfare shall be one of the types described in **Table 26-6.502.B.6-1 (Thoroughfare Types – Summary)** for the applicable District or the District Adjacent to a Civic Zone.

7. Thoroughfare Assemblies & Standards.

Thoroughfares within Districts and within Civic Zones Adjacent to Districts shall conform to the applicable Thoroughfare Standards for such Districts set forth in **Table 26-6.502.B.6-2 (Thoroughfare Assemblies and Standards)**. See **Illustration 26-6.502.B.6-3 (Turning Radius)**.

Drive

A Thoroughfare type with Building Frontages on one side and no or very sporadic Building Frontages on the other side. Frequently, a Drive is used along a boundary between an urbanized area and a natural condition along a waterfront or Natural Area. The Public Frontage has raised Curbs drained by inlets and a wide Sidewalk or paved Path along one side, related to a greenway or waterfront. It is separated from the Vehicular Lanes by individual or continuous planters. The landscaping consists of Thoroughfare Trees aligned in a regularly spaced row.

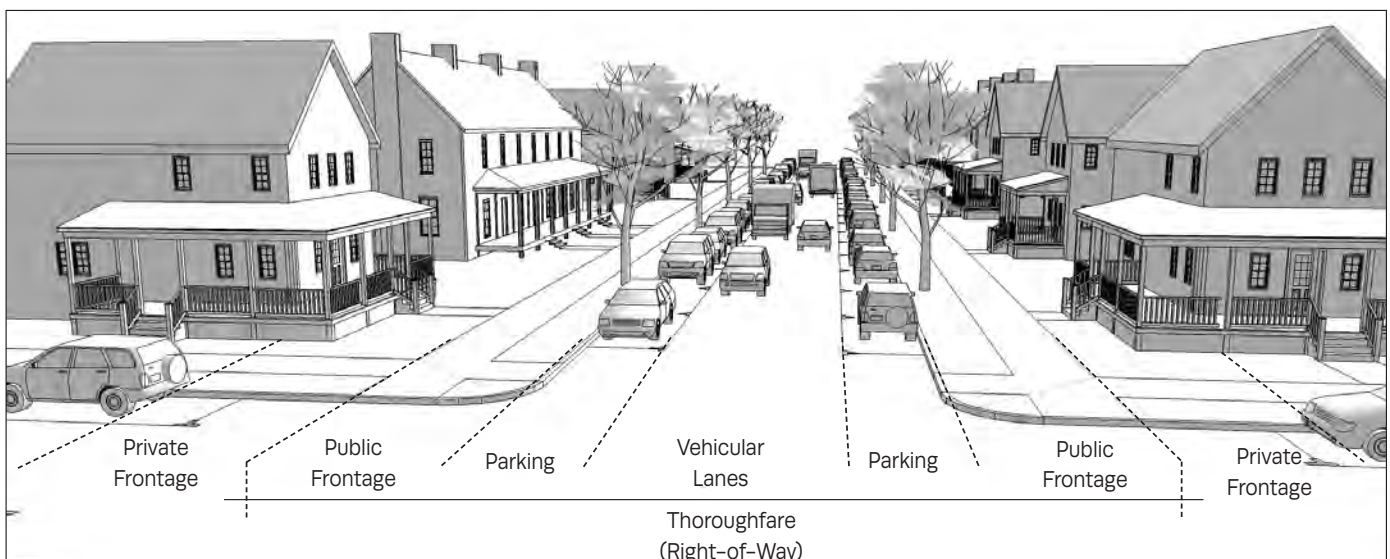

ILLUSTRATION 26-6.502.B.6-3 TURNING RADIUS

8. Sight Triangle.

At all Thoroughfare intersections, the visibility standard of Sector 26-6.405.C.7 must be met.

ILLUSTRATION 26-6.502.C-1 PUBLIC FRONTAGE

9. Finished Grade.

Intersections shall have a finished grade that conforms to the technical standards of the Town Public Works Department.

10. Connecting Driveways.

Where a Driveway connects to a collector or major Thoroughfare, it shall be designed to provide for a turnaround to avoid backing into the Thoroughfare.

C. Public Frontages.

1. Elements.

The Public Frontage shall include the Sidewalk, Curb, any planter, any bicycle accommodations, any Thoroughfare trees, and any street lights, allocated within and designed in accordance with this Article 5, **Table 26-6.502.D (Bikeway Types)**, **Table 26-6.502.B.6-1 (Thoroughfare Types Summary)** and **Table 26-6.502.B.6-2 (Thoroughfare Assemblies and Standards)**.

2. Civic Zones

Within Civic Zones, the Public Frontage shall comply with the Public Frontage standards applicable to any Adjacent Character District, or if there is none, the closest Character District.

3. Plantings Provided by Owner.

a. Within the Public Frontage, Public Planting, if any is required or is to be provided, shall be provided by the property Owner in accordance with **Table 26-6.502.B.6-2 (Thoroughfare Assemblies and Standards)**, provided that the spacing may be adjusted by Waiver of the Zoning Administrator to accommodate specific site conditions. Tree species shall be selected from the Tree List maintained by the Town; provided that coniferous trees are not allowed within the public right of way.

4. Tree Height at Maturity.

The Public Frontage shall include Thoroughfare trees with shade canopies of a height that, at maturity, leaves clear at least one Story.

5. Plant Species.

Other than Thoroughfare trees prescribed by this Section 26-6.502.C, the introduced landscape shall consist primarily of durable native species and hybrids that are tolerant of soil compaction and require minimal irrigation, fertilization and maintenance.

6. Sidewalk Construction Standards.

Sidewalks meeting the technical standards of the Town Public Works Department and the standards and requirements set forth in **Table 26-6.502.B.6-2 (Thoroughfare Assemblies and Standards)** shall be required to insure pedestrian movement and safety.

7. Placement of Trees.

Thoroughfare trees, any other landscaping within the Public Frontage, and landscaping within Civic Zones and any Special Districts shall comply with the following standards:

- a. The same shall be centered horizontally and placed minimally:
 - i. Two (2) feet from walkways, curbs, and other impervious surfaces if planted in a tree well or continuous planter;
 - ii. Three (3) feet from walkways, curbs, and other impervious surfaces if planted in a continuous Swale or uncontained area.
- b. Five (5) feet from street lights, utility meters and service lines, fences, walls and other ground level obstructions;
- c. Six (6) feet from porch eaves, awnings and similar overhead obstructions associated with the ground level of Buildings; and
- d. Eight (8) feet from balconies, verandas, Building eaves and cornices, and similar overhead obstructions associated with the upper stories of Buildings.

8. Tree Size – Installation.

At installation, trees shall be a minimum of two and a half inches (2.5") in caliper.

9. Shrub Size.

At installation, Shrubs shall be a three (3) gallon container minimum and a height of 30 inches minimum. Shrubs shall be 18" – 24" minimum clear from any Sidewalk or pavement edge at the Lot Line.

DIVISION 5: DEVELOPMENT PARCEL PLANS & STANDARDS

10. Bare / Exposed Ground.

All bare or exposed ground on the site and in landscaped areas shall be covered with live plant materials and/or mulch, with the following exceptions:

- a. Naturally occurring creek beds, rock outcroppings or similar landscape features typically lacking in vegetation.
- b. Agricultural fields seasonally tilled for cultivation.
- c. Hiking trails and/or traces.
- d. Clay or sand surfaces associated with recreation fields and facilities.

11. Artificial Plants / Turf.

Artificial plants and artificial turf are prohibited.

12. Irrigation.

All required landscape areas shall be irrigated by an automatic underground irrigation system. Where possible and practical, bubbler, drip irrigation, and soaker hose emitters shall be utilized. Each irrigation system shall be equipped with a meter, backflow preventer, rain sensor, and a suitable controller.

13. Temporary Spray Irrigation.

Temporary spray irrigation systems may be used to establish seeded areas for grass and groundcover and native drought-tolerant landscape.

14. Water Features.

Constructed water features such as fountains, streams and ponds that operate with water recirculation systems shall be designed to prevent seepage and leaks.

15. Minimum Requirements.

Except as otherwise required by Section 26-6.502.C.8 and 26-6.502.C.9, all plant materials shall meet with the minimum container size, class and other requirements outlined in American Standards for Nursery Stock (ANSI Z60.1-2004) published by the American Nursery and Landscape Association (ANLA) or other local Nursery Association Standards.

16. Prevention of Compaction.

The soil structure of planting strips shall be protected from compaction with a temporary construction fence. Standards of access, excavation, movement, storage and backfilling of soils in relation to the construction and maintenance of deep utilities and manholes shall be specified.

17. Mitigation of Wind Erosion.

Wind erosion shall be mitigated and controlled through dust abatement and similar practices during the period of site work and construction.

18. Compacted Soils.

Landscape soils that have been compacted during construction activities shall be loosened and aerated to a depth of at least six (6) inches before planting.

19. Condition of Plants.

Plants shall have normal, well-developed branches and vigorous root systems.

D. Bicycle Accommodations

1. Bicycle Parking.

Bicycle Parking shall be provided in accordance with Section 26-6.405.O.4.

2. Bikeway Types.

Within Character Districts a bicycle network comprised of the various allowed Bikeway Types indicated in **Table 26-6.502.D (Bikeway Types)** shall be provided throughout each Development Parcel.

3. Bicycle Accommodation Standards – Civic Zones.

Within Civic Zones, any bicycle accommodations shall comply with the standards applicable to any Adjacent Character District, or if not Adjacent to a Character District, the closest Character District.

4. Bicycle Accommodation Standards – Special Districts.

Within Special Districts, any bicycle accommodations shall comply with any applicable standards for the Special District.

A. Civic Space Requirement; Civic Zone Designation.

1. Percentage of Civic Space.

Any Development Parcel Plan having an area of 40 gross acres or more, excluding any Special Districts, shall include at least 5% but not more than 20% of its gross acreage assigned as Civic Space(s). The Civic Space provided pursuant to this Section 26-6.504.A.1 shall be in addition to all Yard, Setback, Usable Open Space, and area required not to be covered, as set forth under Division 4 and Division 5.

2. Designation on Zoning Map.

Civic Zone(s) shall be designated on the applicable Zoning Map as Civic Space (CS) and / or Civic Building (CB). Civic Zones shall be assigned in accordance with Section 26-6.307.E.

3. Compliance with Civic Zone Standards.

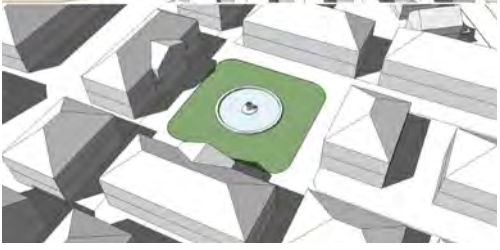

All Lots, Development, Buildings, Structures and Improvements within Civic Zones shall comply with **Table 26-6.405.B (Civic Zone Standards)**.

B. Civic Spaces – Design.

Civic Spaces shall be designed as generally described in **Table 26-6.504.B-1 (Civic Space Types – Summary)** and **Table 26-6.504.B-2 (Civic Space – Specific Standards)** as indicated for the Adjacent Character District, or if not Adjacent to a Character District, for the closest Character District.

DIVISION 5: DEVELOPMENT PARCEL PLANS & STANDARDS

C. Civic Spaces Required.

Any Development Parcel Plan having an aggregate area of 80 gross acres or more, excluding any Special Districts, shall provide the following:

1. Main Civic Space.

Each Pedestrian Shed of which the area is a part shall contain at least one Main Civic Space of the Green, Square, or Plaza type conforming to **Table 26-6.504.B-1 (Civic Space Types - Summary)**, within 800 feet of the geographic center of such Pedestrian Shed, unless topographic conditions, pre-existing Thoroughfare alignments or other circumstances prevent such location;

2. Playground.

Within 800 feet of every Lot in Residential Use, a Civic Space designed and equipped as a Playground conforming to **Table 26-6.504.B-2 (Civic Spaces - Playground)**; and

3. Thoroughfare Enfrontment.

Each Civic Space shall have a minimum of 50% of its perimeter Enfronting a Thoroughfare, except for Playgrounds or Community Gardens.

D. Civic Spaces in or Adjacent to Special Districts.

Civic Space in addition to that required by this Section 26-6.504 may be permitted or required within Special Districts if approved by the Town Council.

E. Civic Building Standards.

Any Civic Building provided or required pursuant to this Chapter shall be located within or Adjacent to a Civic Space, or at the axial termination of a significant Thoroughfare.

F. Civic Buildings in Special Districts.

Civic Buildings may be permitted or required within Special Districts by the Town Council.

G. Maintenance of Civic Buildings & Civic Space.

Civic Buildings and Civic Space shall be owned and maintained by a property owners' association unless specifically dedicated to and accepted by the Town. Any such property owner's association shall be organized under the laws of the State. The deed conveying a Civic Building or Civic Space to a property owners' association shall include covenants running with the land that permanently reserve it for Civic purposes and require the association to maintain and pay all expenses associated with such Civic Building or Civic Space.

SECTION 26-6.505 DISTRICT DENSITY

Any proposed Development Parcel having an aggregate area of 80 gross acres or more, excluding any Special Districts, shall require compliance with the following District Density provisions:

A. District Density Calculation.

1. Net Site Area

All developable area within a specific District covered by the Development Parcel Plan, including Thoroughfares but excluding Civic Zones, shall be considered the Net Site Area.

2. Density Units

Density shall be expressed in terms of Density Units per acre as specified for the area of each Character District by **Table 26-6.505.A.1 (District Density)**.

DIVISION 5: DEVELOPMENT PARCEL PLANS & STANDARDS

TABLE 26-6.505.A.1 DISTRICT DENSITY

CD-3.R2	Not Regulated
CD-3.R3	Not Regulated
CD-4.R4	Not Regulated
CD-4.A & CD-4.B	12 units per acre, gross, max
CD-5	96 units per acre, gross, max
SD-M	Not Regulated
SD-PUD	As provided in specific PUD standards

3. Density Equivalences

The quantities of the Principal Uses indicated on **Table 26-6.505.A.2 (Density Equivalences)** shall constitute the indicated number of Density Units or portion thereof.

TABLE 26-6.505.A.2 DENSITY EQUIVALENCES

The following quantities of Principal Uses are equivalent to the indicated number of Density Units

Category of Principal Use	Density Units / Net Site Area of District
1 Residential/Dwelling, each Dwelling Unit	1 Density Unit
1 Bed & Breakfast Dwelling	1 Density Unit plus .5 Density Units for each guest bedroom
1 Lodging Bedroom (Other - Bed & Breakfast)	.5 Density Unit

B. Maximum District Density.

The Maximum Density per District of a Development Parcel having in the aggregate an area of 80 gross acres or more, shall not exceed that set forth in **Table 26-6.505.A.1 (District Density)**.

DIVISION 5: DEVELOPMENT PARCEL PLANS & STANDARDS

SECTION 26-6.506 CHARACTER DISTRICTS

A. Designation on Development Parcel Plan.

A Development Parcel Plan shall designate all Character Districts within it.

B. Assignment of Character Districts.

For Development Parcels having a gross acreage of 80 acres or more, excluding any Special Districts, Character Districts shall be assigned in accordance with Section 26-6.307.D.

SECTION 26-6.507 SPECIAL DISTRICTS

A. Purpose of Special Districts.

Special District designations are for areas which, by their intrinsic size, Use, or Configuration, cannot conform to the requirements of the applicable Character District(s).

B. Not to be Used to Avoid Compliance.

Special Districts shall not be used to avoid compliance with standards and requirements for Character Districts, and instead, shall be used sparingly.

C. Assignment of Special Districts.

Special Districts shall be assigned in accordance with Section 26-6.307.F.

SECTION 26-6.508 SPECIAL REQUIREMENTS

A Development Parcel Plan may designate any of the Special Requirements set forth in Section 26-6.202.B.

DIVISION 6: SUPPLEMENTAL STANDARDS

SECTION 26-6.601 GENERAL

The following standards and requirements must be complied with in addition to all other standards and requirements of this Chapter.

SECTION 26-6.602 SITE GRADING

A. Design.

1. Principal Objectives.

Grading design shall accomplish the following principal objectives:

- a. Development of attractive, suitable and economical building sites.
- b.. Provision of safe, convenient and functional access to all areas for use and maintenance.
- c.. Disposal of surface runoff from the site area without erosion or sedimentation, or its collection as needed for water features, debris basins or irrigation storage.
- d. Diversion of surface and subsurface flow away from Buildings and pavements to prevent undue saturation of the subgrade that could damage Structures and weaken pavements.
- e. Preservation of the natural character of the site by minimum disturbance of existing ground forms and meeting of satisfactory ground levels at existing trees to be saved.
- f. Optimum on-site balance of cut and fill; stockpiling for reuse of existing topsoil

suitable for the establishment of ground cover or planting.

- g. Avoidance of filled areas that will add to the depth or instability of Building foundations and pavement subgrades.
- h. Avoidance of wavy profiles in streets and walks and of steps in walks.
- i. Avoidance of earth banks requiring costly erosion control measures, except where these are needed in place of costly retaining walls.
- j. Keeping finished grades as high as practicable where rock will be encountered close to the surface, thus reducing the cost of utility trenching and other excavation and improving conditions for vegetation.
- k. Avoidance of runoff water over, and ice formation on roadways.

B. Areas Adjacent to Buildings.

1. Unpaved Areas.

Unpaved areas Adjacent to Buildings shall be sloped to direct surface water and roof drainage, including snowmelt, away from Buildings at a minimum slope of six inches (6") in the first 10 feet (10') of horizontal distance and not across sidewalks.

2. Paved Areas.

Areas Adjacent to Buildings that are paved with Portland cement concrete shall have a slope of not less than 0.5% and bituminous pavements shall have a slope of not less than 1.5%.

C. Unoccupied Site Areas.

Portions of the site not occupied by Buildings or pavement shall have adequate continuous slopes to drain toward watercourses, drainage swales,

roadways and the minimum necessary storm drainage inlets. Drainage swales or channels shall be sized and sloped to accommodate design runoff. The runoff should be carried under walkways in pipes with diameters of not less than eight inches (8") or of larger sizes if clogging by debris or grass cuttings is a problem. Swales should be used to intercept water at the top and bottom of banks where large areas are drained. To provide positive drainage, a slope of not less than 2% for turfed areas is usually desirable, but more permeable soils may have adequate drainage with a lesser slope. Turf banks, where required, should be graded to permit the use of gang mowers, provided that a maximum slope of one vertical to four horizontal and, if feasible, a slope of one vertical to four horizontal. The tops and bottoms of all slopes should be gently rounded in a transition curve for optimum appearance and ease of maintenance.

SECTION 26-6.603 SITE DRAINAGE

A. Drainage Design & Exposure to Flood Hazards.

1. Design Standard.

Drainage shall be designed to accommodate storm runoff, calculated on the basis of the ultimate foreseeable developed conditions of contributory site and off-site drainage areas.

2. Minimum Grades Elevations.

The minimum grades at Buildings and at openings shall be at elevations that will prevent adverse effects by water or water entering basements from flood levels equivalent to a fifty-year return frequency. The floor elevations of all habitable space shall be above flood levels equivalent to a one-hundred-year return frequency.

3. Routing of Runoff Water

Provisions shall be made for the best available routing of runoff water to assure that Buildings or other important facilities will not be endangered by a major emergency flood runoff that would become active if the capacity of the site's storm drainage system were exceeded.

4. Paved Area Runoff.

Paved areas shall be usable during runoff equivalent to a twenty-five-year return frequency. Thoroughfares shall be made passable for local commonly used emergency vehicles during runoff equivalent to a twenty-five-year return frequency except where an alternative access Thoroughfare not subject to such ponding is available.

5. Routing to Outfall.

Site drainage shall be routed to permanent surface or subsurface outfall adequate to dispose of present and future anticipated runoff from the site and from contributing off-site watershed areas.

6. Drainage Swale Capacity.

Drainage swales shall not carry runoff across walks in quantities that will make them undesirable to use. Walks shall not be designed as drainageways.

7. High Groundwater Table Areas.

Developed portions of a site that can be adversely affected by a potentially high groundwater table shall be drained where possible by subsurface drainage facilities adequate for the disposal of excess groundwater.

DIVISION 6: SUPPLEMENTAL STANDARDS

8. Stormwater Drainage Connection to Outfall.

Stormwater drainage shall be connected only to outfall approved by the Town Engineer.

9. Adequate Facilities Per SWPP.

Adequate storm- and surface- water drainage facilities, which will properly drain the site while minimizing downstream flooding shall be provided for, as evidenced by a stormwater pollution prevention plan (SWPPP) provided pursuant Section 26-6.804.G. Consistent with and meeting the performance and design criteria and the standards of Subdivision VII of the Town Code.

B. Primary Storm Sewer.

The pipe size for the primary storm sewer system shall have an inside diameter based on design analysis for a twenty-five-year storm but not less than 15 inches. The minimum gradient shall be selected to provide for self-scouring of the conduit under low-flow conditions and for the removal of foreseeable sediments from the drainage area.

C. Secondary Drains.

Pipe drains of adequate size from minor runoff concentration points shall be provided and connected to appropriate disposal lines when analysis indicates that they are necessary.

D. Professional Design

Storm drainage systems must be designed by licensed professional engineers and plans must be sealed and signed by the engineers.

SECTION 26-6.604 SEWAGE SYSTEM

All connections to local collector and regional systems must be designed in accordance with state and local wastewater treatment standards. A licensed professional engineer must design the site collection system and obtain the approval of same from the Town Engineer and all applicable state and local authorities prior to Site Plan approval.

SECTION 26-6.605 UTILITIES

All utility systems, including electric, telephone, television cable, etc., must be placed underground. The design of these systems must be coordinated by the applicant with the private utility entity responsible for their maintenance. Concurrence of the design indicated on the Site Plan must be obtained by the applicant prior to final approval.

SECTION 26-6.606 TRAFFIC CIRCULATION

The proposed Development shall not negatively impact the traffic conditions of the surrounding roadway system and shall organize vehicular and pedestrian ingress and egress in a well-defined system in order to avoid conflicts

SECTION 26-6.607 FACILITIES FOR PERSONS WITH DISABILITIES

The proposed Development shall provide adequate facilities for the physically handicapped such as ramps, depressed curbs and reserved parking spaces in accordance with the Americans with Disabilities Act.

SECTION 26-6.608 PRESERVATION OF NATURAL FEATURES

The proposed Development shall preserve the natural features of the site, such as wetlands, unique wildlife

habitats, historic Structures, major trees and scenic views both from and into the site.

SECTION 26-6.609 AREAS OF SPECIAL FLOOD HAZARD

A. General

1. Definitions.

Unless specifically defined below, words or phrases used in this Section 26-6.608 shall be interpreted so as to give them the meaning they have in common usage and to give this division its most reasonable application.

A zone means portions of the SFHA in which the principal source of flooding is runoff from rainfall, snowmelt, or a combination of both. In A zones, floodwaters may move slowly or rapidly, but waves are usually not a significant threat to buildings. These areas are labeled as Zone A, Zone AE, Zones A1-A30, Zone AO, Zone AH, Zone AR and Zone A99 on a FIRM. The definitions are presented below:

Zone A: Areas subject to inundation by the one-percent annual chance flood event. Because detailed hydraulic analyses have not been performed, no base flood elevation or depths are shown.

Zone AE and A1-A30: Areas subject to inundation by the one-percent annual chance flood event determined by detailed methods. Base flood elevations are shown within these zones. (Zone AE is on new and revised maps in place of Zones A1-A30.)

Zone AO: Areas subject to inundation by one-percent annual chance shallow flooding (usually sheet flow on sloping terrain) where average

depths are between one and three feet. Average flood depths derived from detailed hydraulic analyses are shown within this zone.

Zone AH: Areas subject to inundation by one-percent annual chance shallow flooding (usually areas of ponding) where average depths are between one and three feet. Average flood depths derived from detailed hydraulic analyses are shown within this zone.

Zone AR: Areas that result from the decertification of a previously accredited flood protection system that is determined to be in the process of being restored to provide base flood protection.

Zone A99: Areas subject to inundation by the one-percent annual chance flood event, but which will ultimately be protected upon completion of an under-construction federal flood protection system. These are areas of special flood hazard where enough progress has been made on the construction of a protection system, such as dikes, dams, and levees, to consider it complete for insurance rating purposes. Zone A99 may only be used when the flood protection system has reached specified statutory progress toward completion. No base flood elevations or depths are shown.

Accessory structure (appurtenant structure) means a structure with a floor area 400 square feet or less that is located on the same parcel of property as the principal structure and the use of which is incidental to the use of the principal structure. Accessory structures should constitute a minimal initial investment, may not be used for human habitation, and be designed to have minimal flood damage potential. Examples of accessory structures are detached garages, carports, storage sheds, pole barns, and hay sheds.

DIVISION 6: SUPPLEMENTAL STANDARDS

Addition (to an existing structure) means any walled and roofed expansion to the perimeter of a structure in which the addition is connected by a common load-bearing wall other than a firewall. Any walled and roofed addition, which is connected by a firewall or is separated by independent perimeter load-bearing walls, is new construction.

Appeal means a request for a review of the floodplain administrator's interpretation of any provision of this division.

Area of shallow flooding means a designated AO or AH Zone on the community's flood insurance rate map (FIRM) with base flood depths from one to three feet where a clearly defined channel does not exist, where the path of flooding is unpredictable and indeterminate, and where velocity flow may be evident. Such flooding is characterized by ponding or sheet flow.

Base flood means the flood having a one-percent chance of being equaled or exceeded in any given year.

Base flood elevation (BFE) means the elevation of the one-percent annual chance flood.

Basement means that portion of a structure having its floor sub-grade (below ground level) on all sides.

Boundary river means the part of the Ohio River that forms the boundary between Kentucky and Indiana.

Boundary river floodway means the floodway of a boundary river.

Building. See "Structure."

Community means a political entity that has the authority to adopt and enforce floodplain ordinances for the area under its jurisdiction.

Community rating system (CRS) means a program developed by the Federal Insurance Administration to provide incentives for those communities in the regular program that have gone beyond the minimum floodplain management requirements to develop extra measures to provide protection from flooding.

Critical facility means a facility for which even a slight chance of flooding might be too great. Critical facilities include, but are not limited to, schools, nursing homes, hospitals, police, fire, and emergency response installations, installations which produce, use or store hazardous materials or hazardous waste.

D Zone means unstudied areas where flood hazards are undetermined, but flooding is possible. Flood insurance is available in participating communities but is not required by regulation in this zone.

Development means any man-made change to improved or unimproved real estate including but not limited to:

- a. Construction, reconstruction, or placement of a structure or any addition to a structure;
- b. Installing a manufactured home on a site, preparing a site for a manufactured home or

installing a recreational vehicle on a site for more than 180 days;

- c. Installing utilities, erection of walls and fences, construction of roads, or similar projects;
- d. Construction of flood control structures such as levees, dikes, dams, channel improvements, etc.;
- e. Mining, dredging, filling, grading, excavation, or drilling operations;
- f. Construction and/or reconstruction of bridges or culverts;
- g. Storage of materials; or
- h. Any other activity that might change the direction, height, or velocity of flood or surface waters.

“Development” does not include activities such as the maintenance of existing structures and facilities such as painting, re-roofing; resurfacing roads; or gardening, plowing, and similar agricultural practices that do not involve filling, grading, excavation, or the construction of permanent structures.

Elevated structure means a non-basement structure built to have the lowest floor elevated above the ground level by means of fill, solid foundation perimeter walls, filled stem wall foundations (also called chain walls), pilings, or columns (posts and piers).

Elevation certificate is a certified statement that verifies a structure’s elevation information.

Emergency program means the first phase under which a community participates in the NFIP. It is intended to provide a first layer amount of insurance at subsidized rates on all insurable

structures in that community before the effective date of the initial FIRM.

Existing manufactured home park or subdivision means a manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including, at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed before the effective date of the community’s first floodplain ordinance.

Expansion to an existing manufactured home park or subdivision means the preparation of additional sites by the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads).

FEMA means the Federal Emergency Management Agency.

Flood means a general and temporary condition of partial or complete inundation of normally dry land areas from the overflow, the unusual and rapid accumulation, or the runoff of surface waters from any source.

Flood boundary and floodway map (FBFM) means an official map on which the Federal Emergency Management Agency (FEMA) or Federal Insurance Administration (FIA) has delineated the areas of flood hazards and regulatory floodway.

Flood insurance rate map (FIRM) means an official map of a community, on which FEMA has delineated both the areas of special flood hazard

DIVISION 6: SUPPLEMENTAL STANDARDS

and the risk premium zones applicable to the community.

Flood insurance study (FIS) is the official hydraulic and hydrological report provided by FEMA. The report contains flood profiles, as well as the FIRM, FBFM (where applicable), and the water surface elevation of the base flood.

Flood prone area means any land area acknowledged by a community as being susceptible to inundation by water from any source. (See "Flood")

Flood protection grade (FPG) is the elevation of the regulatory flood plus two feet at any given location in the SFHA. (see "Freeboard")

Floodplain means the channel proper and the areas adjoining any wetland, lake, or watercourse which have been or hereafter may be covered by the regulatory flood. The floodplain includes both the floodway and the fringe districts.

Floodplain management means the operation of an overall program of corrective and preventive measures for reducing flood damage and preserving and enhancing, where possible, natural resources in the floodplain, including but not limited to emergency preparedness plans, flood control works, floodplain management regulations, and open space plans.

Floodplain management regulations means this division and other zoning ordinances, subdivision regulations, building codes, health regulations, special purpose ordinances, and other applications of police power which control development in flood prone areas. This term describes federal, state, or local regulations in any combination thereof, which provide standards for

preventing and reducing flood loss and damage. Floodplain management regulations are also referred to as floodplain regulations, floodplain ordinance, flood damage prevention ordinance, and floodplain management requirements.

Floodproofing (dry floodproofing) is a method of protecting a structure that ensures that the structure, together with attendant utilities and sanitary facilities, is watertight to the floodproofed design elevation with walls that are substantially impermeable to the passage of water. All structural components of these walls are capable of resisting hydrostatic and hydrodynamic flood forces, including the effects of buoyancy, and anticipated debris impact forces.

Floodproofing certificate is a form used to certify compliance for non-residential structures as an alternative to elevating structures to or above the FPG. This certification must be by a registered professional engineer or architect.

Floodway is the channel of a river or stream and those portions of the floodplains adjoining the channel which are reasonably required to efficiently carry and discharge the peak flood flow of the regulatory flood of any river or stream.

Freeboard means a factor of safety, usually expressed in feet above the BFE, which is applied for the purposes of floodplain management. It is used to compensate for the many unknown factors that could contribute to flood heights greater than those calculated for the base flood.

Fringe is those portions of the floodplain lying outside the floodway.

Hardship (as related to variances of this division) means the exceptional hardship that would result from a failure to grant the requested variance. The Town of Munster Board of Zoning Appeals requires that the variance is exceptional, unusual, and peculiar to the property involved. Mere economic or financial hardship alone is NOT exceptional. Inconvenience, aesthetic considerations, physical handicaps, personal preferences, or the disapproval of one's neighbors likewise cannot, as a rule, qualify as an exceptional hardship. All of these problems can be resolved through other means without granting a variance, even if the alternative is more expensive, or requires the property owner to build elsewhere or put the parcel to a different use than originally intended.

Highest adjacent grade means the highest natural elevation of the ground surface, prior to the start of construction, next to the proposed walls of a structure.

Historic structures means any structures individually listed on the National Register of Historic Places or the Indiana State Register of Historic Sites and Structures.

Increased cost of compliance (ICC) means the cost to repair a substantially damaged structure that exceeds the minimal repair cost and that is required to bring a substantially damaged structure into compliance with the local flood damage prevention ordinance. Acceptable mitigation measures are elevation, relocation, demolition, or any combination thereof. All renewal and new business flood insurance policies with effective dates on or after June 1, 1997, will include ICC coverage.

Letter of final determination (LFD) means a letter issued by FEMA during the mapping update

process which establishes final elevations and provides the new flood map and flood study to the community. The LFD initiates the six-month adoption period. The community must adopt or amend its floodplain management regulations during this six-month period unless the community has previously incorporated an automatic adoption clause.

Letter of map change (LOMC) is a general term used to refer to the several types of revisions and amendments to FEMA maps that can be accomplished by letter. They include letter of map amendment (LOMA), letter of map revision (LOMR), and letter of map revision based on fill (LOMR-F). The definitions are presented below:

Letter of map amendment (LOMA) means an amendment by letter to the currently effective FEMA map that establishes that a property is not located in a SFHA through the submittal of property specific elevation data. A LOMA is only issued by FEMA.

Letter of map revision (LOMR) means an official revision to the currently effective FEMA map. It is issued by FEMA and changes flood zones, delineations, and elevations.

Letter of map revision based on fill (LOMR-F) means an official revision by letter to an effective NFIP map. A LOMR-F provides FEMA's determination concerning whether a structure or parcel has been elevated on fill above the BFE and excluded from the SFHA.

Lowest adjacent grade means the lowest elevation, after completion of construction, of the ground, sidewalk, patio, deck support, or basement entryway immediately next to the structure.

DIVISION 6: SUPPLEMENTAL STANDARDS

Lowest floor means the lowest elevation described among the following:

- a. The top of the lowest level of the structure.
- b. The top of the basement floor.
- c. The top of the garage floor, if the garage is the lowest level of the structure.
- d. The top of the first floor of a structure elevated on pilings or pillars.
- e. The top of the floor level of any enclosure, other than a basement, below an elevated structure where the walls of the enclosure provide any resistance to the flow of floodwaters unless:
 - i. The walls are designed to automatically equalize the hydrostatic flood forces on the walls by allowing for the entry and exit of floodwaters by providing a minimum of two openings (in addition to doorways and windows) in a minimum of two exterior walls; if a structure has more than one enclosed area, each shall have openings on exterior walls;
 - ii. The total net area of all openings shall be at least one square inch for every one square foot of enclosed area; the bottom of all such openings shall be no higher than one foot above the exterior grade or the interior grade immediately beneath each opening, whichever is higher; and
 - iii. Such enclosed space shall be usable solely for the parking of vehicles and building access.

Manufactured home means a structure, transportable in one or more sections, which is built on a permanent chassis and is designed

for use with or without a permanent foundation when attached to the required utilities. The term "manufactured home" does not include a "recreational vehicle."

Manufactured home park or subdivision means a parcel (or contiguous parcels) of land divided into two or more manufactured home lots for rent or sale.

Market value means the building value, excluding the land (as agreed to between a willing buyer and seller), as established by what the local real estate market will bear. Market value can be established by independent certified appraisal, replacement cost depreciated by age of building (actual cash value), or adjusted assessed values.

Mitigation means sustained actions taken to reduce or eliminate long-term risk to people and property from hazards and their effects. The purpose of mitigation is twofold: to protect people and structures, and to minimize the cost of disaster response and recovery.

National Flood Insurance Program (NFIP) is the federal program that makes flood insurance available to owners of property in participating communities nationwide through the cooperative efforts of the federal government and the private insurance industry.

National Geodetic Vertical Datum (NGVD) of 1929 as corrected in 1929 is a vertical control used as a reference for establishing varying elevations within the floodplain.

New construction means any structure for which the "start of construction" commenced after the effective date of the community's first floodplain ordinance.

New manufactured home park or subdivision means a manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of the community's first floodplain ordinance.

Non-boundary river floodway means the floodway of any river or stream other than a boundary river.

North American Vertical Datum of 1988 (NAVD 88) as adopted in 1993 is a vertical control datum used as a reference for establishing varying elevations within the floodplain.

Obstruction includes, but is not limited to, any dam, wall, wharf, embankment, levee, dike, pile, abutment, protection, excavation, canalization, bridge, conduit, culvert, building, wire, fence, rock, gravel, refuse, fill, structure, vegetation, or other material in, along, across or projecting into any watercourse which may alter, impede, retard or change the direction and/or velocity of the flow of water; or due to its location, its propensity to snare or collect debris carried by the flow of water, or its likelihood of being carried downstream.

One-percent annual chance flood is the flood that has a one-percent chance of being equaled or exceeded in any given year. Any flood zone that begins with the letter A is subject to the one-percent annual chance flood. See "Regulatory flood."

Physical map revision (PMR) is an official republication of a community's FEMA map

to effect changes to base (one-percent annual chance) flood elevations, floodplain boundary delineations, regulatory floodways, and planimetric features. These changes typically occur as a result of structural works or improvements, annexations resulting in additional flood hazard areas, or correction to base flood elevations or SFHAs.

Public safety and nuisance means anything which is injurious to the safety or health of an entire community, neighborhood or any considerable number of persons, or unlawfully obstructs the free passage or use, in the customary manner, of any navigable lake, or river, bay, stream, canal, or basin.

Recreational vehicle means a vehicle which is (1) built on a single chassis; (2) 400 square feet or less when measured at the largest horizontal projections; (3) designed to be self-propelled or permanently towable by a light duty truck; and (4) designed primarily not for use as a permanent dwelling, but as quarters for recreational camping, travel, or seasonal use.

Regular program means the phase of the community's participation in the NFIP where more comprehensive floodplain management requirements are imposed and higher amounts of insurance are available based upon risk zones and elevations determined in a FIS.

Regulatory flood means the flood having a one-percent chance of being equaled or exceeded in any given year, as calculated by a method and procedure that is acceptable to and approved by the Indiana Department of Natural Resources and the Federal Emergency Management Agency. The regulatory flood elevation at any location is as defined in section 26-812 of this division. The "regulatory flood" is also known by the term "base

DIVISION 6: SUPPLEMENTAL STANDARDS

flood," "one-percent annual chance flood," and "100-year flood."

Repetitive loss means flood-related damages sustained by a structure on two separate occasions during a ten-year period for which the cost of repairs at the time of each such flood event, on the average, equaled or exceeded 25 percent of the market value of the structure before the damage occurred.

Section 1316 is that section of the National Flood Insurance Act of 1968, as amended, which states that no new flood insurance coverage shall be provided for any property that the administrator finds has been declared by a duly constituted state or local zoning authority or other authorized public body to be in violation of state or local laws, regulations, or ordinances that intended to discourage or otherwise restrict land development or occupancy in floodprone areas.

Special flood hazard area (SFHA) means those lands within the jurisdiction of the town subject to inundation by the regulatory flood. The SFHAs of the Town of Munster are generally identified as such on the Lake County, Indiana and Incorporated Areas Flood Insurance Rate Map dated January 18, 2012 as well as any future updates, amendments, or revisions, prepared by the Federal Emergency Management Agency with the most recent date. (These areas are shown on a FIRM as Zone A, AE, A1-A30, AH, AR, A99, or AO).

Start of construction includes substantial improvement, and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, or improvement was within 180 days of the permit date. The actual start means either the first

placement of permanent construction of a structure on a site, such as the pouring of a slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, foundations, or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of a building, whether or not that alteration affects the external dimensions of the building.

Structure means a structure that is principally above ground and is enclosed by walls and a roof. The term includes a gas or liquid storage tank, a manufactured home, or a prefabricated building. The term also includes recreational vehicles to be installed on a site for more than 180 days.

Substantial damage means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damaged condition would equal or exceed 50 percent of the market value of the structure before the damage occurred.

Substantial improvement means any reconstruction, rehabilitation, addition, or other improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure before the "start of construction" of the improvement. This term includes structures that have incurred "repetitive

loss" or "substantial damage" regardless of the actual repair work performed. The term does not include improvements of structures to correct existing violations of state or local health, sanitary, or safety code requirements or any alteration of a "historic structure," provided that the alteration will not preclude the structures continued designation as a "historic structure."

Suspension means the removal of a participating community from the NFIP because the community has not enacted and/or enforced the proper floodplain management regulations required for participation in the NFIP.

Variance is a grant of relief from the requirements of this division, which permits construction in a manner otherwise prohibited by this division where specific enforcement would result in unnecessary hardship.

Violation means the failure of a structure or other development to be fully compliant with this division. A structure or other development without the elevation, other certification, or other evidence of compliance required in this division is presumed to be in violation until such time as that documentation is provided.

Watercourse means a lake, river, creek, stream, wash, channel or other topographic feature on or over which waters flow at least periodically. Watercourse includes specifically designated areas in which substantial flood damage may occur.

X zone means the area where the flood hazard is less than that in the SFHA. Shaded X zones shown on recent FIRMs (B zones on older FIRMs) designate areas subject to inundation by the flood with a 0.2 percent chance of being

equaled or exceeded (the 500-year flood) and areas protected by levees from the one-percent annual chance flood. Unshaded X zones (C zones on older FIRMs) designate areas where the annual exceedance probability of flooding is less than 0.2 percent.

Zone means a geographical area shown on a FIRM that reflects the severity or type of flooding in the area.

Zone A (see definition for A zone).

Zone B, C, and X means areas identified in the community as areas of moderate or minimal hazard from the principal source of flood in the area. However, buildings in these zones could be flooded by severe, concentrated rainfall coupled with inadequate local drainage systems. Flood insurance is available in participating communities but is not required by regulation in these zones. (Zone X is used on new and revised maps in place of Zones B and C.)

2. Statutory Authorization.

The Indiana Legislature has in IC 36-7-4 granted the power to local government units to control land use within their jurisdictions. Therefore, the Town Council of the Town of Munster does hereby adopt the following floodplain management regulations.

3. Findings of Fact

- a. The flood hazard areas of the Town of Munster are subject to periodic inundation which results in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the

DIVISION 6: SUPPLEMENTAL STANDARDS

tax base, all of which adversely affect the public health, safety, and general welfare.

- b. These flood losses are caused by the cumulative effect of obstructions in floodplains causing increases in flood heights and velocities, and by the occupancy in flood hazard areas by uses vulnerable to floods or hazardous to other lands which are inadequately elevated, inadequately floodproofed, or otherwise unprotected from flood damages.

4. Statement of Purpose.

It is the purpose of this division to promote the public health, safety, and general welfare and to minimize public and private losses due to flood conditions in specific areas by provisions designed to:

- a. Restrict or prohibit uses which are dangerous to health, safety, and property due to water or erosion hazards, which result in damaging increases in erosion or in flood heights or velocities.
- b. Require that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction.
- c. Control the alteration of natural floodplains, stream channels, and natural protective barriers which are involved in the accommodation of floodwaters.
- d. Control filling, grading, dredging, and other development which may increase erosion or flood damage.
- e. Prevent or regulate the construction of flood barriers which will unnaturally divert

floodwaters or which may increase flood hazards to other lands.

- f. Make federal flood insurance available for structures and their contents in the town by fulfilling the requirements of the National Flood Insurance Program.

5. Objectives.

The objectives of this Section 26-609 are:

- a. To protect human life and health.
- b. To minimize expenditure of public money for costly flood control projects.
- c. To minimize the need for rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public.
- d. To minimize prolonged business interruptions.
- e. To minimize damage to public facilities and utilities such as water and gas mains, electric, telephone, and sewer lines, streets, and bridges located in floodplains.
- f. To help maintain a stable tax base by providing for the sound use and development of floodprone areas in such a manner as to minimize flood blight areas.

6. Lands to Which Section Applicable

This Section shall apply to all SFHAs and known floodprone areas within the jurisdiction of the Town.

7. Basis for Establishing Regulatory Flood Data.

This Section's protection standard is the regulatory flood. The best available regulatory flood data is listed below.

- a. The regulatory flood elevation, floodway, and fringe limits for the studied SFHAs within the jurisdiction of the Town of Munster shall be as delineated on the one-percent annual chance flood profiles in the flood insurance study of Lake County, Indiana and Incorporated Areas dated January 18, 2012, and the corresponding flood insurance rate map dated January 18, 2012, as well as any future updates, amendments, or revisions, prepared by the Federal Emergency Management Agency with the most recent date.
- b. The regulatory flood elevation, floodway, and fringe limits for each of the SFHAs within the jurisdiction of the Town of Munster, delineated as an "A Zone" on the Lake County, Indiana and Incorporated Areas Flood Insurance Rate Map dated January 18, 2012 as well as any future updates, amendments, or revisions, prepared by the Federal Emergency Management Agency with the most recent date, shall be according to the best data available as provided by the Indiana Department of Natural Resources; provided the upstream drainage area from the subject site is greater than one square mile. Whenever a party disagrees with the best available data, the party needs to replace existing data with better data that meets current engineering standards. To be considered, this data must be submitted to the Indiana Department of Natural Resources for review and subsequently approved.
- c. In the absence of a published FEMA map, or absence of identification on a FEMA map, the regulatory flood elevation, floodway, and fringe limits of any watercourse in the community's known floodprone areas shall be according to the best data available as provided by the Indiana Department of

Natural Resources; provided the upstream drainage area from the subject site is greater than one square mile.

- d. Upon issuance of a letter of final determination (LFD), any more restrictive data in the new (not yet effective) mapping/study shall be utilized for permitting and construction (development) purposes, replacing all previously effective less restrictive flood hazard data provided by FEMA.

8. Establishment of Floodplain Development Permit

A floodplain development permit shall be required in conformance with the provisions of this division prior to the commencement of any development activities in areas of special flood hazard.

9. Compliance.

No structure shall hereafter be located, extended, converted or structurally altered within the SFHA without full compliance with the terms of this division and other applicable regulations. No land or stream within the SFHA shall hereafter be altered without full compliance with the terms of this Section and other applicable regulations.

10. Abrogation & Greater Restrictions

This Section is not intended to repeal, abrogate, or impair any existing easements, covenants, or deed restrictions. However, where this division and another conflict or overlap, whichever imposes the more stringent restrictions shall prevail.

11. Discrepancy Between Mapped Floodplain & Actual Ground Elevations

DIVISION 6: SUPPLEMENTAL STANDARDS

- a. In cases where there is a discrepancy between the mapped floodplain (SFHA) on the FIRM and the actual ground elevations, the elevation provided on the profiles included in the effective FIS shall govern.
- b. If the elevation of the site in question is below the base flood elevation, that site shall be included in the SFHA and regulated accordingly.
- c. If the elevation (natural grade) of the site in question is above the base flood elevation and not located within the floodway, that site shall be considered outside the SFHA and the floodplain regulations will not be applied. The property owner shall be advised to apply for a LOMA.

12. Interpretation

In the interpretation and application of this Section all provisions shall be:

- a. Considered as minimum requirements.
- b. Liberally construed in favor of the governing body.
- c. Deemed neither to limit nor repeal any other powers granted under state statutes.

13. Warning & Disclaimer of Liability

The degree of flood protection required by this Section is considered reasonable for regulatory purposes and is based on available information derived from engineering and scientific methods of study. Larger floods can and will occur on rare occasions. Therefore, this Section does not create any liability on the part of the Town of Munster, the Indiana Department of Natural Resources, or the State of Indiana, for any flood damage that results from reliance on this division or any administrative decision made lawfully thereunder.

14. Penalties for Violation

Failure to obtain a floodplain development permit in the SFHA or failure to comply with the requirements of a floodplain development permit or conditions of a variance shall be deemed to be a violation of this Section. All violations shall be considered a common nuisance and be treated as such in accordance with the provisions of the zoning code for the Town of Munster. All violations shall be punishable by a fine not exceeding \$250.00.

- a. A separate offense shall be deemed to occur for each day the violation continues to exist.
- b. The Town of Munster Town Council shall inform the owner that any such violation is considered a willful act to increase flood damages and therefore may cause coverage by a standard flood insurance policy to be suspended.
- c. Nothing herein shall prevent the town from taking such other lawful action to prevent or remedy any violations. All costs connected therewith shall accrue to the person or persons responsible.

B. Administration

1. Designation of Administrator

The Town of Munster Town Council hereby appoints the chief building inspector to administer and implement the provisions of this Section and is herein referred to as the floodplain administrator.

2. Permit Procedures

Application for a floodplain development permit shall be made to the floodplain administrator on forms furnished by him or her prior to any development activities, and may include, but not be limited to, the following: plans in

duplicate drawn to scale showing the nature, location, dimensions, and elevations of the area in question; existing or proposed structures, earthen fill, storage of materials or equipment, drainage facilities, and the location of the foregoing. Specifically the following information is required:

- a. Application stage.
 - i. A description of the proposed development.
 - ii. Location of the proposed development sufficient to accurately locate property and structure(s) in relation to existing roads and streams.
 - iii. A legal description of the property site.
 - iv. A site development plan showing existing and proposed development locations and existing and proposed land grades.
 - v. Elevation of the top of the planned lowest floor (including basement) of all proposed buildings. Elevation should be in NAVD 88 or NGVD.
 - vi. Elevation (in NAVD 88 or NGVD) to which any non-residential structure will be floodproofed.
 - vii. Description of the extent to which any watercourse will be altered or relocated as a result of proposed development. A hydrological and hydraulic engineering study is required and any watercourse changes submitted to DNR for approval and then to FEMA as a letter of map revision. (See section 26-823(6) for additional information.)

- b. Construction stage. Upon establishment of the lowest floor of an elevated structure or structure constructed on fill, it shall be the duty of the applicant to submit to the floodplain administrator a certification of the NAVD 88 or NGVD elevation of the lowest floor, as built. Said certification shall be prepared by or under the direct supervision of a registered land surveyor or professional engineer and certified by the same. The floodplain administrator shall review the lowest floor elevation survey data submitted. The applicant shall correct deficiencies detected by such review before any further work is allowed to proceed. Failure to submit the survey or failure to make said corrections required hereby shall be cause to issue a stop-work order for the project. Any work undertaken prior to submission of the elevation certification shall be at the applicant's risk.

Upon establishment of the floodproofed elevation of a floodproofed structure, it shall be the duty of the applicant to submit to the floodplain administrator a floodproofing certificate. Certification shall be prepared by or under the direct supervision of a registered professional engineer and certified by same. (The floodplain administrator shall review the floodproofing certification submitted.) The applicant shall correct any deficiencies detected by such review before any further work is allowed to proceed. Failure to submit the floodproofing certification or failure to make correction required shall be cause to issue a stop work order for the project.

- c. Finished construction. Upon completion of construction, an elevation certification (FEMA Elevation Certificate Form 81-31 or any future updates) which depicts the "as-built" lowest floor elevation is required to be

DIVISION 6: SUPPLEMENTAL STANDARDS

submitted to the floodplain administrator. If the project includes a floodproofing measure, floodproofing certification (FEMA Floodproofing Certificate Form 81-65 or any future updates) is required to be submitted by the applicant to the floodplain administrator.

3. Duties & Responsibilities of the Floodplain Administrator

The floodplain administrator and/or designated staff is hereby authorized and directed to enforce the provisions of this Section. The administrator is further authorized to render interpretations of this Section, which are consistent with its spirit and purpose.

Duties and responsibilities of the floodplain administrator shall include, but are not limited to:

- a. Review all floodplain development permits to assure that the permit requirements of this division have been satisfied.
- b. Inspect and inventory damaged structures in the SFHA and complete substantial damage determinations.
- c. Ensure that construction authorization has been granted by the Indiana Department of Natural Resources for all development projects subject to section 26-6.609.C.5 and section 26-6.609.C.7(a)(1) of this Section, and maintain a record of such authorization (either copy of actual permit/authorization or floodplain analysis/regulatory assessment).
- d. Ensure that all necessary federal or state permits have been received prior to issuance of the local floodplain development permit. Copies of such permits/authorizations are to be maintained on file with the floodplain development permit.
- e. Maintain and track permit records involving additions and improvements to residences located in the floodway.
- f. Notify adjacent communities and the state floodplain coordinator prior to any alteration or relocation of a watercourse, and submit copies of such notifications to FEMA.
- g. Maintain for public inspection and furnish upon request local permit documents, damaged structure inventories, substantial damage determinations, regulatory flood data, SFHA maps, letters of map change (LOMC), copies of DNR permits, letters of authorization, and floodplain analysis and regulatory assessments (letters of recommendation), federal permit documents, and "as-built" elevation and floodproofing data for all buildings constructed subject to this division.
- h. Utilize and enforce all letters of map change (LOMC) or physical map revisions (PMR) issued by FEMA for the currently effective SFHA maps of the community.
- i. Assure that maintenance is provided within the altered or relocated portion of said watercourse so that the flood-carrying capacity is not diminished.
- j. Review certified plans and specifications for compliance.
- k. Verify and record the actual elevation of the lowest floor (including basement) of all new or substantially improved structures, in accordance with section 26-6.609.B.2.
- l. Verify and record the actual elevation to which any new or substantially improved

structures have been floodproofed in accordance with section 26-6.609.B.2.

- m. Perform a minimum of three inspections to ensure that all applicable ordinance and floodplain development requirements have been satisfied. The first upon the establishment of the flood protection grade reference mark at the development site; the second upon the establishment of the structure's footprint/establishment of the lowest floor; and the final inspection upon completion and submission of the required finished construction elevation certificate. Authorized town officials shall have the right to enter and inspect properties located in the SFHA.
- n. Stop work orders.
 - i. Upon notice from the floodplain administrator, work on any building, structure or premises that is being done contrary to the provisions of this Section shall immediately cease.
 - ii. Such notice shall be in writing and shall be given to the owner of the property, or to his agent, or to the person doing the work, and shall state the conditions under which work may be resumed.
- o. Revocation of permits.
 - i. The floodplain administrator may revoke a permit or approval, issued under the provisions of the ordinance, in cases where there has been any false statement or misrepresentation as to the material fact in the application or plans on which the permit or approval was based.
 - ii. The floodplain administrator may revoke a permit upon determination by

the floodplain administrator that the construction, erection, alteration, repair, moving, demolition, installation, or replacement of the structure for which the permit was issued is in violation of, or not in conformity with, the provisions of this division.

C. Flood Hazard Reduction

1. General Standards

In all SFHAs and known floodprone areas the following provisions are required:

- a. New construction and substantial improvements shall be anchored to prevent flotation, collapse or lateral movement of the structure.
- b. Manufactured homes shall be anchored to prevent flotation, collapse, or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors. This standard shall be in addition to and consistent with applicable state requirements for resisting wind forces.
- c. New construction and substantial improvements shall be constructed with materials and utility equipment resistant to flood damage below the FPG.
- d. New construction and substantial improvements shall be constructed by methods and practices that minimize flood damage.
- e. Electrical, heating, ventilation, plumbing, air conditioning equipment, utility meters, and other service facilities shall be located at/ above the FPG or designed so as to prevent water from entering or accumulating within

DIVISION 6: SUPPLEMENTAL STANDARDS

- the components below the FPG. Water and sewer pipes, electrical and telephone lines, submersible pumps, and other waterproofed service facilities may be located below the FPG.
- f. New and replacement water supply systems shall be designed to minimize or eliminate infiltration of floodwaters into the system.
 - g. New and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of floodwaters into the system.
 - h. On-site waste disposal systems shall be located and constructed to avoid impairment to them or contamination from them during flooding.
 - i. Any alteration, repair, reconstruction or improvements to a structure that is in compliance with the provisions of this division shall meet the requirements of "new construction" as contained in this division.
 - j. Whenever any portion of the SFHA is authorized for use, the volume of space which will be occupied by the authorized fill and structure below the BFE shall be compensated for by excavating a volume below the BFE which is twice the fill volume below the BFE. The compensatory excavation volume shall be at least equal to twice the volume of storage lost (replacement ratio of two to one) due to the fill and structure.
 - i. The compensatory excavation shall take place in the SFHA at a location where the BFE is within one foot of the BFE at the fill location. The compensatory excavation shall take place at a location upstream of the fill location.
 - ii. Under certain circumstances, the compensatory excavation may be allowed to take place outside of but adjacent to the SFHA provided that the excavated volume will be below the BFE, will be at a location where the BFE is within one foot of the BFE at the fill location, will allow for inundation by the regulatory floodwater, will freely drain when not inundated by floodwater, and that it be maintained into perpetuity.
 - iii. The compensatory excavation shall provide for storage of floodwater but shall be freely draining when not inundated by floodwater.
 - iv. The fill or structure shall not obstruct a drainageway leading to the SFHA.
 - v. The grading around the compensatory excavation shall allow for inundation by the regulatory floodwater.
 - vi. The fill and structure shall be certified as substantially safe from flooding per FEMA TB 10-01 and shall include provisions to protect adjacent property owners against any increased runoff or drainage resulting from its placement.
 - vii. Plans depicting the areas to be excavated and filled shall be submitted prior to the actual start of construction or any site work; once site work is complete, but before the actual start of construction, the applicant shall provide to the floodplain administrator a certified survey of the compensatory excavation and fill sites demonstrating the fill and compensatory excavation comply with this article.

2. Specific Standards

In all SFHAs, the following provisions are required:

- a. Building protection requirement.] In addition to the requirements of section 26-6.609.C.1, all structures to be located in the SFHA shall be protected from flood damage below the FPG. This building protection requirement applies to the following situations:
 - i. Construction or placement of any structure having a floor area greater than 400 square feet.
 - ii. Addition or improvement made to any existing structure where the cost of the addition or improvement equals or exceeds 50 percent of the value of the existing structure (excluding the value of the land).
 - iii. Reconstruction or repairs made to a damaged structure where the costs of restoring the structure to it's before damaged condition equals or exceeds 50 percent of the market value of the structure (excluding the value of the land) before damage occurred.
 - iv. Installing a travel trailer or recreational vehicle on a site for more than 180 days.
 - v. Installing a manufactured home on a new site or a new manufactured home on an existing site. This division does not apply to returning the existing manufactured home to the same site it lawfully occupied before it was removed to avoid flood damage.
 - vi. Reconstruction or repairs made to a repetitive loss structure.
 - vii. Addition or improvement made to any existing structure with a previous addition or improvement constructed since the community's first floodplain ordinance.
- b. Residential structures. New construction or substantial improvement of any residential structure (or manufactured home) shall have the lowest floor; including basement, at or above the FPG (two feet above the base flood elevation). Should solid foundation perimeter walls be used to elevate a structure, openings sufficient to facilitate the unimpeded movements of floodwaters shall be provided in accordance with the standards of Section 26-6.609.C.2(4).
- c. Non-residential structures. New construction or substantial improvement of any commercial, industrial, or non-residential structure (or manufactured home) shall either have the lowest floor, including basement, elevated to or above the FPG (two feet above the base flood elevation) or be floodproofed to or above the FPG. Should solid foundation perimeter walls be used to elevate a structure, openings sufficient to facilitate the unimpeded movements of floodwaters shall be provided in accordance with the standards of subsection (4). Structures located in all "A Zones" may be floodproofed in lieu of being elevated if done in accordance with the following:
 - i. A registered professional engineer or architect shall certify that the structure has been designed so that below the FPG, the structure and attendant utility facilities are watertight and capable of resisting the effects of the regulatory flood. The structure design shall take into account flood velocities, duration, rate of rise, hydrostatic pressures, and impacts from debris or ice. Such certification shall be provided to the

DIVISION 6: SUPPLEMENTAL STANDARDS

floodplain administrator as set forth in section 26-6.609.B.3(12).

- ii. Floodproofing measures shall be operable without human intervention and without an outside source of electricity.
- d. Elevated structures. New construction or substantial improvements of elevated structures shall have the lowest floor at or above the FPG.

Elevated structures with fully enclosed areas formed by foundation and other exterior walls below the flood protection grade shall be designed to preclude finished living space and designed to allow for the entry and exit of floodwaters to automatically equalize hydrostatic flood forces on exterior walls. Designs must meet the following minimum criteria:

- i. Provide a minimum of two openings located in a minimum of two exterior walls (having a total net area of not less than one square inch for every one square foot of enclosed area).
- ii. The bottom of all openings shall be no more than one foot above the exterior grade or the interior grade immediately beneath each opening, whichever is higher.
- iii. Openings may be equipped with screens, louvers, valves or other coverings or devices provided they permit the automatic flow of floodwaters in both directions.
- iv. Access to the enclosed area shall be the minimum necessary to allow for parking for vehicles (garage door) or limited storage of maintenance equipment

used in connection with the premises (standard exterior door) or entry to the living area (stairway or elevator).

- v. The interior portion of such enclosed area shall not be partitioned or finished into separate rooms.
- vi. The interior grade of such enclosed area shall be at an elevation at or higher than the exterior grade.
- vii. Openings are to be not less than three inches in any direction in the plane of the wall. This requirement applies to the hole in the wall, excluding any device that may be inserted such as typical foundation air vent device.
- viii. Property owners shall be required to execute a flood openings/venting affidavit acknowledging that all openings will be maintained as flood vents, and that the elimination or alteration of the openings in any way will violate the requirements of Section 26-6.609.C.2(4). Periodic inspections will be conducted by the floodplain administrator to ensure compliance. The affidavit shall be recorded in the office of the Lake County Recorder.
- ix. Property owners shall be required to execute and record with the structure's deed a non-conversion agreement declaring that the area below the lowest floor (where the interior height of the enclosure exceeds six feet) shall not be improved, finished or otherwise converted; the community will have the right to inspect the enclosed area. The non-conversion agreement shall be recorded in the office of the Lake County Recorder.

DIVISION 6: SUPPLEMENTAL STANDARDS

- e. Structures constructed on fill. A residential or nonresidential structure may be constructed on a permanent land fill in accordance with the following:
 - i. The fill shall be placed in layers no greater than one foot deep before compacting to 95 percent of the maximum density obtainable with either the standard or modified proctor test method. The results of the test showing compliance shall be retained in the permit file.
 - ii. The fill shall extend ten feet beyond the foundation of the structure before sloping below the BFE.
 - iii. The fill shall be protected against erosion and scour during flooding by vegetative cover, riprap, or bulkheading. If vegetative cover is used, the slopes shall be no steeper than three horizontal to one vertical.
 - iv. The fill shall not adversely affect the flow of surface drainage from or onto neighboring properties.
 - v. The top of the lowest floor including basements shall be at or above the FPG.
 - vi. Fill shall be composed of clean granular or earthen material.
- f. Standards for manufactured homes and recreational vehicles. Manufactured homes and recreational vehicles to be installed or substantially improved on a site for more than 180 days must meet one of the following requirements:
 - i. These requirements apply to all manufactured homes to be placed on a site outside a manufactured home park or subdivision; in a new manufactured home park or subdivision; in an expansion to an existing manufactured home park or subdivision; or in an existing manufactured home park or subdivision on which a manufactured home has incurred "substantial damage" as a result of a flood:
 - I. The manufactured home shall be elevated on a permanent foundation such that the lowest floor shall be at or above the FPG and securely anchored to an adequately anchored foundation system to resist flotation, collapse, and lateral movement.
 - II. Fully enclosed areas formed by foundation and other exterior walls below the FPG shall be designed to preclude finished living space and designed to allow for the entry and exit of floodwaters to automatically equalize hydrostatic flood forces on exterior walls as required for elevated structures in Section 26-6.609.C.2(4).
 - III. Flexible skirting and rigid skirting not attached to the frame or foundation of a manufactured home are not required to have openings.
 - ii. These requirements apply to all manufactured homes to be placed on a site in an existing manufactured home park or subdivision that has not been substantially damaged by a flood:
 - I. The manufactured home shall be elevated so that the lowest floor of the manufactured home chassis is supported by reinforced piers or other foundation elevations that are no less than 36 inches in height above grade and be securely anchored to an adequately anchored foundation system to resist flotation, collapse, and lateral movement.
 - II. Fully enclosed areas formed by foundation and other exterior walls

DIVISION 6: SUPPLEMENTAL STANDARDS

- below the FPG shall be designed to preclude finished living space and designed to allow for the entry and exit of floodwaters to automatically equalize hydrostatic flood forces on exterior walls as required for elevated structures in Section 26-6.609.C.2(4).
- III. Flexible skirting and rigid skirting not attached to the frame or foundation of a manufactured home are not required to have openings.
- iii. Recreational vehicles placed on a site shall either:
 - I. Be on site for less than 180 days;
 - II. Be fully licensed and ready for highway use (defined as being on its wheels or jacking system, is attached to the site only by quick disconnect type utilities and security devices, and has no permanently attached additions); or
 - III. Meet the requirements for "manufactured homes" as stated earlier in this section.
 - g. Accessory structures. Relief to the elevation or dry floodproofing standards may be granted for accessory structures. Such structures must meet the following standards:
 - i. Shall not be used for human habitation.
 - ii. Shall be constructed of flood-resistant materials.
 - iii. Shall be constructed and placed on the lot to offer the minimum resistance to the flow of floodwaters.
 - iv. Shall be firmly anchored to prevent flotation.
 - v. Service facilities such as electrical and heating equipment shall be elevated or floodproofed to or above the FPG.
 - vi. Shall be designed to allow for the entry and exit of floodwaters to automatically equalize hydrostatic flood forces on exterior walls as required for elevated structures in Section 26-6.609.C.2(4).
 - h. Above ground gas or liquid storage tanks. All above ground gas or liquid storage tanks shall be anchored to prevent flotation or lateral movement.

3. Standards for Subdivision Proposals

- a. All subdivision proposals shall be consistent with the need to minimize flood damage.
- b. All subdivision proposals shall have public utilities and facilities such as sewer, gas, electrical, and water systems located and constructed to minimize flood damage.
- c. All subdivision proposals shall have adequate drainage provided to reduce exposure to flood hazards.
- d. Base flood elevation data shall be provided for subdivision proposals and other proposed development (including manufactured home parks and subdivisions), which is greater than the lesser of 50 lots or five acres.
- e. All subdivision proposals shall minimize development in the SFHA and/or limit density of development permitted in the SFHA.
- f. All subdivision proposals shall ensure safe access into/out of SFHA for pedestrians and vehicles (especially emergency responders). Access routes shall be elevated to allow

a maximum inundation depth of one foot during the regulatory flood.

4. Critical Facility

Construction of new critical facilities shall be, to the extent possible, located outside the limits of the SFHA. Construction of new critical facilities shall be permissible within the SFHA if no feasible alternative site is available. Critical facilities constructed within the SFHA shall have the lowest floor elevated to or above the FPG at the site. Floodproofing and sealing measures must be taken to ensure that toxic substances will not be displaced by or released into floodwaters. Access routes elevated to or above the FPG shall be provided to all critical facilities to the extent possible.

5. Standards for Identified Floodways

Located within SFHAs, established in section 26-6.609..A.7 are areas designated as floodways. The floodway is an extremely hazardous area due to the velocity of floodwaters, which carry debris, potential projectiles, and has erosion potential. If the site is in an identified floodway, the floodplain administrator shall require the applicant to forward the application, along with all pertinent plans and specifications, to the Indiana Department of Natural Resources and apply for a permit for construction in a floodway. Under the provisions of IC 14-28-1 a permit for construction in a floodway from the Indiana Department of Natural Resources is required prior to the issuance of a local building permit for any excavation, deposit, construction, or obstruction activity located in the floodway. This includes land preparation activities such as filling, grading, clearing and paving etc. undertaken before the actual start of construction of the structure. However, it does exclude non-substantial additions/improvements to existing (lawful) residences in a non-boundary river

floodway. (IC 14-28-1-26 allows construction of a non-substantial addition/ improvement to a residence in a non-boundary river floodway without obtaining a permit for construction in the floodway from the Indiana Department of Natural Resources. Please note that if fill is needed to elevate an addition above the existing grade, prior approval for the fill is required from the Indiana Department of Natural Resources.)

No action shall be taken by the floodplain administrator until a permit or letter of authorization (when applicable) has been issued by the Indiana Department of Natural Resources granting approval for construction in the floodway. Once a permit for construction in a floodway or letter of authorization has been issued by the Indiana Department of Natural Resources, the floodplain administrator may issue the local floodplain development permit, provided the provisions contained in subdivision V of this division have been met. The floodplain development permit cannot be less restrictive than the permit for construction in a floodway issued by the Indiana Department of Natural Resources. However, a community's more restrictive regulations (if any) shall take precedence.

No development shall be allowed, which acting alone or in combination with existing or future development, that will adversely affect the efficiency of, or unduly restrict the capacity of the floodway. This adverse effect is defined as an increase in the elevation of the regulatory flood of at least fifteen-hundredths (0.15) of a foot as determined by comparing the regulatory flood elevation under the project condition to that under the natural or pre-floodway condition as proven with hydraulic analyses.

DIVISION 6: SUPPLEMENTAL STANDARDS

For all projects involving channel modifications or fill (including levees) the town shall submit the data and request that the Federal Emergency Management Agency revise the regulatory flood data per mapping standard regulations found at 44 CFR § 65.12.

6. Standards for Identified Fringe

If the site is located in an identified fringe, then the floodplain administrator may issue the local floodplain development permit provided the provisions contained in subdivision V of this division have been met. The key provision is that the top of the lowest floor of any new or substantially improved structure shall be at or above the FPG.

7. Standards for SFHAS Without Established BFE &/or Floodways/ Fringes

- a. Drainage area upstream of the site is greater than one square mile:
 - i. If the site is in an identified floodplain where the limits of the floodway and fringe have not yet been determined, and the drainage area upstream of the site is greater than one square mile, the floodplain administrator shall require the applicant to forward the application, along with all pertinent plans and specifications, to the Indiana Department of Natural Resources for review and comment.
 - ii. No action shall be taken by the floodplain administrator until either a permit for construction in a floodway (including letters of authorization) or a floodplain analysis/regulatory assessment citing the one-percent annual chance flood elevation and the recommended flood

protection grade has been received from the Indiana Department of Natural Resources.

- iii. Once the floodplain administrator has received the proper permit for construction in a floodway (including letters of authorization) or floodplain analysis/regulatory assessment approving the proposed development, a floodplain development permit may be issued provided the conditions of the floodplain development permit are not less restrictive than the conditions received from the Indiana Department of Natural Resources and the provisions contained in Section 26-6.609.C have been met.
- b. Drainage area upstream of the site is less than one square mile:
 - i. If the site is in an identified floodplain where the limits of the floodway and fringe have not yet been determined and the drainage area upstream of the site is less than one square mile, the floodplain administrator shall require the applicant to provide an engineering analysis showing the limits of the floodplain and one-percent annual chance flood elevation for the site.
 - ii. Upon receipt, the floodplain administrator may issue the local floodplain development permit, provided the provisions contained in subdivision V of this division have been met.
 - iii. The total cumulative effect of the proposed development, when combined with all other existing and anticipated development, shall not increase the regulatory flood more than 0.14 of

one foot and shall not increase flood damages or potential flood damages.

8. Standards for Floodprone Area

All development in known floodprone areas not identified on FEMA maps, or where no FEMA published map is available, shall meet applicable standards as required per Section 26-6.609.C.

D. Variances

1. Designation of Variance & Appeals Board

The Town of Munster Board of Zoning Appeals shall hear and decide appeals and requests for variances from requirements of this Section.

2. Duties of Variance & Appeals Board

The board shall hear and decide appeals when it is alleged an error in any requirement, decision, or determination is made by the floodplain administrator in the enforcement or administration of this Section. Any person aggrieved by the decision of the board may appeal such decision to the Lake County Circuit or Superior Court.

3. Procedures

- a. In passing upon such applications, the board shall consider all technical evaluations, all relevant factors, all standards specified in this Section 26-6.609 and:
 - i. The danger of life and property due to flooding or erosion damage.
 - ii. The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner.

- iii. The importance of the services provided by the proposed facility to the community.
- iv. The necessity of the facility to a waterfront location, where applicable.
- v. The availability of alternative locations for the proposed use which are not subject to flooding or erosion damage.
- vi. The compatibility of the proposed use with existing and anticipated development.
- vii. The relationship of the proposed use to the comprehensive plan and floodplain management program for that area.
- viii. The safety of access to the property in times of flood for ordinary and emergency vehicles.
- ix. The expected height, velocity, duration, rate of rise, and sediment of transport of the floodwaters at the site.
- x. The costs of providing governmental services during and after flood conditions, including maintenance and repair of public utilities and facilities such as sewer, gas, electrical, and water systems, and streets and bridges.

4. Conditions

- a. Variances shall only be issued when there is:
 - i. A showing of good and sufficient cause.
 - ii. A determination that failure to grant the variance would result in exceptional hardship.
 - iii. A determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud

DIVISION 6: SUPPLEMENTAL STANDARDS

or victimization of the public, or conflict with existing laws or ordinances.

- b. No variance for a residential use within a floodway subject to Section 26-6.609.C.5 and Section 26-6.609.C.7(a)(1) may be granted.
- c. Any variance granted in a floodway subject to Section 26-6.609.C.5 or Section 26-6.609.C.7(a)(1) will require a permit from the Indiana Department of Natural Resources.
- d. Variances to the provisions for flood hazard reduction of section 26-609.C.2, may be granted only when a new structure is to be located on a lot of one-half acre or less in size, contiguous to and surrounded by lots with existing structures constructed below the flood protection grade.
- e. Variances shall only be issued upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.
- f. Variances may be granted for the reconstruction or restoration of any structure individually listed on the National Register of Historic Places or the Indiana State Register of Historic Sites and Structures.
- g. Any applicant to whom a variance is granted shall be given written notice specifying the difference between the flood protection grade and the elevation to which the lowest floor is to be built and stating that the cost of the flood insurance will be commensurate with the increased risk resulting from the reduced lowest floor elevation (see section 26-6.609D.5).
- h. The floodplain administrator shall maintain the records of appeal actions and report

any variances to the Federal Emergency Management Agency or the Indiana Department of Natural Resources upon request (see section 26-6.609D.5).

5. Notification

Any applicant to whom a variance is granted that allows the lowest floor of a structure to be built below the flood protection grade shall be given written notice over the signature of a community official that:

- a. The issuance of a variance to construct a structure below the flood protection grade will result in increased premium rates for flood insurance up to amounts as high as \$25.00 for \$100.00 of insurance coverage; and
- b. Such construction below the flood protection grade increases risks to life and property. A copy of the notice shall be recorded by the floodplain administrator in the office of the county recorder and shall be recorded in a manner so that it appears in the chain of title of the affected parcel of land.

The floodplain administrator shall maintain a record of all variance actions, including justification for their issuance.

6. Historic Structure

Variances may be issued for the repair or rehabilitation of "historic structures" upon a determination that the proposed repair or rehabilitation will not preclude the structure's continued designation as an "historic structure" and the variance is the minimum to preserve the historic character and design of the structure.

7. Special Conditions

Upon the consideration of the factors listed in this Section 26-6.609.D, and the purposes of this division, the Town of Munster Board of Zoning Appeals may attach such conditions to the granting of variances as it deems necessary to further the purposes of this Section.

SECTION 26-6.610 GENERAL SUPPLEMENTAL REGULATIONS

A. Building Permit, Site Plan Review, Public Hearing Required for Municipal Buildings

1. The Town or any of its agencies, departments or other subdivisions proposing to construct a Building or other Structure shall apply for a Building Permit as required for private buildings or structures by this Article.
2. All building applications filed by the Town or any of its agencies, departments or other subdivisions shall be set for a Site Plan review and public comment at a public meeting of the Town Council.

B. Parking of Commercial Vehicles in Residential Districts

It shall be unlawful to park a Commercial Vehicle in a Residential District within residential property, in a driveway, yard or parkway or on the street, except as follows:

1. Commercial Vehicles may be parked in a Residential District when necessary to the performance of commercial, professional or business services for a resident of the District. During the course of such performance, a Commercial Vehicle may be parked on the residential property where the services are being performed, or in the immediate vicinity of that property.

2. A Commercial Vehicle may be parked or stored within a Garage.
3. A Commercial Vehicle may be parked temporarily in a Residential District for incidental purposes not directly related to the business activity of the vehicle. Such temporary parking shall not exceed two hours per day.

C. Garage Sales, Yard Sales, & Similar Sales

1. Duration and frequency; prohibited sales.

A resident or permitted institution in a Residential District shall be allowed to hold no more than two sales of used or unwanted personal property on the premises for no more than three consecutive days, per each time, in a calendar year. Any garage sale, yard sale or other such sale or public marketing on the premises in excess of this limitation or any sale of property which was purchased or acquired for resale is prohibited.

2. Permit.

Prior to the sale, the resident or sponsoring group shall be required to apply for a permit for such sale on forms provided at the office of the building inspector. No fee shall be imposed for the issuance of such permit. The permit shall be displayed at the sale site.

3. Signs.

Restrictions on signage for sales are defined in Division 7 as it pertains to Temporary Signs.

D. Open Lot Sales of Seasonal Items

Open lot selling of seasonal items only be permitted in the CD-4 and CD-5 Districts.

DIVISION 6: SUPPLEMENTAL STANDARDS

E. Amusement Devices

1. The number of amusement devices, as defined in section 10-71, permitted in any business establishment shall be limited to five unless a Conditional Use permit for an Amusement Center with amusement devices as a Principal Use or Accessory Use has been granted by the Town Council after consideration of the Conditional Use request by the board of zoning appeals.
2. In its review and consideration of any application for a Conditional Use permit for Amusement Devices, the Board of Zoning Appeals, in addition to the conditions for approval generally contained in this Article, shall determine whether the proposed use detracts from or interferes with the normal and customary operation of the Principal Use.

F. Demolition of Structures

Each individual, business, or other entity, or any other applicant, upon being permitted to demolish any Structure, be it residential, business or otherwise, or obtaining any renewal thereof to provide as part of its submission a plan describing how the material will be managed, including reduction, reuse and recycling steps taken to reduce its waste stream which plan shall be subject to approval as provided under this section.

DIVISION 7: SIGN STANDARDS

SECTION 26-6.701 SIGN STANDARDS

A. Purpose; General.

1. The purpose of this Section 26-6.701 is to establish a comprehensive scheme for the regulation of Signs in the Town. More specifically, this Section is intended to accomplish the following purposes:
 - a. Encourage the effective use of Signs as a means of communication and to facilitate navigation from place to place within the Town.
 - b. Balance the need for information for motorists and pedestrians with the need for traffic safety by limiting Signs or characteristics of Signs that may be distracting to drivers.
 - c. Balance the desire and need of individuals to express themselves through Signs with the desire to maintain a pleasing, safe, and navigable environment for residents and visitors.
 - d. Provide liberally for the display of Noncommercial messages in residential areas, recognizing the unique value of residential signage as a means of exercising constitutional freedom of expression.
 - e. Protect and enhance the value of property in the Town by providing for Signage consistent with the character of the area in which it is located.
2. Signs must comply with the requirements of this Section 26-6.701.
3. Without limitation to Section 26-6.701.A.2, within each District, the allowed types and numbers of Signs shall be as provided in **Table 26-6.701A (Sign Types - Summary)**, **Table 26-6.701B (Sign Types - Specific Standards)**, and this Section 26-6.701.

Types - Specific Standards), and this Section 26-6.701.

4. Without limitation to Section 26-6.701.A.2 -3, each Sign type shall be subject to the applicable standards and requirements of **Table 26-6.701A (Sign Types - Summary)** and **Table 26-6.701B (Sign Types - Specific Standards)**.
5. Except for Exempt Signs, no Sign shall be erected on a Lot, installed or placed on a Building, or otherwise exist on a Lot or Building unless a Sign Permit has been issued for such Sign in accordance with Section 26-6.804.D and such Sign Permit remains in full force and effect.
6. Any violation of this Section 26-6.701 shall be enforceable and able to be appealed in accordance with the enforcement and appeal provisions of this Article 26.

B. General Sign Provisions.

1. There shall be no Signs allowed other than as specified in this Section 26-6.701.
2. An Address Sign is required for each Building in compliance with **Table 26-6.701A (Sign Types - Summary)** and **Table 26-6.701B (Sign Types - Specific Standards)**.
3. In addition to all other Signs allowed in accordance with this Section 26-6.701, Temporary Signs are allowed without a Sign Permit, subject to the following:
 - a. such Signs shall not be illuminated and shall not be located within the public right-of-way;
 - b. there shall be no more than one Temporary Sign per site, unless otherwise allowed within this section;
 - c. except for banners allowed pursuant to Section 26-6.701.B.3.f below, such Signs shall be ground installed only; provided that

If ground installation is not possible, this requirement may be waived by the Zoning Administrator;

- d. shall not obstruct the line of sight of any operator of a vehicle;
 - e. shall be owned and maintained by the owner (or tenant) of the site on which it is located;
 - f. on any Lot used as a Single-Family, Two-Family, or owner-occupied Multi-Family Dwelling
 - i. up to five (5) Temporary Signs may be displayed, which are installed on a pole or stake in the ground, are not more than eight (8) square feet in area per side, and the top of which is no more than five (5) feet from the ground and
 - ii. up to two (2) Temporary Signs may be displayed no less than 15 feet apart, which are installed on wooden posts a minimum of 4 inches by 4 inches in the ground or as a banner affixed to the Building on the Lot, are not more than 32 square feet in area per side, and except for a banner affixed to a Building, the top of which is no more than five (5) feet from ground;
 - g. such Signs must be made of waterproof materials and kept in good repair; and
 - h. such Signs must be set back at least five (5) feet from the property line.
4. If there are more than two violations of the provisions of the regulations governing these sign types in any one calendar year by an owner or tenant or with respect to a Lot or parcel of land, no Temporary Sign may be placed or displayed by such owner or tenant or on such Lot or land or 12 months from the date of the most recent violation.
5. Without limitation to any applicable specific Sign standards, all Signs other than Exempt Signs shall

comply with the following additional standards:

- a. Such Signs shall be fabricated and installed by qualified Sign painters and mechanics, and shall be kept in good repair.
- b. Signs shall be constructed of durable, low maintenance, and weather-resistant materials of the same or higher quality materials as the materials of the Principal Building with which they are associated. Without limiting the foregoing, the materials used for each Sign Type shall comply with **Table 26-6.701B (Sign Types - Specific Standards)**.
- c. The following materials are prohibited for Sign backgrounds, frames, supports, and ornamentation:
 - i. Exposed metal poles and
 - ii. Smooth or split-faced concrete blocks.
- d. Any such Signs may, but are not required to be, lighted unless otherwise specifically stated for the particular Sign type in **Table 26-6.701B (Sign Types - Specific Standards)**; and if lighted, shall not be internally illuminated or back-lighted except as otherwise specifically provided for the particular Sign type in **Table 26-6.701B (Sign Types - Specific Standards)**.
- e. Except for the light fixture itself, all electrical elements such as wires, conduits, junction boxes, transformers, ballasts, switches and panel boxes shall be concealed from public view.
- f. Signs shall be mounted in such a way that their removal does not damage and/or alter the original surface of the Building. If the original surface of a Building is damaged during removal of a Sign, the damage must be repaired and the original surface

DIVISION 7: SIGN STANDARDS

condition restored concurrently.

- g. In addition to Sign types allowed pursuant to **Table 26-6.701A (Sign Types - Summary)**, **Table 26-6.701B (Sign Types - Specific Standards)**:

- i. with the exception of Signs attached to one or more poles, Signs that are original to the Building or have been placed on the Building for at least fifty (50) years may remain or be reproduced. Any such Signs shall be kept in good repair, both in terms of appearance and operation; and
 - ii. one (1) Sign no larger than four (4) square feet may be attached or affixed to each gasoline pump on a site, provided that the total square footage of all such Signs on a site shall reduce the square footage of the Monument Sign otherwise allowed on the site.
- h. Design drawings of any proposed Sign must be submitted to the Zoning Administrator for review of compliance with this Section prior to fabrication and installation. Such drawings shall include Sign location and size and shall indicate materials, color(s), hanging or mounting device, illumination scheme, and example of lettering.
- i. Signs not owned or leased by the operator of a business on a site are prohibited.
- j. All Signs must comply with all applicable provisions of the Town Building Code.
- k. Except as expressly allowed under this Article, Signs are not permitted in public Rights-of-Way.
- l. Portable Signs other than Sidewalk Signs are not permitted.
- m. Except for Signs allowed pursuant to paragraph 26-6.701.B.4.g above, Commercial Signs and supports for Commercial Signs erected by entities that are no longer operating on the premises shall be removed by the owner, agent, or Person having beneficial use of the Sign or the property upon which the Sign is located within 30 days of written notice from the Zoning Administrator.
- n. Signs in upper floor windows are not permitted, except for Window Signs for an occupant that is separate from the occupant of the ground floor.
- o. A non-internally illuminated Sign up to six (6) square feet in size for the occupant shall be permitted at a publicly accessed rear entrance door if such Sign is mounted flush against the Building, is a Blade Sign, or is an Awning Sign.
- p. All Signs erected, altered, or maintained in the Town shall conform to Town and state electrical codes.
- q. No Sign may be illuminated with or include animated, moving, intermittent, or flashing lights, or other active lighting, except for time and temperature devices and barber poles.
- r. No Sign may have any moving component or element, except for time and temperature devices and barber poles.
- s. No Sign may have changeable copy except for a Marquee Sign with physically changeable letters or an Outdoor Display Case with removable printed items or a Sandwich Board Sign.
- t. Neon cabinet Signs, canister Signs and projection Signs are not permitted.
- u. No Sign may by design or arrangement imitate the size, color, lettering, illumination, word, phrase, or symbol of a Sign used as

traffic safety control Sign.

- v. Where a Lot adjoins another Lot, no freestanding Sign shall be permitted within a triangle formed by the Side Lot Line, the Front Lot Line and a line beginning on the Side Lot Line at the required front Setback distance and extended at 45 degrees to the Front Lot Line for an existing Building. The established front Setback may be substituted for the required front Setback.
- w. No Sign may be within or overhang a public right-of-way other than a Wall Sign that does not overhang such right-of-way more than seven (7) inches, a Blade Sign, a Vertical Projecting Sign, a Marquee Sign, or an Awning Sign.
- x. No Sign may obstruct a traffic-control device, traffic Sign, or street name Sign, block the vision of drivers at any Driveway, street intersection or crosswalk, or be unsafe or constitute a hazard of any type.
- y. No Sign or Sign support may be affixed to a tree, rock, utility pole or other improper Sign support, or contain any attachment, other Sign, symbol, flag, pennant or other attention-getting device (other than the Sign itself).
- z. No may have illumination that intermittently flashes off and on, in whole or in part, except public signs as defined in Section 26-1013 and those that give safety warnings or public service information, i.e., time, date or weather information.
- aa. No Sign may rotate or move, or give the visual impression of rotation or movement, including signs containing running lights to give the illusion of movement, signs that have moving parts, except for time and temperature devices and barber poles and

signs that give the appearance of movement caused by the wind, including pennants, banners, streamers, strings of light bulbs, spinners, or other similar devices, except for Temporary Signs, as provided in Section 26-6.701.B.3. This includes pennants, banners, streamers, and all other signs which undulate, swing, rotate, oscillate, or otherwise move by natural or artificial means.

- bb. No Sign may be attached to or painted upon a bench or seat which is located outside a building or structure.
- cc. No Sign may be attached to or mounted on a pole, other than a Yard Sign.
- dd. No Sign may be erected, constructed or maintained in whole or in part upon or over the roof of a Building or Structure.
- ee. No Sign or part thereof may be electrically or mechanically activated, including electronic signs, signs that have or are comprised of lighting that flashes, scrolls, twirls, changes color, fades in or out, has transitional elements between copy changes, or in any manner moves or imitates movement at any time.
- ff. No Sign or part thereof may be composed of or include flashing, neon, LED rope, portable or fixed spotlight, or similar lighting, whether used as a part of a sign, displayed in windows, or distributed around a Building or Structure.

C. Signs Not Requiring a Sign Permit.

The following Signs do not require a Sign Permit:

1. One Address Sign per tenant or owner per public entrance.
2. On-premises Signs not exceeding four (4) square feet in area, which are located along the route to a place or location within such premises

DIVISION 7: SIGN STANDARDS

and are provided solely to protect the safety of pedestrians, drivers, and passengers, including Signs to mark hazards on private property, direct traffic, or provide street numbers associated with private property.

3. Signs placed by the Town or any other governmental unit with jurisdiction over the area where the Sign is placed.
4. Signs carved into stone, concrete or similar material or made of bronze, aluminum, or other permanent construction and made an integral part of the Structure, provided that such Signs meet the following requirements:
 - a. Letters shall be less than nineteen (19) inches in height carved into or securely attached in such a manner that they are an architectural detail of a Building.
 - b. Such Signs shall not be illuminated apart from the Building.
 - c. Such Signs shall not be made in whole or in part of reflective material.
 - d. Such Signs must be the same color as the Building.
 - e. Such Signs do not exceed one (1) inch in thickness.
5. One Sign in the rear of the Building if there is a secondary entrance there.

D. Sign Area Computation.

1. The area of Sign as regulated herein shall be the computed area of the background upon which lettering, insignia or other devices are placed. Where said display area is the face of a Building, the area of such Sign shall be the product of the total width and the total height of the smallest rectangle that encompasses all such lettering, devices or insignia.

2. For Signs having two sides, the maximum display area shall be permitted on both sides and the total area of one side shall be deemed to be the total Sign area. The supporting Structures shall not be included in the area computation unless utilized as part of the total display area.

E. Responsibility for Signs.

1. All Signs located in the Town shall be erected, altered and maintained by the owner of such Sign who shall assume full responsibility for any consequences or damage caused by the Sign.
2. Signs and supports must be removed or corrected within 30 days after the Zoning Administrator or designee sends written notice that an unsafe or improperly maintained Sign condition exists.

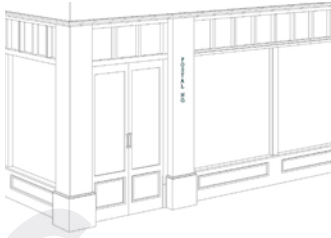

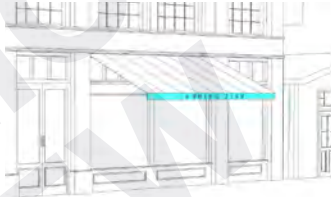

F. Non-Conforming Signs.

Non-conforming Signs are regulated pursuant to paragraph 26-6.701.D.

G. Compliance with First Amendment.

This Division must be interpreted in a manner consistent with the First Amendment guarantee of free speech. If any provision of this Division is found by a court of competent jurisdiction to be invalid, such finding shall not affect the validity of other provisions of this Division that can be given effect without the invalid provision.

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

SECTION 26-6.801 ADMINISTRATION

A. Authorization of Planning Director / Zoning Administrator.

1. Planning Director Authorization

The Planning Director is designated as the Zoning Administrator under this Article. The Planning Director is authorized and directed to take all actions and discharge all duties and responsibilities as directed by the Plan Commission or Town Council and take all other actions as Planning Director or Zoning Administrator specified in this Article.

2. Zoning Administrator Authorization

It shall be the duty of the Zoning Administrator, and the Zoning Administrator is hereby authorized and directed to:

- a. administer this Article,
- b. administer the requirements of the Plan Commission and the Town Council authorized by this Article,
- c. administer the provisions of any certified Building and Lot Plan or Development Parcel Plan, and any approved Conditional Use or approved Site Plan, except where administration is otherwise expressly provided in this Article to be the responsibility of other Town personnel,
- d. review and certify whether plans and applications submitted pursuant to this Article are complete and in compliance with all standards and requirements hereof,
- e. keep a record of all applications and requests under this Article, and a record of permits and actions taken or issued with respect

thereto with a notation of any conditions required in connection therewith,

- f. file and keep copies of all plans submitted, which files shall form a part of the records of the Decision-Making Authorities,
- g. take all other actions specified in this Article, and
- h. together with Decision-Making Authorities and other Town code enforcement personnel as provided herein, enforce this Article and the provisions of any Development approval, permit, or plan certified, approved, or issued under this Article.

B. Referral to Board of Zoning Appeals for Interpretation.

If the Zoning Administrator is in doubt as to the meaning or intent of any provision of this Article, or as to the location of any District boundary line on the Zoning Map, or if the Building Inspector is in doubt as to the propriety of issuing a Building Permit or a Certificate of Occupancy in a particular case related to the provisions of this Article, such person shall refer the matter to the Board of Zoning Appeals for interpretation and decision.

C. Adoption of Procedural Rules.

The Zoning Administrator may adopt rules of procedure, consistent with this Article, to assure efficient and uniform administration of its provisions.

SECTION 26-6.802 COMPLIANCE REQUIRED.

A. Conditions of Compliance

No board, agency, officer or employee of the Town may issue, grant or approve any application, Plan, permit, license, registration, certificate or other authorization under this Article unless all applicable requirements of this Article have been complied

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

with and unless the construction, reconstruction, Alteration, modification, enlargement, or moving of any Development, Improvement, or Building or Structure, or for any Use of any land, or Building or Structure, would be in full compliance with the provisions of this Article.

B. Certification of Compliance

No Building Permit or Certificate of Occupancy shall be issued unless the Zoning Administrator has certified to the Building Inspector that the subject Development, Improvement, or Building or Structure, and the proposed Use of the land and Building or Structure, are in compliance with this Article.

C. Effect of Action Taken in Violation of Article

Any application, plan, approval, permit, license, registration, certificate or other authorization issued, granted or approved in violation of the provisions of this Article shall be null and void and of no effect, without the necessity of any proceedings or revocation or nullification thereof, and any work undertaken or Use established pursuant to any such approval, permit, license, registration, certificate or authorization shall be unlawful, and no action shall be taken by any board, agency, officer or employee of the Town purporting to validate any such violation.

D. Certificate, Permit, or Approval Mistakenly Issued or Granted

If any certificate, permit, or approval is mistakenly issued or made under this Article, such approval, permit, or certificate shall be invalid.

SECTION 26-6.803 DECISION-MAKING AUTHORITIES

A. General

Authority under this Article shall be vested in and delegated to the officials and Decision-Making Authorities designated in this Article, the Town Code, and state law. This authority shall be deemed supplemental to any other authority lawfully conferred upon the officials and Decision-Making Authorities.

The officials and Decision-Making Authorities shall have all implied authority necessary to carry out the duties and responsibilities expressly provided in this Article to the extent the implied authority is not in conflict with the express authority.

The various submissions under this Chapter and the applicable Decision-Making Authorities for such submissions are summarized in **Table 26-6.803 Submissions & Decision-Making Authorities**.

B. Town Council

1. General.

The Town Council is authorized to perform all duties and functions assigned to town councils under state law, this Article, and any other applicable Article of the Town Code. Without limitation to the foregoing, the Town Council is authorized to consider and take action on Use Variances, Conditional Uses, amendments to this Article and the Zoning Map pursuant to Sections 26-6.803.B.2, 26-6.803.B.3, and 26-6.803.B.4, and planned unit development Development Plans.

2. Use Variances.

- a. The Town Council is authorized to hear, consider and approve, approve with conditions, or disapprove Use Variances. In taking action on any Use Variance, the Town Council shall be guided by and give consideration to the following:
 - i. Whether the approval will not be injurious to the public health, safety, morals, and general welfare of the community;
 - ii. Whether the use and value of the area Adjacent to the property included in the Variance will not be affected in a substantially adverse manner;
 - iii. Whether the need for the Variance arises from some condition peculiar to the property involved;
 - iv. Whether the strict application of the terms of the zoning ordinance will constitute

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

an unnecessary hardship if applied to the property for which the Variance is sought; and

- v. Whether the approval does not interfere substantially with the Comprehensive Plan.
- b. In applying the standards of this Section 26-6.801.B.2, the Town Council shall consider all evidence and testimony introduced before it during public hearing, and the Board may take into consideration facts, circumstances and conditions existing within the community which are of common knowledge and of which the members of the Town Council have knowledge, provided that such facts, conditions or circumstances are made a matter of record in the proceedings of the Town Council.
- c. No relief may be granted or action taken under the terms of this Section 26-6.801.B.2 unless such relief can be granted without substantial detriment to the public good and will not substantially impair the intent and purpose of the Comprehensive Plan and this Article.
- d. Notwithstanding anything to the contrary contained or implied in this Article, no Variance shall be granted under this Section 26-6.801.B.2 that would allow a Building, Structure, or Use in a District or Civic Zone in which such Building or Structure or Use would not otherwise be permitted.
- e. If the Town Council denies any request for a Variance as provided for by this Article, then no further request seeking the same or similar relief shall be filed or considered by the Town Council for a period of two (2) years from the date of its previous action; provided, however, that the Town Council may, by unanimous consent of all of the

members of the Town Council and upon notice to all persons whose interests may be affected thereby, upon receipt of evidence of a substantial change of conditions or circumstances warranting such action, reconsider any action at any time previously taken by it, the provisions of this Section 26-6.801.B.2..e notwithstanding.

3. Amendment of Article and Zoning Map.

- a. The Town Council is authorized and may from time to time, on its own motion or upon petition, amend, change or modify by Ordinance this Article and boundaries of Districts and Civic Zones established by this Article as shown on the Zoning Map.
- b. The authority of the Town Council under this Section 26-6.801.B.3.a includes without limitation the authority to hear, consider, and approve or deny applications for Special Districts, including Planned Unit Developments.
- c. No amendment of this Article or change to the Zoning Map shall become effective unless the Ordinance proposing such amendment or change shall first have been submitted to the Plan Commission, which after public notice and hearing, shall recommend to the Town Council its approval or disapproval of the proposed amendment.
- d. If any area is hereafter transferred to another district by a change in the district boundaries by amendment as provided by this Article, the provisions of this article with regard to existing Buildings, Structures, or premises or Buildings, Structures, or premises for which permits have been issued at the time of passage of the Ordinance from which this Article is derived, shall also apply to Buildings, Structures, or premises existing or Buildings,

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

Structures, or premises for which permits have been issued in such transferred area at the time of passage of such amendment.

4. Conditional Uses.

The Town Council is authorized to hear, consider and approve, approve with conditions, or disapprove Conditional Uses in accordance with Section 26-6.405.L.4.

C. Plan Commission

1. Establishment.

A Town Plan Commission is established in accordance with applicable state law, including without limitation, appeals from decisions of hearing officers, Plan Commission staff, and Plan Commission committees to which review of Development Plans has been delegated pursuant to this Article.

2. Authorization.

The Plan Commission is authorized to, and shall perform, all duties and functions assigned to planning commissions under state law, this Article, and any other applicable Article of the Town Code.

3. Establishment of Rules.

The Plan Commission may establish general and special rules for the consideration of matters brought before it. Such rules shall be consistent with law and the purposes and objectives of this Article.

4. Record of Proceedings and Actions.

The Secretary of the Plan Commission shall keep minutes of the proceedings showing the vote upon every question. The Secretary shall also keep records of examinations and official actions, all of which shall be filed in the Community Development office and shall be a public record.

D. Board of Zoning Appeals

1. Established; Membership; Removal of Members.

A Board of Zoning Appeals of five members appointed in accordance with the provisions of Indiana Code Section 36-7-4-901 is hereby created. All members of the Board are removable for cause.

2. Meetings; Records.

Meetings of the Board of Zoning Appeals shall be held at the call of the chair and at such other times as the board may determine. All meetings of the Board shall be open to the public. The Board shall keep minutes of its proceedings, showing the vote of each member upon each member upon each question, or, if absent or failing to vote, indicating such fact, and shall keep records of its examinations and other official actions, all of which shall be immediately filed in the office of the Board and shall be a public record.

3. Rules.

- a. The Board of Zoning Appeals shall adopt rules, which may not conflict with this article, concerning:
 - i. The filing of appeals;
 - ii. The application for Variances and Conditional Uses;
 - iii. The giving of notice;
 - iv. The conduct of hearings; and
 - v. The determination of whether a Variance application is for a Variance of Use or for a Variance from the development standards (such as height, bulk or area).

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

- b. Rules adopted by the Board of Zoning Appeals shall be printed and be made available to all applicants and other interested persons.

4. Town Council Review of Petitions for Conditional Uses and Use Variances.

- a. Notwithstanding any other provisions of this Article, the Board of Zoning Appeals shall submit any of the following petitions to the Town Council for approval or disapproval:
 - i. Conditional Uses; and
 - ii. Use Variances.
- b. The Board of Zoning Appeals shall file a petition under this Section 26-6.803.D.4 with the clerk of the Town Council, together with:
 - i. A favorable recommendation;
 - ii. An unfavorable recommendation; or
 - iii. No recommendation.
- c. The Town Council shall give notice under IC 5-14-1.5-5 of its intention to consider the petition at its first regular meeting after the Board of Zoning Appeals files its recommendation.
- d. The Town Council shall vote on the petition within 90 days after the Board of Zoning Appeals makes its recommendation. If the Town Council does not vote to deny the petition within 90 days, the petition is considered approved.
- e. If the Town Council approves a petition, it must make the determination in writing as required by law or as required by this Article.

5. Appeals & Related Matters.

- a. Generally. The Board of Zoning Appeals shall hear and determine appeals from and review:
 - i. Any order, requirement, decision or determination made by an administrative official, hearing officer or staff member under this Article, except as otherwise specifically set forth in this Article.
 - ii. Any order, requirement, decision or determination made by an administrative board or other body, except as the same may be made by the Plan Commission in relation to the enforcement of this Article and except as otherwise specifically set forth in this Article.
- b. Grounds; transmission of record; disposition.
 - i. An appeal filed with the Board of Zoning Appeals must specify the grounds of the appeal and must be filed within such time and in such form as may be prescribed by the Board of Zoning Appeals by rule.
 - ii. The administrative official, hearing officer, administrative board or other body from which the appeal is taken shall, on the request of the Board of Zoning Appeals, transmit to it all documents, plans and papers constituting the record of the action from which an appeal was taken.
 - iii. Certified copies of the documents, plans and papers constituting the record may be transmitted for purposes of Section 26-6.801.D.5.b.2.
 - iv. Upon appeal, the Board may reverse, affirm or modify the order, requirement, decision or determination appealed from. For this purpose, the Board has all

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

- the powers of the official, officer, Board or body from which the appeal is taken.
- v. The Board shall make a decision on any matter that it is required to hear under law, either:
 - I. At the meeting at which that matter is first presented; or
 - II. At the conclusion of the hearing on that matter, if it is continued.
 - vi. Within five days after making any decision, the Board of Zoning Appeals shall file in the office of the Board a copy of its decision.
- c. Notice of hearing; conduct of hearing.
- i. The board of zoning appeals shall fix a reasonable time for the hearing of administrative appeals, Conditional Uses and Variances.
 - ii. Public notice in accordance with IC 5-3-1-2 and IC 5-3-1-4 and due notice to interested parties shall be given at least ten days before the date set for the hearing. Additionally, an applicant before the Board of Zoning Appeals shall cause a notice of public hearing concerning any appeal or Variance proceeding to be prominently posted on the affected property for at least ten days prior to the hearing utilizing a form of notice and sign provided to the applicant by the Town.
 - iii. The party taking the appeal, or applying for Conditional Uses or Variance, may be required to assume the cost of public notice and due notice to interested parties. At the hearing, each party may appear in person, by agent or by attorney.
 - iv. The Board shall, by rule, determine who are interested parties, how notice is to be given to them, and who is required to give that notice.
 - v. The staff, if any, may appear before the Board at the hearing and present evidence in support of or in opposition to the granting of a Variance or the determination of any other matter.
 - vi. Other persons may appear and present relevant evidence.
 - vii. A person may not communicate with any member of the Board before the hearing with intent to influence the member's action on a matter pending before the Board. Not less than five days before the hearing, however, the staff, if any, may file with the Board a written statement setting forth any facts or opinions relating to the matter.
 - viii. The Board may require any party adverse to any pending petition to enter a written appearance specifying the party's name and address. If the written appearance is entered more than four days before the hearing, the Board may also require the petitioner to furnish each adverse party with a copy of the petition and a plot plan of the property involved.
- ### 6. Powers.
- a. The Board of Zoning Appeals shall have the following powers:
 - i. Hear and decide appeals where there is an error in any order, requirement, decision or refusal made by the zoning officer in the enforcement of this Article.
 - ii. Hear and decide, in accordance with the provisions of this Article, authorizations,

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

interpretations of the Zoning Map, and decisions upon other questions upon which the Board of Zoning Appeals is authorized to pass.

- iii. Hear and make recommendations on requests for Use Variances and Conditional Uses, in accordance with the provisions of this Article;
 - iv. Hear and decide, in accordance with the provisions of this Article, requests for Variance from the strict application of the development standards of this Article where by reason of exceptional narrowness, shallowness or shape of a specific piece of property, or by reason of exceptional topographic conditions or by reason of any other extraordinary and exceptional situation or condition of such piece of property, the strict application of such development standards would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardship upon, the owners of such property, so as to relieve such difficulties or hardships; and
 - v. Exercise all other powers which are or may hereafter be authorized to be exercised by Boards of Zoning Appeals pursuant to any statutes or laws of the state, and exercise any and all powers which are authorized by other ordinances of the Town.
- b. No relief may be granted or action taken under the terms of this Section unless such relief can be granted without substantial detriment to the public good and will not substantially impair the intent and purpose of the master plan and this Article. All petitions for Variances, all applications

for Conditional Uses, and all requests for approval and authorization required by the terms of this Article shall be conducted in the same manner as and the same procedure shall be followed as provided for in the case of appeals under Section 26-6.803.D.5. In recommending, taking action on, or determining any appeal, petition for Variance, application for Conditional Uses, or request for authorization or approval as provided for in this section, the Board of Zoning Appeals shall be guided by and give consideration to the following:

- i. The specific provisions and requirements of this Article pertaining to the specific subject matter of the application, petition or appeal.
- ii. The general provisions and requirements, intent and purpose of this Article.
- iii. The provisions, requirements, intents and purposes of other ordinances of the Town which may be applicable thereto.
- iv. The effect on the public health, safety and welfare of the citizens of the Town, specifically including, but not limited to, fire and traffic safety, considering the requirements, regulations and standards of any Town, county or state health, fire, traffic or safety agency or commission.
- v. The effect upon the sound economic development of the community.
- vi. The effect upon adjoining or other property in the community, recognizing the right of adjoining or other affected property owners to the peaceful and quiet enjoyment of their property, and including the effect upon the desirability or use of adjoining or nearby residential property, and bearing in mind whether

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

or not such proposed action will be consistent with the development and growth of the Town as a restricted residential community.

- vii. The existence, nature and degree of any hazards, odor, dust, gas, noise, smoke, fumes, light, glare or vibrations which may be attendant thereto.
- viii. The existence and degree, if any, of burdens which may be imposed upon police, fire, school or other facilities of the community.

In applying the standards of this Section 26-6.803.D.6, the Board of Zoning Appeals shall consider all evidence and testimony introduced before it during public hearing, and the Board may take into consideration facts, circumstances and conditions existing within the community which are of common knowledge and of which the members of the Board have knowledge, provided that such facts, conditions or circumstances are made a matter of record in the proceedings of the Board.

- c. Notwithstanding anything to the contrary contained or implied in this Article, no Variance shall be granted under this Section 26-6.803.D.6 to allow a Building, Structure, or Use in a District or Civic Zone restricted against such Building or Structure or Use.
- d. If the Board of Zoning Appeals denies any appeal, petition, application or request as provided for by this Article, then no further appeal, application, petition or request seeking the same or similar relief shall be filed or considered by the Board for a period of two (2) years from the date of its previous action; provided, however, that

the Board may, by unanimous consent of all of the members of the Board and upon notice to all persons whose interests may be affected thereby, upon receipt of evidence of a substantial change of conditions or circumstances warranting such action, reconsider any action at any time previously taken by it, the provisions of this Section 26-6.803.D.6 notwithstanding.

- e. In exercising the powers described in this Section, the Board of Zoning Appeals may, in conformity with the provisions of this Article, recommend approval or denial, reverse or affirm, wholly or partly, or may modify the order, requirement, decision or determination appealed from and make such order, requirement, decision or determination as ought to be made, and to that end shall have all the powers of the Zoning Administrator.
- f. The concurring vote of three members of the Board of Zoning Appeals shall be necessary to reverse any order or to decide in favor of the applicant any matter upon which it is required to take action under this Article, or to effect or to recommend any Conditional Uses, Variance, or exception under this Article.

E. Development Review Committee

1. Establishment of Committee.

A Development Review Committee is hereby established, which is composed of the following members:

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

- a. Planning Director.
- b. Chief Building Inspector.
- c. Public Works Director.
- d. Parks Director.
- e. Town Engineer.
- f. Police Chief.
- g. Fire Chief.
- h. Town Manager.
- i. Two members of the Plan Commission.

Each member of the Development Review Committee may delegate a member of such member's department to act as a committee member in the place of such member.

2. Authorization.

- a. The Committee is authorized to review and provide input on any of the types of Plans and proposals specified in Section 26-6.801.E.3.
- b. The Committee is authorized in its judgment to obtain advice on any project or proposal from other Town officials, Town Staff, and technical experts and consultants, and to compensate such experts and consultants at such rates as the Committee shall determine.

3. Applicability of Development Review.

The following must undergo Development Committee Review prior to review by the final Decision-Making Authority and prior to issuance of any preliminary subdivision approval or issuance of a building permit for any Development in any zoning classification:

- a. Building and Lot Plans
- b. Development Parcel Plans
- c. Site Plans
- d. Any other plan or proposal forwarded to the Committee by the Zoning Administrator; or
- e. Any other plan or proposal with respect to which any member of the Development Review Committee recommends that the Committee review because such plan or proposal presents unusual issues.

4. Meeting Reports.

The Committee chair shall prepare and retain a report on each meeting of the Committee.

5. Procedures.

- a. The Planning Director shall serve as the Chairman of the Development Review Committee.
- b. Meetings shall be called by the Chairman as needed.
- c. Plan Commission members shall receive notification when a meeting has been called, but no more than two (2) Plan Commission members may attend a Development Review Committee meeting.
- d. When possible, review by the Development Review Committee shall be completed within fifteen (15) days of receipt by the Town of a complete application.
- e. A report of the meeting shall be produced by the Chairman and provided to the applicant within one (1) month of the Committee meeting at which the plan was considered, indicating whether the plan or proposal meet the review factors, criteria and/or standards applicable to the specific type of Plan, as

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

set forth in Section 26-6.804 below, as if such plan were being reviewed by the final Decision-Making Authority for such plan. The petitioner and the Plan Commission shall be provided with the report of the Development Review Committee meeting. In the event that a petition requires Plan Commission approval, the report shall be provided at least seven (7) days before the Plan Commission meeting at which the petition is scheduled to be heard. In the event that the report cannot be distributed at least seven (7) days prior to the Plan Commission meeting at which the petition is scheduled to be heard, the petitioner may elect to continue the petition to the next regularly scheduled Plan Commission meeting.

- f. Even in cases for which Plan Commission review is not otherwise required under this Article, after conducting its review, the Development Review Committee may require or a petitioner may request a hearing before the Plan Commission for review and approval. In such instances, the Plan Commission may approve, approve with conditions, or deny approval of a Plan.

6. Rules for Review.

The rules to be used by the Development Review Committee when reviewing a Plan are derived from the master plan, zoning ordinance, subdivision regulations, building code, and other applicable Town ordinances, the review factors, criteria and/or standards applicable to the specific type of Plan, as set forth in Section 26-6.804 below, as if such plan were being reviewed by the final Decision-Making Authority for such plan, and the review, the following:

SECTION 26-6.804 APPLICATIONS & DEVELOPMENT REVIEW PROCEDURES

A. Conditional Uses

1. Authorization.

- a. The Board of Zoning Appeals is authorized to provide notice, conduct hearings, and make recommendations to the Town Council concerning Conditional Uses applications.
- b. The Plan Commission is authorized to review and provide recommendations and advisory opinions on Conditional Uses applications.
- c. The Town Council is authorized to review and take action on Conditional Uses applications forwarded to it by the Board of Zoning Appeals pursuant to Section 26-6.803.D.4.

2. Purpose; Categories.

The formulation and enactment of a comprehensive zoning ordinance is based on the division of the entire Town into Districts and Civic Zones, in each of which are permitted specified Uses that are mutually compatible. In addition to such permitted compatible Uses, however, it is recognized that there are other Uses which it may be necessary or desirable to allow in a given District or Civic Zone but which, on account of their potential impact upon neighboring Uses, property, or public facilities, need to be carefully regulated with respect to location or operation for the protection of the community. Such Uses are classified in this Article as Conditional Uses, and fall into two categories:

- a. Uses either municipally operated or operated by publicly regulated utilities, or

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

Uses traditionally affected by public interest;
and

- b. Uses entirely private in character, which need, on account of their peculiar location, or the nature of the service they offer to the public, to be established in a District in which they cannot be reasonably allowed as a Permitted Use under this Article.

3. Uses Eligible for Consideration as Conditional Uses.

Uses indicated as a Conditional Uses ("CU") for the applicable District or Civic Zone in Table 26-6.405.L-1 (Building & Lot Principal Uses), Table 26-6.405.L-10 (Building and Lot Accessory Uses), or Table 26-6.405.L-3 (Building and Lot Temporary Uses) are eligible for consideration as Conditional Uses in accordance with this Section 26-6.804.A.

4. Application Requirements & Procedures

- a. Any Person owning or having an interest in the property for which a Conditional Use is to be proposed may file an application for a Conditional Use Permit, accompanied by a non-refundable application fee in accordance with the Town fee schedule in effect from time to time.
- b. A Conditional Use application shall be submitted to the Zoning Administrator on a form supplied by the Zoning Administrator.
- c. A Conditional Use application must show or include, as applicable, the following items, each of which shall be considered as integral to the application and any approval thereof:
 - i. A Site Plan meeting the requirements of and approved in accordance with Section 26-6.804.G hereof.

- ii. A Building and Lot Plan and any required Development Parcel Plan prepared in accordance with this Article, each accompanied by a improvement location permit issued by the Zoning Administrator, reflecting compliance of such plan or plans with all requirements of this Article.
- iii. Unless the Use is a public necessity, a written statement explaining that the proposed Conditional Use shall not substantially injure the financial value of surrounding properties and shall not hinder or discourage the appropriate Development or Use of Adjacent properties.
- v. A written explanation with supporting evidence as to how each of the general and specific conditions, requirements, and standards applicable to the Conditional Use, as set forth in Section 26-6.405.L.4 and this Section 26-6.804.A are satisfied.
- vi. With respect to any condition or requirement where there is potential for negative or adverse effects, a written proposal regarding measures to be employed to mitigate such effects.
- vii. If requested by the Board of Zoning Appeals or the Town Council, additional information shall be provided by the applicant, which may include without limitation:
 - I. Any other items deemed necessary; and
 - II. An appraisal to indicate the effect of the proposed Conditional Use on the financial value of properties within 300 feet of the subject property.

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

5. Completeness Review by Zoning Administrator

Upon receipt of a Conditional Use application, the Zoning Administrator shall determine whether the application is complete. The Zoning Administrator shall:

- a. Certify its completeness for any complete application and forward such Certificate and the complete application for further processing, review, notice, hearing, consideration, recommendation, and action as more fully described below; or
- b. return an incomplete application to the applicant, with a written explanation regarding which items are incomplete.

6. Hearing & Recommendation

Upon notice in accordance with the notice procedure of Section 26-6.804.K, published and provided to landowners surrounding the property on which the Conditional Use is proposed, the Board of Zoning Appeals shall hold a public hearing on the Conditional Use application.

Thereafter, the Conditional Use application shall be forwarded to the Town Council with a recommendation of the Board of Zoning Appeals that the application be granted, granted with conditions, a recommendation that the application be denied, or no recommendation. The Board of Zoning Appeals shall adopt written findings indicating the reasons for its recommendation.

7. Authority to Impose Conditions or Restrictions.

In addition to any specific conditions, requirements, or restrictions applicable to the Use pursuant to Section 26-6.804.A.9, the Town Council may impose such conditions,

requirements, or restrictions upon the construction, location and operation of a Conditional Use as the Town Council shall determine are necessary to secure the general objectives of this Article, to reduce injury to the value of property in the neighborhood, and to provide for safety and protection of health and the general welfare.

8. Criteria for Recommendation & Approval.

No Conditional Use shall be recommended by the Board of Zoning Appeals or approved by the Town Council unless the Conditional Use meets the conditions, requirements, and restrictions set forth in Section 26-6.405.L.

9. Additional Specific Conditions, Requirements, & Restrictions Applicable to Certain Conditional Uses.

In addition to all other conditions, requirements, and restrictions applicable thereto, the following Conditional Uses shall be subject to the specific conditions, requirements, and restrictions applicable to each of them, as follows:

- a. Motor Vehicle-Related Uses
 - i. No Motor Vehicle - Related Use shall have an opening in any wall less than 15 feet from any property or street line, and no Motor Vehicle - Related Use shall have an entrance closer than 200 feet to a public school, Library, other Place of Assembly, Place or Worship, public gathering place, Civic Space, park, playground, fire station or Restaurant, or closer than 1,200 feet to another Motor Vehicle - Related Use except at intersections.

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

- ii. No Gasoline Station shall be constructed or erected except with provisions for rendering all services on the premises, and only Parking incidental to the business shall be permitted on the premises.
 - iii. No more than two corners of an intersection shall be occupied by a Gasoline Station.
 - iv. No Gasoline Station shall be located in an area where the increased traffic attendant upon its use shall contribute to an already existing serious traffic condition.
 - v. No truck scale shall be permitted in connection with the operation of a Gasoline Station.
 - vi. No Gasoline Station shall be so located that Adjacent properties, Districts, or Civic Zones are affected by noise or by glare from lights attendant upon its operation.
 - vii. The number of Gasoline Stations shall be limited to that reasonably necessary to service the needs of the population of the Town. A concentration of Gasoline Stations in one area shall be prohibited.
 - viii. No provision for sleeping accommodations shall be permitted in connection with the operation of a Gasoline Station. No provision for the sale or dispensing of Alcoholic Beverages shall be permitted in connection with the operation of a Gasoline Station.
 - ix. Used car lots shall be permitted only when operated in connection with and incidental to the operation of a recognized or franchised new car agency conducted in or from a permanent Building located on the same Lot. Whenever a used car lot is Adjacent to a CD-3, CD-3.R1, CD-3.R2, or CD-3.R3 District, a wall or tight fence at least five feet (5') in height shall be constructed and maintained along the full length of the sides of the used car lot that face or are Adjacent to a such District, and whenever lighting is used in connection with the operation of a used car lot, it shall be designed so that no glare is visible from any such District or any Thoroughfare. The access provisions of Section 26-6.804.A.9.a.i. shall apply to used car lots.
- b. Garden Centers
 - i. A Site Plan complying with Section 26-6.804.G hereof and showing the complete layout of the property, including Building or Structures, Parking, fencing, Outdoor Display and sales areas, traffic circulation and access must be submitted, and shall be subject to recommendation by the Board of Zoning Appeals and approval by the Town Council.
 - ii. A Garden Center shall be subject to the following specific conditions and restrictions:
 - I. Circulation of traffic shall be without unreasonable hazard. Ingress and egress to and from the property should be separated.
 - II. All Parking shall be off-street, and Parking shall be paved and located so as to afford passing traffic a clear view of exiting and entering vehicles.
 - III. Truck and customer traffic shall be separated whenever possible.

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

- IV. All Outdoor Storage and outdoor display and sales areas shall be enclosed with appropriate fencing, and no merchandise of any kind shall be stored or displayed outside of such fenced areas.
 - V. Outdoor Storage and outdoor display and sales areas shall be limited to living plants and uncontained natural materials directly related to the care and maintenance of such living plants. If any other merchandise is to be offered for sale, the storage, display and/or sales of such merchandise, with the exception of seasonal Christmas tree sales, must be entirely contained within an enclosed Building.
 - VI. Loading doors, docks and other open service and/or sales areas shall be screened with man-made or permanently growing material so that they are not readily viewed from any Thoroughfare, CD-3, CD-3.R1, CD-3.R2, or CD-3.R3 District or Civic Zone.
 - VII. Setback areas shall be landscaped and, together with required fencing, shall provide a Buffer of sufficient density so that no Outdoor Storage or outdoor display or sales area shall be visible from the exterior of the site. Merchandise offered for sale, or being grown for ultimate sale, shall in no way be deemed to satisfy this landscaping requirement.
 - VIII. All Outdoor Storage and outdoor display or sales areas shall be set back a minimum of 50 feet (50') from any CD-3, CD-3.R1, CD-3.R2, or CD-3.R3 District or Civic Zone and 20 feet (20') from any Thoroughfare.
 - IX. All Garden Center sites shall be maintained in a neat and orderly manner.
- iii. Massage Studio, Adult Bookstore, Adult Entertainment, Tattoo Studio and Adult Cabaret.
 - I. Massage Studios shall be subject to the following specific conditions, restrictions, and regulations:
 - 1) The Massage Studio must comply with all state laws pertaining to its operation and the qualification and licensing of its personnel and must obtain and keep in force and effect all such licenses.
 - 2) The Massage Studio must not have any negative effect on surrounding property values, and must not have the potential for an increase in criminal activity in the vicinity.
 - 3) The Massage Studio must make adequate provisions to ensure that the public health, safety and welfare will not be negatively affected by it.
 - II. Adult Bookstores. Adult Bookstores shall be subject to the following specific conditions, restrictions, and regulations:
 - 1) Adequate safeguards must be in effect to ensure that minors are not unduly exposed to the operation of the Adult Bookstore.
 - 2) The Adult Bookstore must not have any negative effect on surrounding property values, and must not have the potential for an increase in criminal activity in the vicinity.
 - III. Tattoo Studios shall be subject to the following specific conditions, restrictions, and regulations:
 - 1) The Tattoo Studio must comply with all state laws pertaining to its operation and

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

the qualification, training, and licensing of its personnel and must obtain and keep in force and effect all such licenses.

- 2) The Tattoo Studio must not have any negative effect on surrounding property values, and must not have the potential for an increase in criminal activity in the vicinity.
 - 3) Adequate safeguards must be in effect to ensure that minors and other individuals are not injured from the operation of the Tattoo Studio.
 - 4) The Tattoo Studio must make adequate provisions to ensure that the public health, safety and welfare will not be negatively affected by it.
- IV. Adult Cabarets. Adult Cabarets shall be subject to the following specific conditions, restrictions, and regulations:
- 1) Adequate safeguards must be in effect to ensure that minors are not unduly exposed to the operation of the Adult Cabaret.
 - 2) The Adult Cabaret must not have any negative effect on surrounding property values, and must not have the potential for an increase in criminal activity in the vicinity.

10. Action & Decision

The Decision-Making Authority shall not approve a proposed Conditional Use unless the Decision-Making Authority determines that the proposed Conditional Use meets all conditions, requirements, and restrictions of this Section 26-6.804.A.

11. Issuance of Conditional Use Permit.

Upon approval of an application for Conditional Use, the Zoning Administrator shall issue a Conditional Use Permit to the applicant.

12. Condition to Issuance of Building Permit.

No authorization for a Building Permit and no Building Permit shall be issued with respect to any Building or Lot for which approval of a Conditional Use is necessary unless the applicable Decision-Maker has approved the Conditional Use.

13. Certificate of Occupancy Required.

Property subject to a Conditional Use Permit may not be used or occupied until a Certificate of Occupancy has been issued for said use.

14. Conforming Use.

A Special Use for which a Building Permit is authorized pursuant to the provisions of this Article shall be construed to be a conforming Use.

15. Violation.

Any violation of the conditions, requirements, or restrictions applicable to an approved Conditional Use shall be deemed a violation of this Article, punishable under the provisions of Section 26-6.804.M, and no Certificate of Occupancy shall be issued until such violations are corrected.

16. Lapse Upon Change of Use.

An approved Conditional Use and any related Certificate of Occupancy shall lapse automatically without the need for any action by the Town if the Use of the subject property is changed, regardless of whether such different use is deemed to be a higher or lower Use, or when any violation under the provisions of Section 26-6-804.M occurs.

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

17. Effective Time.

A Conditional Use Permit shall become effective at the time the application is approved by the Decision-Making Authority and shall be valid regardless of change of ownership, provided all conditions, requirements, and restrictions of the Conditional Use are met by subsequent owners or users.

18. Expiration of Conditional Uses / Conditional Use Permit.

- a. If a complete Building Permit application related to an approved Conditional Use application is not submitted within ninety (90) days of the Decision-Making Authority's approval, the Building Permit authorization and such Conditional Use approval shall expire. Extensions of such ninety (90) day period may be granted by resolution of the applicable Decision-Making Authority for 90-day periods, but not exceeding three (3) such extensions.
- b. If more than one (1) year elapses after the Decision-Making Authority's approval of a Conditional Use Permit without commencement of construction, the Decision-Making Authority shall review such permit in relation to the standards and requirements then in effect and circumstances and conditions then existing. If the permit is still in conformance with the provisions of this Article and there has been no change in the circumstances or conditions affecting the appropriateness of the Conditional Use, the permit shall remain valid for another year. If there have been changes in either this Article or the circumstances or conditions affecting the appropriateness of the Conditional Use or

the Conditional Use Permit, the permit shall become void.

19. Investigations; Non-Compliance; Revocation

The Zoning Administrator shall make periodic investigations of property with respect to which a Conditional Use has been approved. Such approval may be revoked if conditions, requirements, or restrictions applicable to the Conditional Use or the approval are not met, provided that the following steps have been undertaken:

- a. Upon verification of non-compliance by the Zoning Administrator, a notification shall be sent to the property owner informing them of the non-compliance. The owner shall be notified by certified mail and given thirty (30) days from the mailing date to bring the property into compliance.
- b. If the property is not brought into compliance within thirty (30) days of mailing date of the notice of non-compliance, the Zoning Administrator shall send written communication to the Board of Zoning Appeals requesting that a public hearing be held to revoke the Conditional Use approval.
- c. The hearing before the Board of Zoning Appeals to consider revocation of a Conditional Use approval shall follow the procedures applicable to Board of Zoning Appeals proceedings.

B. Building Permits

1. General Procedure.

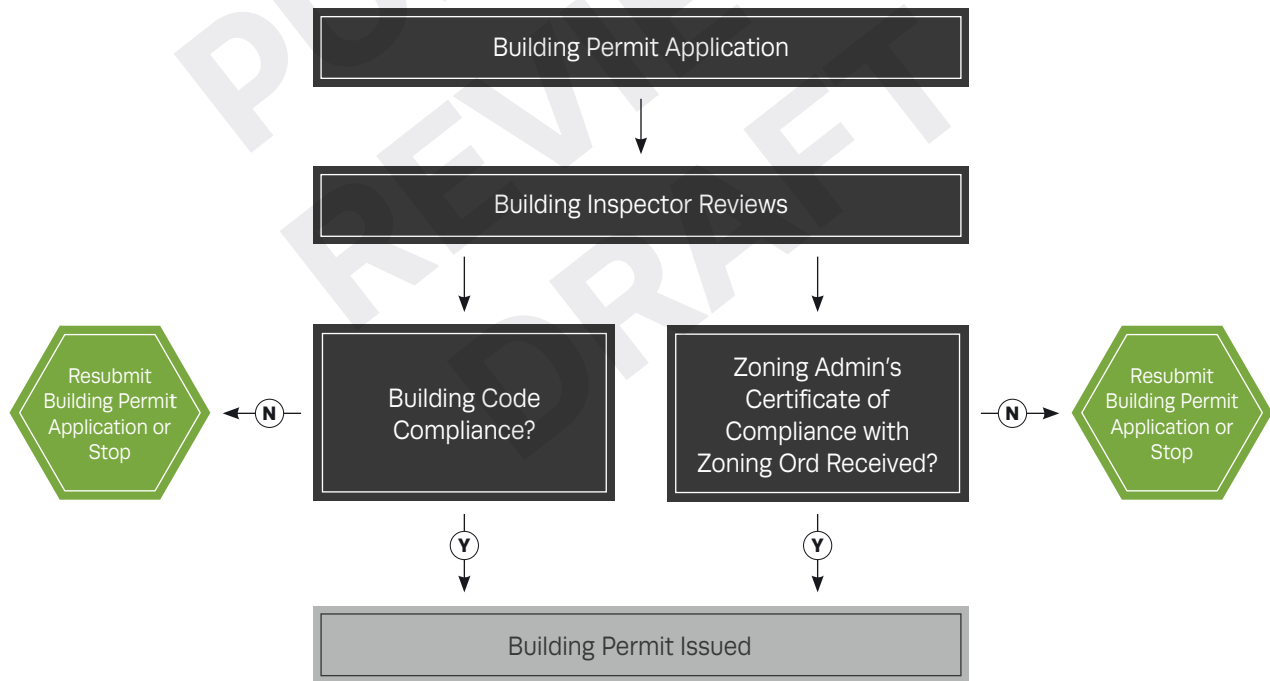

All procedure with respect to applications for and issuance of Building Permits shall be in conformity with the provisions of Ch. 26 Art. 2 (Building Code).

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

All applications for Building Permits shall be accompanied by such other information as may be necessary to determine and provide for the enforcement of this Article, including without limitation, the Zoning Administrator's issuance of an Improvement Location Permit and Certificates of Compliance, certifying compliance with all applicable provisions of this Article.

The following illustrates certain steps of the Building Permit process:

2. Conformance to Article.

No Building Permit shall be issued for the erection, construction, reconstruction, Alteration, modification, restoration, repair or moving of any Building or Structure or part thereof, unless such Building or Structure, all applicable Plans, and the intended Use are in full compliance with this Article and all required approvals under this Article.

3. Decision-Making Authority Order.

The Building Inspector shall obtain a written order of authorization from the Decision-Making Authority for any Building Permit in a case involving a Conditional Use for which such Decision-Making Authority's approval is necessary, shall obtain a written order of authorization from the Board of Zoning Appeals before issuing a Building Permit involving a Variance from the provisions of this Article, pursuant to Article VI, and shall obtain a certification from the Zoning Administrator before issuing a Building Permit involving a Waiver from the provisions this Article.

4. Compliance of Subdivided Lot.

Where a Lot is formed from part of an existing Lot, whether improved or not, the separation must be effected in such a manner that neither of the resulting Lots, nor any existing or proposed Improvements thereon, contravene the provisions or intent of this Article; and, further, no Building Permit shall be issued for construction on such Lots until they have been staked out and an adequate surveyed boundary map prepared by a licensed land surveyor is submitted with the Building Permit application.

5. Notice Regarding Footings and Foundation Wall Forms; Inspection.

After completion of footings and establishment of the forms on the first course of the foundation walls, or equivalent Building or Structure, the owner shall notify the Building Inspector. If required by the Building Inspector, the owner shall cause a survey to be made by a licensed land surveyor, showing the true location of such foundation walls with respect to the Lot Lines of the Lot, and a copy of such survey shall be filed with the Building Inspector before construction is continued.

C. Certificates of Occupancy

1. Condition to Use and Occupancy.

It shall be unlawful to occupy or use, or to permit the occupancy or use of, any Building or Structure, premises, Lot or land, or part thereof, hereafter erected or Altered, enlarged or moved, or put into use, in whole or in part, after the Effective Date of this Article, of which the use, tenancy, or ownership is changed, until a Certificate of Occupancy for said use has been obtained by the owner, as provided for under Ch. 26 Art. 2 - Building Code.

2. Conformance to Article; Improvement Location Permit / Certificate of Compliance.

No Certificate of Occupancy shall be issued for any Building or Structure, premises, Lot or land, unless the erection, construction, reconstruction, Alteration, restoration, repair or moving of such Building or Structure or part thereof and the intended use thereof specifically are in conformity in all respects with the provisions of this Article and the Zoning Administrator has issued any required Improvement Location Permit and Certificate of Compliance certifying the same.

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

3. Decision-Making Authority Order.

The Building Inspector shall obtain:

- a. a written order of authorization from the Decision-Making Authority before issuing any Certificate of Occupancy in a case involving a Conditional Use for which such Decision-Making Authority's approval is necessary,
- b. a written order of authorization from the Decision-Making Authority before issuing a Certificate of Occupancy involving a Variance from the provisions of this Article, and
- c. a certification from the Zoning Administrator before issuing a Certificate of Occupancy involving a Waiver from the provisions of this Article.

4. Town Engineer Certification.

As a condition to the issuance of any Certificate of Occupancy, the Building Inspector shall require a written certificate from the Town Engineer or Engineering Department with each Building Permit application, certifying that all curbs, gutters, sidewalks and other street improvements fronting on the Lot for which a Building Permit was obtained have been restored to the condition existing before issuance of such Building Permit.

5. Temporary Certificate of Occupancy.

Under such rules and regulations as may be established by the Building Inspector, a temporary Certificate Occupancy for part of a Building or Structure may be issued.

6. Certificate as Condition to Legality of Nonconformities.

No legal Nonconforming Use, Nonconforming Building or Structure, or Nonconforming Lot shall be changed or extended without a certification by the Zoning Administrator specifying the exact nature and extent of such nonconformity.

7. Effect of Certificate of Occupancy.

A Certificate of Occupancy shall be deemed to authorize and is required for both initial and continued occupancy and use of the Building or Structure or land to which it applies, as provided in this Section 26-6.804.C and shall continue in effect as long as such Building or Structure and the use thereof or such land is in full conformity with the provisions of this Article and any requirements made pursuant thereto.

On the serving of the notice of any violation of any of said provisions or requirements in respect to any Building or Structure or the use thereof or of land, the Certificate of Occupancy for said use shall become null and void, and a new certificate of Certificate of Occupancy for continued use shall be necessary as a condition of any further occupancy of such Building or Structure or land.

8. Maintenance of Record.

The Town Clerk-Treasurer shall maintain a record of all Certificates of Occupancy. Upon request and payment of a fee in the amount established by the Town, a copy of a Certificate of Occupancy shall be furnished to any Person having a proprietary or tenancy interest in the Building or Structure affected.

9. Certificate for Existing Building or Premises.

Upon written request from the owner and by owner's payment to the Town of the fee established by the Town, the Building Inspector shall inspect any Building or premises existing

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

at the Effective Date of this Article and shall issue a Certificate of Occupancy certifying the extent and kind of use and conformity with the provisions of this Article.

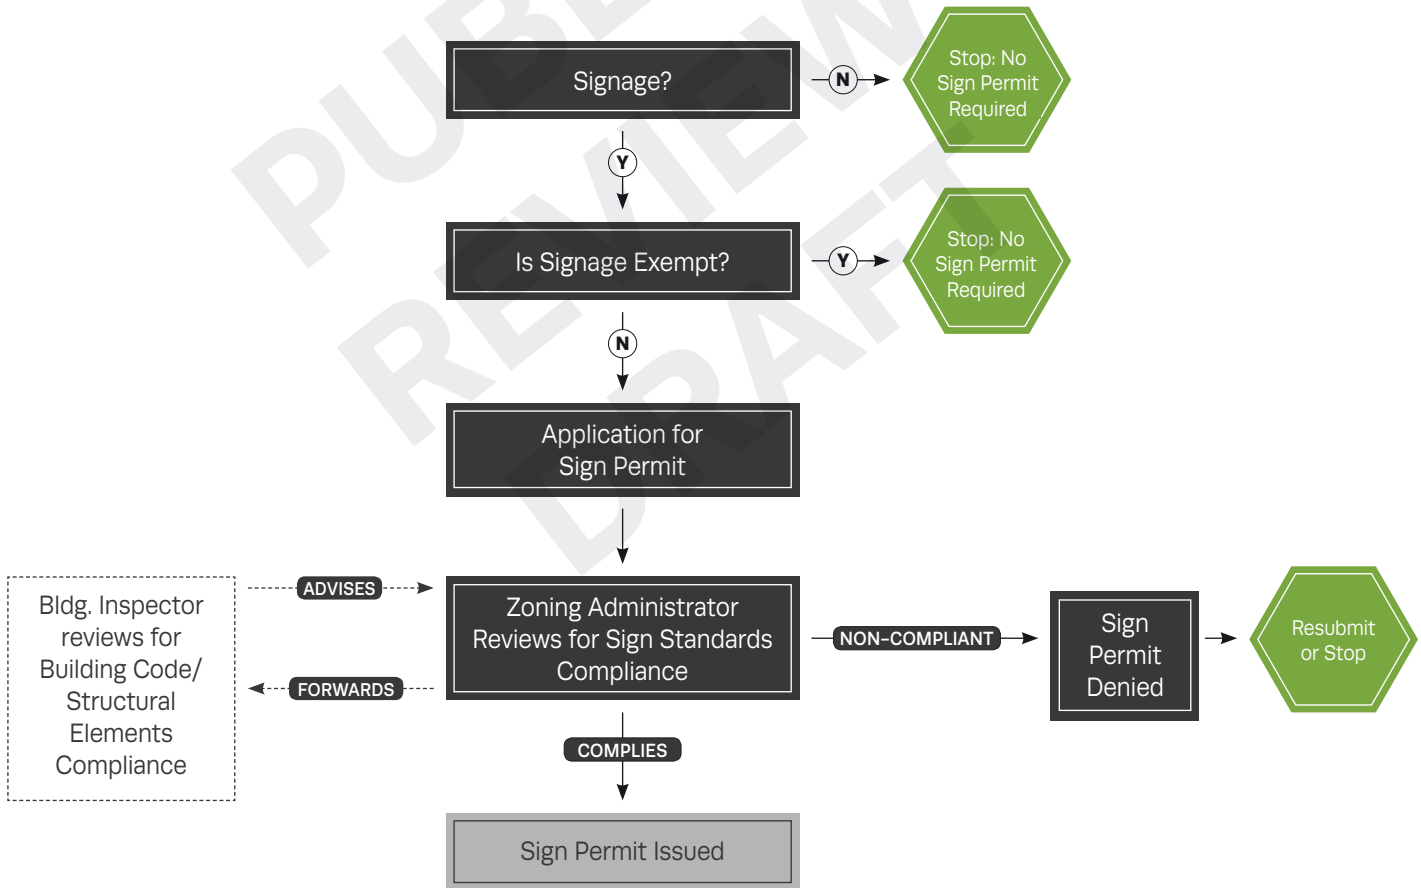

D. Sign Permits

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

- applicant on the Development approval process and the information required to submit a complete Site Plan application.
- iii. As a condition precedent to submission of a Site Plan application, if required pursuant to Section 26-6.803.3, the Development Review Committee must review and provide input on the proposed project, the Site Plan and the Site Plan application.
 - iv. No pre-submission discussion, statement, advice, feedback or review shall be binding on the Town.
- b. Coordination with other Approvals.
- As authorized by Indiana Code section 36-7-4-403.5, when a Site Plan requires other approvals, such as Variances or Conditional Use approvals, the applicant must identify in the Site Plan application all such other approvals that such applicant is seeking and may refer a draft Site Plan to the Plan Commission to obtain such Plan Commission's recommendation prior to making application for any other such approval.
- c. Submission of Site Plan Application.
- i. No later than six (6) months after feedback on the draft Site Plan application is provided to the applicant, and no fewer than twenty (20) days prior to the meeting of the Plan Commission at which the application is to be considered, the applicant must submit to the Zoning Administrator fifteen (15) printed copies and one (1) digital PDF copy of the complete Site Plan application, including all supporting documentation, accompanied by the appropriate submission fee and accompanying engineering review fee(s).
 - ii. The digital copy of the application must be clearly identified with the name of the applicant, project address, submission date, and case number, if assigned.
- d. Completeness Review by Zoning Administrator.
- i. Within six (6) months of submission of a Site Plan application, the Zoning Administrator must review and determine whether the application is complete.
 - ii. If the Zoning Administrator determines that the Site Plan application is complete, he or she must issue a Certificate of Completeness to certify completeness of the application and forward it and the Site Plan application to the applicable Plan Commission for review and action, and must notify the applicant that the application has been forwarded to the Plan Commission for consideration.
 - iii. If the Zoning Administrator determines that the Site Plan application is incomplete, he or she must notify the applicant of such determination with a written explanation regarding which items are incomplete, and must return the application to the applicant.
- e. Action and Decision by Decision-Making Authority.
- Upon receipt of a Certificate of Completeness and Site Plan application from the Zoning Administrator and the payment by the Applicant of all fees and reimbursable costs due to the Town, the Plan Commission shall

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

promptly schedule a public hearing on the matter, which must be set within 62 days of such receipt and shall:

- i. Provide public notice of such hearing in compliance with the public notice requirements set forth in Section 26-6.804.K;
- ii. Hold a public hearing on the on the Site Plan;
- iii. Make written findings concerning each decision to approve, approve with conditions, or disapprove a Site Plan, such findings to be signed by the Chairman and Secretary of the Plan Commission; and
- iv. Decide upon the application in accordance with its findings and determinations within 62 days after the hearing, based on the review criteria set forth in the following Section 26-6.804.G.8 and the process described in Section 26-6.804.G.9.

8. Review Criteria.

In reviewing, recommending, and taking action on a Site Plan, the recommending and the Decision-Making Authority shall take into consideration all relevant and material factors, including without limitation those set forth in Section 26-6.804.G.8.a below, shall ensure that the Site Plan and Site Plan application comply with Section 26-6.804.G.8.b-k below, and shall establish any appropriate conditions and safeguards in harmony with the general purpose and intent of this Article:

- a. General.
 - i. the public health, safety and general welfare,
 - ii. the comfort and convenience of the public in general and the residents of the immediate neighborhood in particular,
 - iii. the provision of a diverse and balanced housing stock, requirements for landscaping, fences, walls, and other features deemed necessary by the Decision-Making Authority to further the purposes of this Article,
 - iv. such other factors as may be necessary to secure and protect the public health, safety, comfort, convenience and general welfare, and
 - v. the relationship of the location of buildings and open areas to the uses located outside the site and the general pattern of development in the vicinity.
- b. Land use.
 - i. The Development must comply with the land use plan.
 - ii. The Development must be consistent with area development trends.
 - iii. The Development must be consistent with Adjacent land use.
 - iv. Compatible uses shall be located adjacent to each other, while incompatible uses shall be buffered from each other.
 - v. Uses shall be located in direct proximity to that portion of the transportation system best suited to accommodate these uses.

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

- c. Traffic impact.
 - i. The thoroughfare system on which the Development depends on must have sufficient capacity.
 - ii. The residual impact to Adjacent roadways and intersections must be minimized, including the location, number, and width of access drives.
 - iii. Functional and alignment continuity between developments must be maintained, including the use of internal roadways located in access easements.
 - iv. Pedestrian/bicycle routes should be encouraged, while maintaining safe separation from vehicular movements.
 - v. All industrial, highway-oriented businesses, and high-density multi-family uses shall be provided principal access via an arterial.
 - vi. All neighborhood and general businesses and offices shall be provided principal access via an arterial or collector.
 - vii. All single-family and low density multi-family shall be provided principal access via a local road.
 - viii. Other factors being equal, the amount of pavement shall be minimized.
 - ix. Parking shall be separated from access drives.
 - x. Delivery and loading areas shall be separated from customer/pedestrian areas.
 - xi. Pedestrian and vehicular movement areas shall be separated to the extent possible.
 - xii. Parking when possible shall be obscure from the roadway system, and rather the structure and accompanying landscaping shall dominate the line of sight.
 - xiii. Access roads shall align with other roadways to result in four-way intersections, rather than off-set.
 - xiv. T or off-set intersections shall be discouraged, but if unavoidable, shall be a minimum of 250 feet apart, measured at their centerline.
 - xv. Roadways shall intersect with others at or near 90 degrees.
 - xvi. Developments, or phases of developments shall not result in dead-end streets.
 - xvii. The number and length of cul-de-sacs shall be minimized, and in no case shall the length exceed 600 feet.
 - xviii. Frontage roads that parallel arterials shall intersect with Adjacent roadways a minimum of 500 feet from the arterial.
- d. Utilities.
 - i. The utilities servicing the development must have sufficient current and potential capacity.
 - ii. The development shall not have an adverse effect on the downstream storm water outlet.
 - iii. The off-site utilities must be installed consistent with the capital improvements program.
 - iv. Pond design and placement shall be regionalized when possible, but

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

- otherwise shall result in an aesthetically pleasing architectural amenity.
- v. No large-scale development shall occur which is reliant on individual septic systems.
- vi. When developments are phased, each phase must be viewed as the last phase, and shall therefore not rely on any future phase in order to satisfy the provisions of this policy.
- e. Urban design principles.
 - i. The proposed development must be compatible as to form with neighboring developments.
 - ii. Each development must become a part of a larger neighborhood, and therefore cannot be an island unto itself.
 - iii. The development must be adequately screened and buffered to minimize the ill effects of both the development on the surrounds and vice versa, and to provide identity and definition to the development.
 - iv. Open space, trees and shrubs, fences, earth berms, or compatible transitional land uses may all serve as buffers.
 - v. Features which possess uniqueness on a site shall be preserved.
 - vi. Structures shall not be located in the floodway.
 - vii. Changes to the natural terrain shall be minimized, including stands of mature trees.
 - viii. Open space proposed by a developer must be accessible, and where possible linked to an overall town-wide system.
 - ix. The development must result in a separation of residential areas from major noise-producing sources.
 - x. Development shall be restricted on lands with steep slopes, wetlands, unstable soil, filled areas, or areas of unique vegetation.
- f. Public services.
 - i. The proposed development shall not pose an undue burden on police or fire services.
 - ii. If the development results in a significant increase for park, school, or other public services, property dedicated for these purposes shall be required as a condition of development.
 - iii. Appropriate right-of-way and easement dedications shall occur in order to provide necessary access for proper utility maintenance.
 - iv. Streets internal to a development may be dedicated or private, depending on their design and function.
- g. Town Comprehensive Plan.

Without limitation to Sections 26-6.804.G.8.a-f, the proposed Development, Site Plan, and Site Plan application must comply with the Town Comprehensive Plan.
- h. Supplemental Development Standards.

Without limitation to Sections 26-6.804.G.8.a-f, the proposed

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

Development, Site Plan, and Site Plan application must comply with the following:

- i. The Supplemental Development Standards of Section 26-6.602 (Site Grading).
- ii. The Supplemental Development Standards of Section 26-6.603 (Site Drainage).
- iii. The Supplemental Development Standards of Section 26-6.604 (Sewage).
- iv. The Supplemental Development Standards of Section 26-6.605 (Utilities).
- v. The Supplemental Development Standards of Section 26-6.606 (Traffic Circulation).
- vi. The Supplemental Development Standards of Section 26-6.607 (Facilities for Persons with Disabilities).
- vii. The Supplemental Development Standards of Section 26-6.608 (Preservation of Natural Features).
- viii. The Supplemental Development Standards of Section 26-6.609 (Areas of Special Flood Hazard).
- i. Certificate of Completeness.

The Site Plan application must be complete, as evidenced by the Zoning Administrator's Certificate of Completeness.
- j. Certificates of Compliance.

The Site Plan and Site Plan application must comply with all applicable Building and Lot standards and requirements of Division 4, and all applicable Development Parcel

standards of Division 5, in each case as evidenced by the Zoning Administrator's Certificates of Compliance.

- k. Compliance with Other Town Laws, Rules & Regulations.

The Site Plan and Site Plan application must comply with all other applicable provisions of the Town Ordinances, Town Code, and Town rules and regulations, and with all applicable state and federal statutes and regulations.

9. Plan Commission Action.

The Plan Commission's action on a Site Plan shall be in accordance with the following:

- a. The Plan Commission may impose any or all of the following conditions to approval of a Site Plan:
 - i. conditions that are reasonably necessary to satisfy the development requirements specified in this Article for approval of the Site Plan;
 - ii. conditions requiring the furnishing to the Plan Commission of a bond or written assurance that:
 - I. guarantees the timely completion of proposed public improvements in the proposed development; and
 - II. is satisfactory to the Plan Commission; and
 - iii. conditions permitting or requiring the owner of real property to make a written commitment under Indiana Code section 36-7-4-1015.
- b. Approval or Approval with Conditions.

A Site Plan and Site Plan application shall be approved or approved with conditions imposed pursuant to Section 26-6.804.9.a,

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

upon the Plan Commission's finding that the application and Site Plan are in compliance with the review criteria set forth in Section 26-6.804.G.8 and that all required written commitments, bonds, or other security have been provided.

- ii. If a Site Plan and Site Plan application are approved or approved with conditions, the Site Plan as approved and written findings of fact must become part of the record of approval, and subsequent actions relating to the authorized Development must be consistent with approved items.
- c. Disapproval.
 - i. A Site Plan and Site Plan application must be disapproved if the Decision-Making Authority determines that the application does not comply with any one or more of the review criteria set forth in Section 26-6.804.G.8.
 - ii. Disapproval must be in the form of a resolution by the Decision-Making Authority setting forth the reasons for its disapproval. A copy of the resolution must be sent to the applicant within ten (10) days of its passage.
- d. Endorsement of Action.

Upon approval, approval with conditions, or disapproval of a Site Plan and Site Plan application and payment by the applicant of any unpaid fees and reimbursable costs due the Town, the chair of the Plan Commission and the Plan Commission Secretary must endorse the action taken on six (6) copies of the Site Plan and must immediately provide one (1) copy to the applicant with written notice of the action, and one (1) copy to each of the Zoning Administrator, the Building

Inspector, the Town Engineer, and the Town Clerk for retention in their records.

10. Failure to Follow Site Plan.

If there is any departure from an approved Site Plan, the applicant shall be given thirty (30) days to correct the same. If the same is not so corrected, the applicant must be in violation of this Article and the Plan Commission may at its discretion void the Site Plan approval.

11. Expiration or Lapse of Approval.

- a. If a Building Permit related to an approved Site Plan application is not issued within one (1) year from the date the Site Plan was approved, the approval shall expire.
- b. Site Plan approval shall expire within one (1) year from the date of approval unless within such period, construction commences in accordance with the terms of the approval and the related Building Permit.
- c. In the event of the expiration of a Site Plan approval, the holder of the approval may by request in writing to one (1) extension of the Site Plan approval for an additional one (1) year period.
- d. In considering such an extension request, the Plan Commission may consider any changes in this Article, the Zoning Map, the Comprehensive Plan, or circumstances or conditions affecting the approval of the Site Plan application that have occurred since the initial approval.

12. Modification of Site Plan.

- a. When the holder of an approved Site Plan determines that a modification of the Site Plan or stipulations would provide for a more appropriate or more practicable development of the site, such holder

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

may apply to the Plan Commission for an amendment of the Site Plan or stipulations by filing an application for such amendment.

- b. If the requested change is not a substantial change to the Site Plan or stipulations, as determined by the Plan Commission, the request may be approved if it is determined that such modification of the Site Plan or stipulations would provide a more appropriate development of the site, or when, because of exceptional circumstances, close adherence to the approved Site Plan or strict construction of the provisions of this Section 26-6.804.G would produce unnecessary impracticability in the Development of the site.
- c. If the requested change is in the opinion of the Plan Commission a substantial change of the Site Plan or stipulations, the request shall be subject to all notice, hearing, review criteria, and procedures as if the request were an application for approval of a new Site Plan.

13. Condition to Issuance of Building Permit.

No Building Permit shall be issued for any proposal that would require approval of a Site Plan application unless a Site Plan application has been approved and remains in effect and such approval has been certified by the Zoning Administrator.

If the Building Inspector determines that any proposed construction or occupancy will not, in his opinion, substantially comply with the approved Site Plan or requirements of such approval, the Building Permit for such construction or occupancy shall be withheld by the Building Inspector, and the matter shall be referred to the Plan Commission for review.

14. Performance Bonding.

Upon approval of a Site Plan application, the applicant must file with the Town Engineer a performance bond or other suitable security ("bond") in accordance with Section 26-6.125 to cover the full cost of required public Improvements in an amount set by the Town Engineer.

H. Subdivision Plats.

Subdivision Plats shall meet the standards and requirements of this Article and the Town Subdivision Regulations as the same are in effect from time to time, and shall be prepared, submitted, reviewed and acted upon in accordance with such Town Subdivision Regulations.

I. Deviations from Standards & Requirements.

1. Variances

- a. Use Variance applications are subject to review, hearing, consideration, and recommendation by the Board of Zoning Appeals and approval, approval with conditions, or disapproval by the Town Council.
- b. Development standards Variance Applications are subject to review, hearing, consideration, and approval, approval with conditions, or disapproval by the Board of Zoning Appeals.
- c. In recommending or taking action on a Variance request, the Board of Zoning Appeals or Town Council, as applicable, shall recommend or approve such request only in

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

d. Any application for a Variance shall be subject to the notice requirements set forth in Section 26-6.804.K.

e. A record shall be established of all Variances granted pursuant this Article. Files shall be available for public inspection.

f. Guiding Principles

i. Every decision by the Board of Zoning Appeals granting a Variance shall clearly set forth the nature and extent of such Variance.

ii. Every Variance granted by the Board of Zoning Appeals may be made subject to such conditions and safeguards as the Board shall deem to be appropriate for the particular case. Violations of such conditions or safeguards that are a part of the Board's decision shall be deemed a violation of this Article punishable under the provisions of this Division 8.

g. General Standards.

A Variance may be granted only if the Decision-Making Authority has made the following determinations for such Variance:

i. the practical difficulties or unnecessary hardships that would be incurred by strict application of the Use or Development standard, as applicable, are unique and not shared by all properties in the vicinity and are not self-imposed;

ii. such Variance is the minimum Variance that will relieve such practical difficulties or unnecessary hardships, as applicable;

iii. such Variance is in the spirit of the general purposes and intent of this Article as stated in Division 1;

iv. such Variance is so designed as to provide reasonable consideration to, among other things, the character of the neighborhood, District, or Civic Zone, the conservation of property values in the vicinity, and the guidance of Development in accordance with the Comprehensive Plan;

h. Specific to Development Standards Variances.

A Variance from Development Standards may be approved or approved with conditions only if:

i. it will not be injurious to the public health, safety, morals, and general welfare of the community;

ii. the use and value of the area Adjacent to the property included in the Variance will not be affected in a substantially adverse manner; and

iii. the strict application of the Development Standards will result in practical difficulties in the use of the property.

i. Specific to Use Variances.

i. The Decision-Making Authority may impose reasonable conditions as a part of its approval of a Use Variance.

ii. A Use Variance may be approved or approved with conditions only upon a determination by the Decision-Maker in writing that:

i. it will not be injurious to the public health, safety, morals, and general welfare of the community;

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

- II. the use and value of the area Adjacent to the property included in the Variance will not be affected in a substantially adverse manner;
- III. the need for the Variance arises from some condition peculiar to the property involved;
- IV. the strict application of the terms of this Article will constitute an unnecessary hardship if applied to the property for which the Variance is sought; and
- V. it will not interfere substantially with the Comprehensive Plan.

j. Application Fee.

The fee for Variance applications shall be as may be established by the Town from time to time.

k. Form of Application.

Variance applications shall be submitted in the form required by the Town, as available in the Town Planning Department office.

l. Notice and Hearing.

- xi. The Zoning Administrator shall review the petition for completeness and if found to be complete, will issue a Certificate of Completeness and forward the petition to the Plan Commission.
- xii. The Plan Commission shall give public notice of and conduct a public hearing on the petition as provided by law in the case of an amendment to this Article.

At the hearing, the owner shall present the Development Plan to the Plan Commission and shall discuss the petition and such plan with the Plan Commission.

- xiii. The Plan Commission may recommend the establishment of the proposed SD-PUD Planned Unit Development Special District or amendment to SD-PUD Planned Unit Development Special District, provided that it finds that the petition establishes that:
 - I. The proposed Development in the SD-PUD Planned Unit Development Special District or amended SD-PUD Planned Unit Development Special District will not detrimentally affect present or potential property values or Uses of Adjacent property or elsewhere in Town.
 - II. The proposed Development in the SD-PUD Planned Unit Development Special District or amended SD-PUD Planned Unit Development Special District adequately

takes into account existing and proposed conditions and character of the land, Uses, Buildings, and Development proposed to be subject to the SD-PUD Planned Unit Development Special District or amended SD-PUD Planned Unit Development Special District and within all Adjacent Districts.

- III. The proposed Development in the SD-PUD Planned Unit Development Special District or amended SD-PUD Planned Unit Development Special District will have a beneficial effect on the Town, which could not be achieved if the SD-PUD Planned Unit Development Special District or amended SD-PUD Planned Unit Development Special District were not approved and the such Development was developed under the standards of any other District.
- IV. Any deviation from the standards or requirements that otherwise would be applicable with another District is warranted by the design and amenities incorporated in the Development Plan.
- V. The SD-PUD Planned Unit Development Special District or amended SD-PUD Planned Unit Development Special District is necessary to address unique site conditions that are not characteristics of other sites in the Town and the application and Development Plan adequately address the same.
- VI. The proposed SD-PUD Planned Unit Development Special District or amendment to SD-PUD Planned Unit Development Special District and the Development proposed therein are:
 - 1) either compatible with the land and existing or anticipated Development Adjacent to such SD-PUD Planned Unit Development Special District

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

- or the land and existing or anticipated Development Adjacent to such SD-PUD Planned Unit Development Special District can be planned in coordination with the proposed Development within such SD-PUD Planned Unit Development Special District;
- 2) the most desirable Development and Use(s) for which the property subject to the proposed SD-PUD Planned Unit Development Special District or amended SD-PUD Planned Unit Development Special District is adapted; and
- 3) constitute responsible growth and Development.
- VII. The proposed SD-PUD Planned Unit Development Special District or amendment to SD-PUD Planned Unit Development Special District is in conformance with the general intent of the this Article and the Comprehensive Plan.
- VIII. Existing and proposed Thoroughfares are suitable and adequate to carry anticipated traffic within the proposed SD-PUD Planned Unit Development Special District or amended SD-PUD Planned Unit Development Special District and its vicinity.
- IX. Existing and proposed utility services are adequate for the proposed Development within the proposed SD-PUD Planned Unit Development Special District or amended SD-PUD Planned Unit Development Special District.
- X. Each phase of the proposed Development within the proposed SD-PUD Planned Unit Development Special District or amended SD-PUD Planned Unit Development Special District, contains the required parking spaces, and landscape and utility areas necessary for creating and sustaining a desirable and stable environment.
- XI. The proposed SD-PUD Planned Unit Development Special District or amended SD-PUD Planned Unit Development Special District and all proposed Buildings, parking accommodations, and landscape and utility areas therein can be completely Developed within five years of the initial establishment of the District.
- XII. All conditions and requirements of Sections 26-6.804.L.9.a - .k have been satisfied.
- xiv. Based on the standard of review set forth in the preceding Section 26-6.804.L.9.k.xiii its findings, and any conditions, restrictions, and requirements it may establish pursuant to Section 26-6.804.L.9.k.xviii the Plan Commission shall recommend to the Town Council that the application and Development Plan be approved, approved with modifications, or disapproved. The Plan Commission shall enter its findings and reasons for such action in its records.
- Review, hearing, and recommendation by the Plan Commission pursuant to this Section 26-6.804.L shall constitute submission to, and public notice, hearing and recommendation by the Plan Commission required pursuant to Section 26-6.804.L.9.k.xii-.xiii.
- xv. After issuance of the Plan Commission recommendation, the Town Council shall notice and conduct a public hearing on the application and Development Plan as a proposed zoning map change and text amendment to this Article 26.

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

- xvi. Based on the standard of review set forth in 26-6.804.L.9.k.xiii, the findings of the Town Council, and any conditions, restrictions, and requirements it may establish pursuant to Section 26-6.804.L.9.k.xviii, the Town Council shall approve, approve with modifications, or disapprove the application, petition, and Development Plan.
- xvii. Unless the proposal provides for a later effective date, the SD-PUD Planned Unit Development Special District Ordinance takes effect when the proposal is duly adopted.
- xviii. The Plan Commission and/or the Town Council may establish such conditions, restrictions, and/or requirements upon any recommendation or approval, as applicable, of any SD-PUD Planned Unit Development Special District proposal or phase of Development in an SD-PUD Planned Unit Development Special District as it deems necessary to protect the public interest, improve the Development, and/or protect Adjacent areas, or secure compliance with the standards and requirements of this Section. Without limitation to the preceding sentence, such conditions, restrictions, and/or requirements may be established on or with respect to the location, design, layout, construction, maintenance, beautification, aesthetics, operation, and/or other elements of the SD-PUD Planned Unit Development Special District, Development therein, or any phase thereof.
- xix. Following approval of an SD-PUD Planned Unit Development Special District by the Town Council, Plan Commission approval must be obtained for each phase of Development within an SD-PUD Planned Unit Development Special District.
- Such approval shall be valid for a period of 18 months, at which time, unless the proposed phase of Development has received a Building Permit and construction has begun, or the approval for such phase has been extended, such approval shall expire.
- xx. In all cases in which approval is granted with respect to any SD-PUD Planned Unit Development Special District proposal or Development within an SD-PUD Planned Unit Development Special District or phase thereof approval is granted, the Plan Commission or Town Council, as applicable, shall require such evidence, guarantees, or other assurances of performance as it may deem necessary to assure compliance with the conditions, standards, and requirements of such approval.

M. Enforcement & Penalties

1. Authority.

The Planning Director (or his/her designees) is designated to enforce the provisions, regulations, and intent of this chapter. All remedies and enforcement shall comply with the powers set forth in IC 36-7-4 and all other applicable state laws.

2. Violations.

Complaints made pertaining to this chapter shall be investigated by the Planning Director, Code Official, and/or their designees. Action may or may not be taken depending on the findings. The degree of action will be at the discretion

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

of the investigator(s) and should reflect what is warranted by the violation.

3. Inspection of Property.

a. Inspections of property may be made by the Planning Director or his/her designee from a right-of-way without permission of the property owner, or adjacent property with permission, or from the property suspected of a violation once he/she has presented appropriate evidence of their authority and describe the purpose of their inspection to the owner, tenant, or occupant at the time of the inspection, if applicable.

b. In the event the investigator(s) is/are denied entry to the subject property, the investigator(s) may apply to the court of jurisdiction to invoke legal, applicable, or special remedy for the inspection of property and the enforcement of this chapter. The application shall include the purpose, violation(s) suspected, property address, owner's name, if available, and all other relevant facts. Additional information shall be provided as requested by the court.

4. Responsibility for Violations.

The owner of any property or building, or part thereof, shall be responsible for the violation. Architects, builders, developers, or agents thereof may also be held responsible for the violation if evidence of their involvement or negligence is found.

5. Liability.

A Structure that is raised or converted, or land used in violation of this chapter or its subsequent amendments may be deemed a common nuisance, and the owner or possessor of the structure or land is liable for the nuisance.

6. Violations During the Development/Construction/Building Process.

The Planning Director or Code Official may place a stop-work-order or violation notice on any land/property improvement process. Stop-work-orders shall be issued by written letter which shall state the violation and that work or illegal activity must stop immediately until the matter is resolved. This letter shall be posted in a conspicuous place or be delivered/mailed to the owner, developer, property manager, tenant, or occupant.

- a. The Planning Director must meet with the person(s) served the stop-work-order notice within seven days of any such meeting being requested. A memorandum of agreement shall be drafted stating the conditions by which construction or action may be resumed. This memorandum of agreement must be signed by the owner, developer, property manager, tenant, or occupant that has caused, or is responsible for the violation and the Planning Director.
- b. Reasons for a stop-work-order include, but are not limited to:
 - i. Not complying with development standards and/or any regulations of this chapter or the subdivision control code;
 - ii. Not obtaining an Improvement Location Permit prior to the start of construction of any improvement for which a permit is required by this Chapter;
 - iii. Not completing structures or other improvements consistent with any approved

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

improvement location permit, variance, special use, or other approval;

iv. Not meeting the conditions or commitments of a Conditional Use, Variance, or zoning amendment;

v. Not meeting the conditions of site development plans, planned unit development detailed plans, covenants, or written commitments which are enforceable by the Plan Commission; and

vi. Illegal use or expansion of use of structures, or structures and land in combination.

7. Types of Violations.

The following items shall be deemed civil zoning violations:

- a. The placement or erection of a primary structure, accessory structure, sign, or any other element determined by the Planning Director to not conform to the provisions or explicit intent of the zoning code;
- b. The maintenance of a Structure, Sign, or any other element determined by the Planning

Director to not conform to the provisions or explicit intent of this Chapter;

c. Failure to obtain any Improvement Location Permit when required by this Chapter or the Building Code;

d. Conducting a Use or Uses that do not comply with the provisions or explicit intent of this Chapter;

e. Any failure to comply with the Development standards and/or any regulations of this Chapter;

f. Proceeding with work under a stop-work-order or a violation of a memorandum of agreement; and

g. Any failure to comply with commitments or conditions made in connection with a rezoning, special use, variance or other similar or documentable commitment, including verbal agreements during official Plan Commission, Board of Zoning Appeals, and/or Town Council meetings.

8. Procedure for Violations.

There shall be a three-step procedure for violations of this chapter. These steps are as follows:

- a. The Planning Director shall issue a notice of violation to the person(s) who has committed, in whole or in part, a violation. The notice of violation is a warning to the violator(s) that a violation has been determined and that it must be corrected within 15 days of the mailing date or posting of notice. b. If the violation is one of those for which the Structure or premises may or must be vacated, such fact shall be stated in the notice, and a notice to that effect shall

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

be affixed to the front of the premises giving notice thereof.

- b. If after 15 days, the violation has not been corrected, the Planning Director shall issue a notice of fines and penalties to the person(s) who have committed, in whole or in part, a violation. The notice of fines and penalties is a citation that states the fines and penalties for the violation.
- c. If the person(s) in violation refuses to pay or comply with the penalties, or correct the violation, after notice has been given, the Plan Commission or Town Council may pursue court action through a court of jurisdiction. Fines and liens against the property may also be pursued until the matter is resolved.

9. Immediate Public Risk Violation.

- a. Immediate public risk violations shall include:
 - i. Signs, Structures, landscaping or other materials placed in a public right-of-way, easement, or sight visibility triangle in violation of this Chapter;
 - ii. Any Sign, Structure, landscaping, or other material located on private property which serves to distract or inhibit operators of motor vehicles on adjacent public streets, pedestrians, or other members of the general public; and
 - iii. Any other immediate threat to public welfare as determined by the Town Council, Plan Commission, Board of Zoning Appeals, Planning Director, Town Engineer, Police or Fire Chief, or other public official.
- b. Any Sign, Structure, landscaping or other material which constitutes an immediate public risk violation may be seized by the Planning Director in a manner that results

in minimal damage to the material and the property upon which it is located.

- c. The Planning Director shall provide notice to the owner of the property upon which the violation was located, or any discernible appropriate owner of materials placed within the right-of-way in violation of this chapter, by either placing a notice in a conspicuous place on the property or by letter.
 - i. The notice shall be sent to the property owner via certified mail within 24 hours of the seizure.
 - ii. The notice shall include the following:
 - I. A description of the materials seized;
 - II. A citation of the sections of this Chapter which were violated and the characteristics of the violation which posed an immediate threat to public welfare;
 - III. The address and phone number of the Plan Commission office and the name of the person to be contacted by the property owner to discuss the violation and request the return of the seized item; and
 - vi. Instructions describing how, where, and when the seized items may be claimed.
- d. The Planning Director shall store any Sign, Structure, landscape materials or other items seized in a secure location for a period of no less than 30 days from the date notice was provided to the property owner. The property owner may claim the seized property at any time following its seizure upon the payment of a \$25 fine and the establishment of a memorandum

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

of agreement between the property owner and Planning Director regarding the future use of the item in a manner consistent with this Chapter.

- e. Neither the Planning Director, the Town or any other official or entity involved in the seizure shall be liable for any damage to the seized item or the property from which it was taken.

10. Fines & Penalties.

- a. Monetary fines may be imposed for each civil violation determined upon a single inspection. Fines shall be assessed for each day that the violation is present following the provision of any notice of violation to the property owner or other responsible party.
- b. No fine for any single violation shall exceed \$2,500 per day. Payment of any violation shall be made to the Town Clerk-Treasurer. A receipt of payment must be recorded, and a receipt issued to the person making payment.

11. Appeals or Trials.

- a. Any person receiving a notice of violation and/or fines and penalties may appeal the violation and/or fine to the Board of Zoning Appeals (BZA) or to a court of jurisdiction. A written statement from the person in violation, either filing an administrative appeal consistent with this article or giving notice of the filing of an action with a court, shall be submitted to the Planning Director via certified mail at least three days prior to the date any fine is due.
- b. Fines due will be postponed until the BZA or court of jurisdiction has made a ruling as to the violation and/or fine. The person(s) in violation shall have 30 days to file for a hearing with the BZA or court of jurisdiction. Also, the person(s) in violation shall have a maximum of six months to complete the hearing process with the BZA. Failure to meet these deadlines

will reinstate all fines due by the person(s) in violation.

- c. No additional notices will be issued by the Planning Director if the person(s) in violation has (have) submitted an appeal or notice of court review.

12. Enforcement, Remedies, & Injunctive Relief

- a. The Town, or any enforcement official designated by this Chapter, may bring an action in the Circuit or Superior Court of the county to invoke any legal, equitable, or special remedy, for the enforcement of any Code or regulation created under IC 36-7-4, and its subsequent amendments. This includes but is not limited to this chapter and the subdivision control code. The Plan Commission or any enforcement official designated by this Code may also bring an action in the Circuit or Superior Court of the county to enforce:
 - i. All agreements with the Plan Commission or its designees which have been recorded as covenants or written commitments in connection with a subdivision plat, a site development plan, or a planned unit development;
 - ii. All commitments made in accordance with IC 36-7-4 et seq.; and
 - iii. All conditions imposed in accordance with IC 36-7-4 et seq.
- b. The Town, or any enforcement official designated by this Chapter, may bring action in the Circuit or Superior Court of the county to restrain a person violating IC 36-7-4 et seq. or any code adopted under

DIVISION 8: ADMINISTRATION, PROCEDURE, & ENFORCEMENT

IC 36-7-4 et seq. which includes but is not limited to this chapter and the subdivision control code.

- c. The Town, or any enforcement official designated by this Chapter, may also bring an action in the Circuit or Superior Court of the county for a mandatory injunction, directing to remove a structure erected in violation of this Chapter or applicable state code.
- d. If the Town, or any enforcement official is successful in its action, the respondent shall bear all costs of the action.
- e. An action to enforce a written commitment made in accordance with IC 36-7-4 et seq. may be brought in the court of jurisdiction by any specially affected person who was designated in the written commitment.

N. Specific Procedure to Revoke Certificate of Occupancy or Building Permit

1. Notice of Non-Compliance

Without limitation to any of the other penalties, remedies, and rights of enforcement provided for under this Article, if the Zoning Administrator or the Building Inspector determines that a violation exists under this Article or any permit, license, registration, certificate, or approval granted or issued pursuant to this Article, or that one or more of the terms of any Building Permit or Certificate of Occupancy are not being complied with, the Zoning Administrator shall give notice of noncompliance to the owner, as shown on the latest assessment roll of the Town, by certified mail addressed to the address shown thereon, requiring that the specified violations

be corrected within five (5) days of the mailing of the notice and that, in the event that the violations are not corrected within that time, the Building Inspector shall revoke any such Certificate of Occupancy and/or Building Permit.

A return receipt or refusal of certified mail shall create a presumption of compliance with the mailing requirements hereof.

2. Re-inspection

On or after said fifth (5th) day of certified mail notice, the Zoning Administrator and Building Inspector shall reinspect the site, and, if the violations still exist, the Building Inspector shall revoke the Building Permit and/or Certificate of Occupancy, post a notice of revocation on the property or Building or Structure and mail a notice, by certified mail, to the owner thereof as shown on the latest Town assessment roll.

3. Appeal

In the event that any Person shall feel aggrieved by the revocation, such Person shall have ten (10) days from the mailing of the notice of revocation to file an appeal specifying the objections, together with a twenty-five dollar (\$25.00) filing fee, with the Town Manager, who shall review the same and give a decision, by certified mail, to the applicant at the address shown on the application. The revocation shall be stayed by the appeal from the date of filing until three (3) days after any notice of denial shall be sent by the Town Manager.
