

Thank you for your interest in the Centennial Park Beautification Program. This program is supported through the Munster Civic Foundation.

Centennial Park is a 200-acre park that was originally the site of the National Brick Company. Beginning in 1905, much of the site was used as a landfill.

The Town of Munster purchased the area in 1968. The northern most area and the 42-acre lake to the east was donated by the Community Foundation, the parent company of Community Hospital in the early 1990's.

The Town began planning for the reclamation of the site from the mid-1970s. The Park that you are enjoying is the result of a plan that was conceived in the 1990s and finalized before construction began in 2006. The landfill was closed in July 2004. The Park was dedicated on July 1, 2007.

Personalized plaques are a unique way to honor loved ones, commemorate special events, recognize social groups, youth athletic teams, businesses, and not-for-profit groups, as well as a way to contribute to the beautification of the park.

We appreciate your support for this community treasure and invite you to come back often.
