All meetings will be broadcast via Zoom as well as in person. Meeting information can be found Online at www.munster.org.

Lightning Warning System

Munster Parks and Recreation uses a lightning warning system in our parks. The signal is activated by threatening weather. You will hear an audible siren horn and see a flashing light on top of the device (typically located on shelter roofs) in the park. When the warning signal activates, all patrons must SEEK SHELTER IMMEDIATELY. Once you hear three horn signals, park activities can resume. This system is not fail-proof. Take shelter immediately when lightning threatens even if a signal has not sounded.

Active between
April 1 and Nov. 30 annually.
